Health and strength carry us through dangers and make us safe in the presence of peril. A perfectly strong man with rich, pure blood, has nothing to fear from germs. He may breathe in the bacilli of consumption with impunity. If there is a weak spot where the germs may find an entrance to the tissues, then the trouble begins. Disease germs propagate with lightning like rapidity. Once in the blood, the only way to get rid of them is to kill them. That is what Dr. Pierce's Golden Medical Discovery is for. It purifies the blood. That means that it kills the germs, but that is only part of what it does. It assists digestion by stimulating the secretion of digestive fluids, so promoting assimilation and nutrition; purifies and enriches the blood, and so supplies the tissues with the food they need. It builds up strong, healthy flesh, and puts the whole body into a disease resisting state.

Mr. Edward Kan and Miss Elsie Greig were united in the holy bonds of matrimony, at the home of the bride's parents, at 12:30, February 5. Rev. G. W. Hummel spoke the mystic words, which made the two hearts one. A number of invited guests were present, who presented the young couple many valuable presents, along with the best wishes.

Another Blaze.

At half past five o'clock Sunday morning, fire was discovered in the Bentley block. A large volume of smoke was observed issuing from the law office of C. W. Kaley and R. T. Potter by the early risers, and immediately the alarm was given, and the peals of the alarm bell awoke the denizens of the city in a hurry, and soon afterwards a large crowd was in the vicinity of the fire. The night before there had been a number of gentlemen in the office attending to some business, when it occurred to them that there was smouldering fire somewhere and a careful search was instituted, but, upon the discovery of a match upon the top of the stove, nothing more was thought of it until in the morning when the alarm was given. There is no clue to the origin of the fire, excepting it originated from a live cigar stump. The fire department responded with their usual promptness and saved the building, not, however, until the offices were gutted of their contents. Attorney Potter lost about two hundred dollars in books and furniture, while Mr. C. W. Kaley lost a like amount. The loss to Mr. Bentley by water and fire will be from one to two thousand dollars, and perhaps more, covered by insurance in the Phoenix of Hartford, Conn. The State Bank caught a drenching, but opened up their doors Monday morning as usual. The Argus office occupied the basement and received a good sprinkling, but fortunately sustained but slight damage, having hurried the cases into an adjacent vault. There was no insurance on the office. The promptness of the fire department saved the building, and Mayor Bentley, in high appreciation of their efforts, drew them a check for twenty-five dollars. It was a proper spirit to show, as our fire department is a volunteer company, but cannot be excelled in the state.

The Red Cloud boys in Cripple Creek have struck it rich. The "Red Cloud Chief" mine is a rich lead and assays \$87 per ton. George Lindsey says that Cripple Creek is the richest mining cam in the world, and that miners from all portions of the world are there. There is no doubt but what our Red Cloud folks have fabulous wealth before them, provided all goes well. The ore is alive with gold, and the entire formation of that region is lined with the precious metal. THE CHIEF is not jealous of those who rise to affluence (because we were once poor ourselves) and hopes that the boys will find so much that they can afford to let us in on the deal. We could carry a little more gold than we have at present. May they become more wealthy than Monte Cristo.

The Nebraska and Kansas Interstate Fair will be held in Red Cloud September 14 to 19, inclusive. The agricultural board has decided to enlarge the possibilities of the fair and extend its influence into our sister state, and they are meeting with great encouragement. They have decided to give \$5000 in premiums, and \$2000 for speed. They will soon issue 2000 or more premium lists and push the exhibition to the front. They have adopted the right plan for success, and we look now for one of the grandest and most successful fairs ever held outside of Lincoln and Omaha.
