

COXEY'S CRUSADERS.

THE COMMONWEAL ARMY WILL UNDERWAY.

No Physician in the Camp—Smith, the Mysterious Military Leader, Has Caught Cold—Coxey Goes to Chicago—Denies That He Is in Financial Straits.

ALLIANCE, O., March 29.—The sympathy of the people along the line of march is making it possible for Coxey's army to progress without any particular hardships. The men were cheered Tuesday morning by sausage, ham, bread and black coffee. Soap is still among the invaluable things and there is no danger that anybody is going to mistake this for a turnout of plutocrats.

Only the hobo contingent is provided with soap, and they are not particular about using it. The health of the marchers has been remarkably good considering their experience. Meals that are irregular, when they are provided at all, and sleeping on frozen ground with a scant covering of straw, is not ordinarily considered conducive to a man's well-being.

COMMANDER COXEY.

Louis Smith, the mysterious individual who is the military head of the enterprise, has a cold, attended with a husky voice. Smith's attire is still immaculate, but defects have been discovered in his military leadership. He has the decisive bearing of a man accustomed to command, but his system varies a little from Upson's tactics. He can start and halt the column, direct them to left face and right wheel, but he cannot direct the execution of more intricate movements. He is savage in denunciation of the plutocrats and the subsidized press and reckless they will be swept away. Smith is a man of very positive temperament and is intense in his hatred of those who have money.

The army arrived in Alliance footsore and weary, and at once set out on a begging expedition. Toes have been peeping from shoes that have yielded to the hard service, and the lack of clothes is still severely felt. Clothing and other supplies were asked for, but little was obtained. No dinner, and only peas, bread, potatoes and black coffee on the evening bill of fare has caused much grumbling, and it may lead to open mutiny. General Coxey went to Chicago Tuesday night. He and Browne addressed a crowd in the opera house. Browne's plausible defense of the crusade brought applause and \$10.92.

BUSINESS RESUMING AT RIO. Traces of War Have Disappeared and Vessels Are Loading and Unloading. RIO DE JANEIRO, March 27.—Affairs here are rapidly resuming their normal aspect, and aside from the damage done to the forts and along the water front by the firing of the insurgent warships all traces of warfare have disappeared. The past week has been one of general festivity, marked by the constant firing of salutes and the holding of reviews. The usual religious processions were held and the church services were very largely attended. For months past the city was filled with troops and almost everything partook of a military character. Now the troops, or at least by far the greater number of them, have gone south to reinforce the government forces where the insurgents are still opposing the federal authorities. The harbor has been deserted by all the foreign warships and the loading and discharging of merchant vessels is proceeding as before the revolution.

VICTORY FOR WAITE. Judge Glynn Decides in Favor of Police Board Appointees. DENVER, March 27.—Judge Glynn, in the district court, dismissed the contempt case and quashed the injunction against Mayor Van Horn and Fire and Police Commissioners Barnes and Mullin, and empowered the latter to assume the duties to which they have been appointed by Governor Waite at once.

Hot Exchange Between Attorneys. OMAHA, March 28.—There was considerable sparring and some friction in the proceedings before Judge Caldwell Tuesday in the case of the Denver and Gulf receivership. Attorneys Thurston and Holson indulged in several little passages, until finally Judge Caldwell suggested to Mr. Holson, who was speaking, that he confine himself to matters of record and cease the discussion of extraneous topics.

Not Troubled With Lumpy Jaw. OMAHA, March 28.—The South Omaha Live Stock Exchange has taken no cognizance of the lumpy-jaw legislation of the Chicago exchange. Very few animals affected thus are handled here, and those that come are killed by inspectors.

Thirty Were Killed at Santander. LONDON, March 26.—A dispatch from Santander fixes the number killed by the recent explosion of dynamite which was being removed from the sunken steamer Cabo Macchiaco at 30.

Governor McKinley Ill. COLUMBUS, O., March 29.—Governor McKinley is prostrated with a severe attack of bilious fever.

SILVER MEN AT DES MOINES.

The Convention Adopts Resolutions and Adjourns.

DES MOINES, March 24.—The national silver convention closed Thursday evening. At the morning session brief speeches were made on the question, "What is the proper remedy and how it may be best applied?"

President Johnson, of the Bimetallic league of Kansas, was the first speaker. Among the radical statements which Mr. Johnson made and which was loudly applauded was that Grover Cleveland was a greater traitor to our government than was Jeff Davis.

Ignatius Donnelly of Minnesota made a brief address in which he said: "The demonization of silver was a colossal conspiracy and crime, the greatest crime ever perpetrated against the human family. It is demonic." The league before adjourning passed the following resolutions:

Whereas, Silver was stricken by fraud, through the gold conspirators in the old political parties, notwithstanding the direct pledges of both of their national platforms; therefore, be it Resolved, That we recommend that the nominations for congress in the several districts should be made by the friends of free silver, who are unequivocally in favor of the unrestricted coinage of gold and silver on the basis of 16 to 1, and whose past acts are the best guarantee of their good faith and who will stand on the resolutions adopted by this convention; and that the said nominations be known to be positively in favor of free silver or by independent assemblages of men of all parties, the candidates being pledged, if elected, in case the election of president of the United States is thrown into the house of representatives they will vote for such candidate as is known to be earnestly in favor of free silver.

The resolution also favored the creation of the office of state engineer in the various states and legislation which shall encourage irrigation construction and development; that the executive committee of this association be instructed to cooperate with the executive committee of the various state organizations in sending able delegates to Washington to urge congress to take immediate action upon the bills now pending in behalf of the irrigation of the great plains.
