Table listing page numbers for various sections: General Washington, Miscellaneous, Plunged into a Trap, Council Proceedings, City News, Country News, Treasurer's Report, Talmage's Sermons, Crandall's March.

BRIEF MENTION.

Peter Nelson of Rosemont was in town Monday. John Ely was up from Guide Rock Monday. R. G. Lewis of Catherton was in town Monday. Wm. Sawyer was up from Guide Rock this week. W. E. Thorn of Bladen was in the city this week. J. E. Jones was up from Guide Rock Saturday. C. M. McClure was down from Blue Hill Monday. H. T. Bushnell of Hastings was in the city Saturday. J. M. Edgerton of Guide Rock was in town Monday. Mrs. Geo. Leming was visiting in the city this week. L. B. Thomas of Bladen was in Red Cloud this week. O. C. Klingman of Blue Hill was on our streets this week. J. N. Smith of Guide Rock was in town the first of the week. Judge Beal has been holding down the judicial bench this week. The mother of A. G. Willis of Arapahoe arrived in the city Tuesday morning. The board of supervisors are in session this week attending to the county's business. W. L. Knotts of Beatrice an old friend of N. W. Kingsland was in the city this week. Mrs. Mader, who has been visiting her sister, Mrs. Wm. Lindley, returned to her home in Superior Tuesday. Mrs. Ed Bohanan, accompanied by her sister, Miss Pearl Smith, returned to her home in Lincoln last Saturday. Red Cloud people are generously adding paint to their various dwellings, which gives them a brighter appearance. Don't forget the bicycle races on the 26th. The boys are going to have the best races that have occurred in the city. Vin Williams left Wednesday morning for a visit in Illinois, at the old stamping grounds. He expects to be absent about four weeks. Red Cloud has been filled with people this week. Travelling men, men attending court, attorneys and county supervisors comprise most of them. J. L. Harbison, editor of "Table Talk" Philadelphia, Penn., a nephew of G. W. Baker of Pleasant Hill township was in Red Cloud on last Saturday, and called on THE CHIEF. He is a very pleasant gentleman. He was accompanied by his daughter. An effort is being made by our enterprising people to have erected a soldier's monument in Red Cloud cemetery. This is a laudible purpose and ought to have the endorsement of every person in Red Cloud. We hope that the parties interested will be successful. TAKE NOTICE.—My daughter, Jennie House, having left my premises without my knowledge, and her whereabouts to me are unknown; I would consider it a great favor if any one knowing of her whereabouts would address me at Ina, Nebraska.—E. House.

LOCAL NEWS.

Go to the "Lake" For fresh groceries Wanted—City warrants—C. Calmes Miss Hoover was down from Blue Hill this week. A. D. Ranney of Blue Hill was in town this week. M. Powers was up from Norton, Kan., this week. C. B. McConnell was up from Superior Monday. Glass jars, rubbers and tops at A. Morhart & Son's. J. B. Briggie of Grand Island was in Red Cloud this week. Toulin of Columbus, this state, was in Red Cloud this week. Cotting's cold soda is the healthiest drink you can find this hot weather. E. E. Burr of Guide Rock was doing business in the county seat this week. If you put up any cherries you want glass jars. Buy them of A. Morhart & Son. The "Lake" will supply you with fresh fruits; don't fail to see the "Lake" scene on Saturday. Roy Outman carries his arm in a sling this week, caused by having his hand cut with a chisel. Pug Dog Lost.—Answers to the name of Jumbo. Big reward and no questions asked.—FRANK SMITH. Any one in need of sign work should call on F. P. Hadley. He guarantees a first class job or no pay. Treasurer White was in Blue Hill this week, where he went to see his father who has been quite sick. Curt Evans has everything you want in the second-hand furniture line. See him Blue Front, south Webster street. The "Lake" is to become a popular place, not only as a resort for the weary but a good place to invest your money. Wanted to trade merchandise for a good and gentle horse. Inquire of Jno B. Wright the second hand furniture man. Two weeks from Friday, July 20th, is the limit for charter members to go into the Degree of Honor of the A. O. U. W. Don't forget it. Don't forget that I am prepared to carry passengers to all parts of the city. Leave orders at the Holland House.—LOYD CRABBLE. R. B. Fulton fire and lightning insurance, Western White Bronze, monuments and cemetery goods. Office with Traders Lumber Co. The final limit on Ashbury Park, N. J., tickets has been extended to Sept. 1st, and on Cleveland, Ohio, tickets to Sept. 15th.—A. Conover, agent. Joe Fogle the harness man, located in the Chaney building North Webster St. for first-class work, substantial harnesses, saddies, collars and hardware. Ladies are respectfully invited to call at the city bathing parlors on Tuesday and Thursday afternoons. The rooms will be exclusively in charge of ladies. Miss Margorie Shepard of Guide Rock was visiting her grandma, Mrs. Rich, this week. She is a charming little girl and has quite a talent as an elocutionist. For the best meats and lunch go to the City Bakery and restaurant also fresh bread, buns, pies, cakes and fine candies, tobacco cigars, etc., at—Jos Herburger. R. S. Denney of Guide Rock was in Red Cloud this week and made this office a pleasant call. He said send THE CHIEF right along; I am very much pleased with it. Burlington Route agents at stations within 150 miles of Crete will sell tickets to the Crete Chautauqua Assembly at one fare for the round trip from July 6th to 14th.

