#### Judge McNeny.

On last Saturday evening after the band concert, the friends of James McNeny, candidate for district judge on the republican ticket, and many others of different shades of politics, escorted by the S. of V. band, marched to his residence and gave the next judge a grand ovation. The crowd was very large and on assembling at the residence and on the appearance of the worthy gentlemen three cheers and a tiger were given him amid the sweet strains of music by the band. Hon. Randolph McNitt acted as spokesman, and announced the purpose of the large gathering, when the Hon. J. S. Gilham, in his most eloquent way, paid a just and glowing tribute to the ability and moral worth of Mr. McNeny as a citizen and lawyer, and to the high esteem in which he was held by the people of Red Cloud. The judge, replied in a few well chosen words, after which the Hon. J. M. Longnecker of Chicago, a distinguished gentleman of that city stepped forward and delivered a very appropriate address which was cheered to the echo. The ovation was a fitting display of the enthusiasm which the nomination of the Hon. James McNeny has created in this city and district. It means that he will be elected by a very large majority.

#### EDITORIAL NOTES.

The lecture of Congressman Andrews last Friday night before the teachers' institute was very interesting and was listened to by a very large audience. The congressman is as eloquent as ever and will make his mark in congress.

The reunion at Hastings seems to have had a black eye from the beginning. First a heavy rain visited that city and detained hundreds from visiting the greatest reunion on earth and then to make the eye blacker, the armature of the dynamo burned out and left the people in the dark.

The prospect of the republican party for success was never better, people have learned that what the country needs is protection all along the line. Protection means employment for the laboring man and labor means money, and good times is the result of plenty of labor. The money question is not all there is of interest to the people.

The Rev. L. J. Harrington, pastor of the Catholic church of this city, has projected a church paper to be known as the "Catholic Chimes," to be located at Orleans, but to assume the position of a state organ, it being the only one of the kind in the state. THE CHIEF extends congratulations to Father Harrington and wishes him success in the journalistic field.

McKEIGHAN says that the "free coinage of silver" is the all absorbing question. Free silver might help for a time but it will not solve the great trouble of the day. It will not give the vast number of laborers work. To do that we must have our mills running, our factories going, our spindles buzzing, etc. Fine spun theories are all right but the people are tired of free trade and free loafing. What they want is bread and butter and a chance to make a good living. The last two or three years has been enough for the people. They want something else now besides theories.
