PENSION CHANGES.

The Forces in the Various Branches Classified for the Civil Service.

WASHINGTON, July 3.—The work of readjusting and classifying the forces of the pension offices of the country has just been completed with a view to shortly extending to them the protection of the civil service laws. Heretofore, as long as the pension agent kept within the amount allowed to him for the expenses of his office, he could do pretty much as he pleased in regard to the size of his force and the amounts of salary paid. When it was decided to put the offices under the civil service laws it was found necessary to change this system. The amount and character of the work done by each office was carefully noted and classifications made accordingly. While this has resulted in small reductions, both in force and salary, in some offices, in others there has been a corresponding increase, the total appropriation being about the same. The date when the civil service order will go into effect has not yet been determined, but will probably be soon, now that the classification has been completed.

Status of the Bicycle.

CHICAGO, July 3.—A decision of much importance to cyclists was rendered by Judge Payne, when he denied the petition of John H. Breckenridge, who is an attorney with offices in the Fort Dearborn building skyscraper, had attempted to leave his wheel in the basement during office hours, and upon permission being refused carried the matter to the courts.