Cotting's Pointers.

Do you know it is hot? A drink of our ice cold soda water is refreshing. We have the finest line of tooth brushes in the city. Try our new drinks, malt phosphates, nutritive and satisfies the thirst. Our perfumes are fresh and fragrant. Manitou mineral waters on draught. Bring us your prescriptions we use only the purest drugs, and employ a graduate in pharmacy.

CITY NEWS.

Mr. Rich was in the city this week. Elmer Tinker was in the city this week. Frank Hadley Was in Riverton Sunday. Fred Winton is home from Iowa on a visit. Chris Fassler was in the city this week. N. E. Robinson was in Blue Hill this week. A. T. Ormsby was in the city this week. The Mountain Wail at the opera house July 19th. N. E. Huston was down from Blue Hill this week. R. St. Clair of Holdrege was in Red Cloud Monday. Mrs. S. Foe is visiting in Louisville, Neb. this week. Mrs. W. J. Knepper of Orleans was in the city this week. Chas. Bacon of Holdrege was in the city the first of the week. H. Kachler was down from Blue Hill attending court this week. Mrs. N. W. Kingsland returned from Beatrice Tuesday evening. W. K. Taylor of Cripple Creek, Col., was in Red Cloud this week. J. W. Warren is able to be around again after quite a serious illness. N. B. Robinson and F. P. Hadley, painters, were in Guide Rock Monday. Remember the 19th, which is the date for the S. of V. drama, the Mountain Wail. Miss Dora Henderson returned from Womer, Kan., Monday to attend the institute. Joe McClelland got his foot hurt the other day and now has to walk on crutches. A. M. Walters, one of Blue Hill's prominent attorneys, is attending court here this week. Rev. Seymour of Guide Rock will preach in the grove at Amboy, Sunday, July 15, at 3 o'clock. Jno. O. Yeiser and wife of Omaha, former residents of this city, are visiting relatives in town this week. Mrs. E. P. Bolton returned Wednesday from Oskaloosa, Ia., where she has been visiting at her former home. Miss Nellie Kaley has been added to the corps of teachers in our public schools. It is a deserved compliment to the young lady. "Pap" Rust purchased the building this week occupied by F. V. Taylor, for the sum of \$5000. Real estate still booms in Red Cloud. The drama entitled the Mountain Wail to be given at the opera house the 19th will be one of the best ever produced in the city. Every body come. The nieces of D. F. McFarland, who have been visiting with himself and family for a week or two, returned to their home in Lincoln Wednesday morning. Perce McBride, who for the past three years has been employed in the jewelry store of L. M. Vance, went to Hastings last Saturday to accept a similar position. The two suspects arrested by Sheriff Runchey last week, supposed to be the men wanted for the atrocious murder in Holdrege a few days ago, were released, having failed of identification. Grandpa Ludlow was down town this week on a visiting tour for the first time in six years. The old gentleman is 81 years old and cast his first presidential vote for Ben Harrison's grandpa. The fire department is building up a record for fast time. Hose Company No. 2 is making some fast time these days, and expect to bring down their time to nearly as fast as any team in the state. A. A. Pope purchased the Yeiser lot north of James Peterson's implement house this week for which he paid \$600. Mr. Pope will erect a building thereon and we understand will embark in business. The Red Cloud Bicycle Club will give an ice cream social Tuesday evening July 17th at the court house park. Proceeds to go toward buying prizes for the races July 26th. Every body come and help the boys out. The First Annual Bicycle Meet of the Red Cloud Wheelmen, to take place July 26th, will furnish some excellent sport as there is a handsome list of prizes up to the amount of \$125. Watch for program next week. S. of V. cornet band of Red Cloud have accepted the proposition to furnish the music for the Interstate Reunion at Superior, to be held July 31 to August 4, 1894. This speaks well for our boys. Let Red Cloud have a good representation at the reunion of old comrades.

