

Consumption

AND ITS CURE
 TO THE EDITOR:—I have an absolute remedy for Consumption. By its timely use thousands of hopeless cases have been already permanently cured. So proof-positive am I of its power that I consider it my duty to give two bottles free to those of your readers who have Consumption, Throat, Bronchial or Lung Trouble, if they will write me their names and postoffice address. Sincerely,
 A. SLOCUM, M. C., 183 Pearl St., New York.

Every person should try for this prize offer; it costs you nothing.
 Fred Goble says that his grandchildren can't appreciate good music. The other day he called the little boy to him and said: "Come sit on grandpa's lap and he'll sing to you." The little fellow looked into his venerable grandpa's countenance patronizingly and replied, "Don't sing, grandpa," and with that tired look Fred allowed a smile to pass over his facial organs and desisted. He says now if he just threatens to sing the little fellow will do anything for him to have him not do so.

"A Noble Mechanic."

The play given at the opera house last Tuesday night, under the direction of the Red Cloud S. of V. band, was rendered in an admirable manner, and was greeted with a full house, who showed their approval by hearty applause throughout the program. The cast of characters was exceedingly strong, and each individual acquitted himself or herself in a most creditable style.
 As Judge Henry Buttons, a retired and wealthy mill owner, Prof. D. C. Jenkins was a pronounced success. His make-up was perfect, and he looked the venerable judge to a degree that was almost a certainty. His gestures, facial expression and speeches were rendered in a corresponding manner.
 Geo. Newhouse, in the role of Harold Thomas, a gentleman of leisure, and the heavy villain of the play, made a decided hit. George was a dashing character, and played his part so well that he drew many a sweet smile from the audience.
 Henry Hansell, "a noble mechanic," the principal character, was acted by Wm. Tulleys in a way as to win him many laurels. Will is at home on the stage.
 Aristotle Thompkins and Horatio Squash, the Judge's most intimate friends, by Chas. White and Wm. Tulleys, were prominent parts and upheld their characters well.
 Ben McFarland, as Hans Von Sandt, the cook, was a comical personage in the Judge's household, and the numerous difficulties thrust upon this typical Dutchman were sorrowful to behold.
 J. O. Wiles and H. J. Clark in their make-ups as Julius and Neb, the colored servants, with their broad smiles, witty sayings, and comical antics, received their share of the attention and kept the audience in a continuous uproar. It is needless, of course, to say that several in the audience were victims of their jokes.
 Ben McCune, the policeman, with his blue coat and shining helmet, was a conspicuous figure when on the stage and played his role perfect.
 Mrs. D. C. Jenkins as Laura Bell, the Judge's ward, made a decided impression on the audience by the earnestness and ability she displayed in rendering her part. Laura Bell was the heroine of the drama, and handsomer one would be hard to find.
 Miss Mabel Saunders upheld her character as Mrs. Hansell in an able manner, and her clear voice sounded distinctly through the audience, as she spoke her sentences decisively. She appears well on the stage.
 Dolly, the maid, in the person of Miss Grace Fort, was a most winning and handsome participant. She was ruler of the manor in the Judge's absence, and made the servants toe the mark, so to speak.
 Miss Anna Tulleys impersonated Mary Harris, the sick child, in a very able manner.
 Miss Lillie Smith furnished excellent music for the occasion, with her usual unflinching execution.
 The rendition of "A Noble Mechanic" will be a pleasant memory to those who witnessed the play, and the compliments passed to the participants tell how well their efforts were appreciated.

A Bad Storm.

One of the worst looking storms that we have ever gazed upon appeared in the southern skies on last Friday evening between 6 and 7 o'clock. A bystander who might have been gazing toward the sunny south would have observed a deep black, inky cloud swiftly approaching, seemingly impelled with great velocity from some hidden force. Above and around the black cloud could be seen a great amount of Kansas real estate going northward with it. When the storm reached this city, and it looked villainously, it was so dark that the chickens went to roost and most people went into dugouts or cellars, thinking that an impending cyclone was at hand. One could not see his nearest neighbor's house, the dust was so thick and it was with great fear that the people prepared for the worst, which fortunately turned out to be only one of our dust storms added to several times. However, Red Cloud was only in the edge of the storm, for over in Garfield township the wind was very severe, and at Andy Hawley's house it was terrific. Mr. Hawley, wife and three children, started for a drive, and when they had gained the summit of an elevation near by they saw the storm for the first time and it was so close that although he ran the team he did not get back to the house before the storm struck him. He quickly unhitched the team and left them in charge of his wife, and he ran to the house to get his two children, and with one hold of each hand he started back to help his wife and other child. The dust was so thick by this time that he could not see a corn crib that he was going toward, when without a moment's warning the wind seemed to have broken loose, and the roof of the crib was taken off and landed near him, one end striking his little ten year old girl, Edna, breaking her left leg twice and her collar bone, besides otherwise bruising her. The peculiar part of it was, said Mr. Hawley, that the roof broke the leg next to him. The other child and himself escaped uninjured, as did his wife and younger child who had nestled down on the south side of the crib. Dr. Damerell was telegraphed for and reached here at noon and Dr. Hall had gone out before, and with their aid the little girl will recover. It was a very close call for Mr. Hawley and family. The same wind damaged Will Kuehn's barn \$50. Foreman J. C. Wolf's, Jas. Amack's sheds and set fire to a house of Morey King's in the edge of Kansas. Some other damage was reported, but there was no damage sustained in this city. It was the most frightful looking storm we have seen in Nebraska. Following the dust storm on Saturday afternoon at 5:30 o'clock commenced a rain that lasted over thirty hours, and one of the most beneficial rainfalls that Nebraska has had for three years, wetting down as far as two feet in sod land, and from three to four feet in plowed land. The rain came down steadily and most of it penetrated the thirsty earth. It fills the people with that "hope that springs eternal in the human breast." And well it may.

On Wednesday afternoon Mr. Harry Stroup was united in marriage to Miss Lizzie Sibert, Rev. Geo. W. Hummel officiating. Both the young people are well known in this city, and their friends take pleasure in wishing them a happy life. THE CHIEF extends congratulations.

We notice from a program received at this office that our esteemed fellow townsman, Prof. L. S. Wilson, superintendent of the Red Cloud Public schools has been included on the list of special instructors and lecturers at the Lincoln State Normal University, for the winter term. This is certainly a high honor to Mr. Wilson, when we notice his name among such celebrities as Hon. Wm. J. Bryan, A. L. Bixby, Prof. Chas. E. Besse, Hon. G. M. Lambertson, and many others. Prof. Wilson is an educated and polished gentleman, and our schools, under his management, have prospered wonderfully during the last year, and have went forward very harmoniously. We believe the state normal was very fortunate in securing his services.

Our political situation is of great importance to the people this year. For four years we have been living under democratic misrule and the people have become almost starved over the fallacious free trade doctrines of that party. A change must come and the people are only waiting for the time when they can replace the present administration with the republican party. We want men in congress who have the courage of their convictions and who will vote to restore the protective tariff, adopt an equitable financial policy whereby the yellow and white metal will have their places in the world's monetary centers, we want men who will legislate to help the farmers as well as the bankers, want men who will aid the people more and themselves less. Such men compose the republican party, and they will be returned to the legislative halls this fall with one grand sweeping victory.
