## Sunday School Rally.

The Sunday school rally, as per announcement, was held at Amboy the afternoon of July 14th. Members of the county board present were Mrs. Hayes of Guide Rock, Mrs. Cox of Amboy, R. B. Fulton, L. P. Albright and J. S. White of Red Cloud; pastors present, Rev. Spelman of R. C. About forty singers and a number of friends of the Sunday school from Red Cloud joined that large prosperous school in singing "All Hail the Power of Jesus' Name." On Thursday E. Rife and family left Miss Josie Igou presided at the organ, and Mr. Bell with his cornet helped fill the air with sweet melody. Each song that was sung seemed to enlist new singers, and was interspersed with short addresses by R. B. Fulton, Rev. Spelman, Mr. Sheldon and J. S. White. Mr. C. L. Cotting and Miss Nellie West favored the audience with beautiful solos. July 21st there will be a rally at the Beaunew. Apply to Edgar Cotting, at drug champ school house in District No. 8, five miles south of Red Cloud. Every-W. S. Garber and wife are rejoicing body is invited, and especially districts over the advent of a little baby girl at 39 and 34. Just as we adjourned, a plea to help organize a school in district 24 came. Immediate steps were taken and Turnure sprained her ankle which gave July 25, at 3 p. m., was the time set to help organize the school. Let this be a rally in truth. Everybody should be interested and lend their presence, if nothing more, to a neighboring district in your county when they ask your help. Let us ferget that old song, "Hold the Fort," and take up "Onward Christian Soldiers." UNION WORKER.

Last Monday night two of THE CHIEF'S reporters landed in Rosemont. National Weather Bureau The methods of the weather bureau

are still capable of improvement. It is still too thoroughly wedded to old 8 00 ideas. We have a hope Secretary Morton will find desk room for some one competent to utilize whatever has been discovered or is discoverable, in the so called system of "planetary meteorology." It has passed the experimental stage and has registered some remarkable suffcesses; attaining, in fact, a higher average of verifications of weather forecasts than that scored by the government weather bureau. When we consider the "long range" forecasts made by Meteorolegist Foster, without aid from the government, and the superior advantages enjoyed by the official weather bureau to purchase four dozen chairs for court systen, we are impressed with the force of the maxim that "a tree is judged by its fruits." These results can no longer be dismissed by prejudice or laughed out of hearing as unscientific. Truth is never unscientific no matter how strongly it impinges upon our preconceived notions. The only way to overturn a fact is to demonstrate that it is not a fact. As

last a conquerer. Will Secretary Morton signalize the appropriation of \$150 to build bridge change in the weather bureau by making it something more than a change of personnel?

long as it is a fact, it is stubborn and