DOUBLE HEADER.—This week James Swearingen, the esquire, engineer for the Burlington route, notified his friends, that for the first time since the strike he had come in with a double header. The boys, who knew that Jim pulled the throttle on the switch enging marveled at such talk, and wise heads said Jim was off, but Jim knew that it was a fact and when pressed for a better explanation, he remarked that at 2:30 on Tuesday afternoon his wife gave birth to a pair of twins, and if that wasn't a double header, he'd quit railroading. The boys saw the point, and now they dub Jim the "Great Mogul" and he sets up the cigars right along without waiting for a fellow to ask. A GOOD DEAL.—During the first part of the week L. H. Rust, our popular townsman purchased the brick building now occupied by F. V. Taylor, the furniture man, paying therefor \$5000 cash. This is an excellent business property, and Mr. Rust has made a splendid deal, one that will bring him in a handsome monthly stipend. The property cost two or three thousand dollars more than the price given for it, when erected but under the circumstances went for a good price. Mr. Rust thinks he has made a good deal, and every business man in the city acquainted with the property thinks that way also. It was really cheap for the price sold for. We congratulate the gentleman on his acquisition of this valuable property. LANGUAGE OF THE MOUTH.—Some wisecracks propose to read woman's character by her mouth. Here are the rules to be observed: If her mouth is very small there is not much mind, but overmuch shallow sentiment. If she has a very large mouth she will possess a good brain, but the trouble is in kissing it. Large mouths put a man to an artistic test; he will be driven to his wife's end whether to begin at one corner and conclude at the other, or to make a heroic dash at the middle and endeavor to reach both corners. But if you are a kissing artist it can be covered nicely enough. If your sweetheart has a coarsely formed mouth she will be sensual and full of strong coarse points of character, and will raise a row in the family. If she has a delicately formed mouth, with rounded lips and of a velvety color, she will have much sensibility and perfection of character, but will not astonish by her brilliancy of conception or execution. It is a good mouth because it is kissable and submissive. Slant blue-lipped or thin-lipped women; they will bore you to death with literature or woman's rights, theorize while you want your dinner, or spoil your temper by their red hot scolding tongues. A LITTLE BUGGY.—The State University is now engaged in furnishing farmers with inoculated chinch bugs. All you have to do is to get a half pint of bugs and send them to the University and they will be inoculated and returned immediately. The University is very busy, in all sections active work is being performed, but in that of entomology, where Professor Bruner presides, more is being done than at any previous time in the year. The chinch bug laboratory in his charge, swarms with insects and he is busy receiving communications and packages of healthy bugs to be inoculated and in sending away those with infection, with instructions for their use. Today has not been a wonderful day for business and yet 41 packages of infected bugs have been sent out into ten or twelve different counties, and from each one comes the request to be expeditious as possible so as to save the crops that are being attacked. From many correspondents comes the request to be informed how to proceed in order to obtain diseased bugs. We answer do not wait to write to the experiment station, but gather up a half pint of healthy bugs and wrapping them securely send them to the station. Send a card stating what you have done, and within 48 hours there will be shipped to you some diseased bugs, with directions informing you how to proceed. HE SPARKED TOO LONG.—It is a very serious thing for a boy to be a boy. The other evening one of Red Cloud's boys went out to see his sweetheart, as many boys do now-a-days. He found her company very pleasant, and he stayed, and stayed, and then stayed, until the chancellors were winging their shrill choruses from the hill tops, announcing to the denizens of the city who were quietly reposing in the arms of Morphew, that the day was breaking in the eastern hills and that the blessed sun light would soon be upon them, if they did not hastily arise and hunt after "the early worm" according to the old maxim. We said he stayed, and so he did, but finally he tore himself away with many vain regrets, only wishing, that "he could stay always." He hid himself up the big highway, thinking of the pleasant evening that he had passed and all that, when he heard a light step approaching quickly. He stopped, the young man did, awaited for the owner of the steps to appear, and she did, and then the young man was taught, that the longest way around would not only be the nearest way home, but would have saved him some bitter thoughts, for it was his big mamma, who had gone in search of him, and with a good whip in hand proceeded to larrup the young man most of the way home. He says it won't be long before he will be 21, and then he'll just dare his ma to whip him when he goes sparking the girls. See? Willie Perry while playing with a toy cannon had the misfortune to have it go off while he was looking into the muzzle the powder flashing in his face, disfiguring him quite seriously. Physicians picked out a considerable amount, but his face still bears the marks of the conflict between powder and fun. Frank Peterson, son of James Peterson while attempting to get out of a wagon west of the city on Tuesday to get a whip, slipped off the wagon hub and had his leg broken. W. N. Richardson happened along when he brought him to the city, and Dr. G. E. and F. E. McKeeby saw the injured limb and the young man is getting along nicely at present.

Willie Perry while playing with a toy cannon had the misfortune to have it go off while he was looking into the muzzle the powder flashing in his face, disfiguring him quite seriously. Physicians picked out a considerable amount, but his face still bears the marks of the conflict between powder and fun. Frank Peterson, son of James Peterson while attempting to get out of a wagon west of the city on Tuesday to get a whip, slipped off the wagon hub and had his leg broken. W. N. Richardson happened along when he brought him to the city, and Dr. G. E. and F. E. McKeeby saw the injured limb and the young man is getting along nicely at present.

DOUBLE HEADER.—This week James Swearingen, the esquire, engineer for the Burlington route, notified his friends, that for the first time since the strike he had come in with a double header. The boys, who knew that Jim pulled the throttle on the switch enging marveled at such talk, and wise heads said Jim was off, but Jim knew that it was a fact and when pressed for a better explanation, he remarked that at 2:30 on Tuesday afternoon his wife gave birth to a pair of twins, and if that wasn't a double header, he'd quit railroading. The boys saw the point, and now they dub Jim the "Great Mogul" and he sets up the cigars right along without waiting for a fellow to ask. A GOOD DEAL.—During the first part of the week L. H. Rust, our popular townsman purchased the brick building now occupied by F. V. Taylor, the furniture man, paying therefor \$5000 cash. This is an excellent business property, and Mr. Rust has made a splendid deal, one that will bring him in a handsome monthly stipend. The property cost two or three thousand dollars more than the price given for it, when erected but under the circumstances went for a good price. Mr. Rust thinks he has made a good deal, and every business man in the city acquainted with the property thinks that way also. It was really cheap for the price sold for. We congratulate the gentleman on his acquisition of this valuable property. LANGUAGE OF THE MOUTH.—Some wisecracks propose to read woman's character by her mouth. Here are the rules to be observed: If her mouth is very small there is not much mind, but overmuch shallow sentiment. If she has a very large mouth she will possess a good brain, but the trouble is in kissing it. Large mouths put a man to an artistic test; he will be driven to his wife's end whether to begin at one corner and conclude at the other, or to make a heroic dash at the middle and endeavor to reach both corners. But if you are a kissing artist it can be covered nicely enough. If your sweetheart has a coarsely formed mouth she will be sensual and full of strong coarse points of character, and will raise a row in the family. If she has a delicately formed mouth, with rounded lips and of a velvety color, she will have much sensibility and perfection of character, but will not astonish by her brilliancy of conception or execution. It is a good mouth because it is kissable and submissive. Slant blue-lipped or thin-lipped women; they will bore you to death with literature or woman's rights, theorize while you want your dinner, or spoil your temper by their red hot scolding tongues. A LITTLE BUGGY.—The State University is now engaged in furnishing farmers with inoculated chinch bugs. All you have to do is to get a half pint of bugs and send them to the University and they will be inoculated and returned immediately. The University is very busy, in all sections active work is being performed, but in that of entomology, where Professor Bruner presides, more is being done than at any previous time in the year. The chinch bug laboratory in his charge, swarms with insects and he is busy receiving communications and packages of healthy bugs to be inoculated and in sending away those with infection, with instructions for their use. Today has not been a wonderful day for business and yet 41 packages of infected bugs have been sent out into ten or twelve different counties, and from each one comes the request to be expeditious as possible so as to save the crops that are being attacked. From many correspondents comes the request to be informed how to proceed in order to obtain diseased bugs. We answer do not wait to write to the experiment station, but gather up a half pint of healthy bugs and wrapping them securely send them to the station. Send a card stating what you have done, and within 48 hours there will be shipped to you some diseased bugs, with directions informing you how to proceed. HE SPARKED TOO LONG.—It is a very serious thing for a boy to be a boy. The other evening one of Red Cloud's boys went out to see his sweetheart, as many boys do now-a-days. He found her company very pleasant, and he stayed, and stayed, and then stayed, until the chancellors were winging their shrill choruses from the hill tops, announcing to the denizens of the city who were quietly reposing in the arms of Morphew, that the day was breaking in the eastern hills and that the blessed sun light would soon be upon them, if they did not hastily arise and hunt after "the early worm" according to the old maxim. We said he stayed, and so he did, but finally he tore himself away with many vain regrets, only wishing, that "he could stay always." He hid himself up the big highway, thinking of the pleasant evening that he had passed and all that, when he heard a light step approaching quickly. He stopped, the young man did, awaited for the owner of the steps to appear, and she did, and then the young man was taught, that the longest way around would not only be the nearest way home, but would have saved him some bitter thoughts, for it was his big mamma, who had gone in search of him, and with a good whip in hand proceeded to larrup the young man most of the way home. He says it won't be long before he will be 21, and then he'll just dare his ma to whip him when he goes sparking the girls. See? Willie Perry while playing with a toy cannon had the misfortune to have it go off while he was looking into the muzzle the powder flashing in his face, disfiguring him quite seriously.
