It has been discovered by the New York Tribune that every state in the union that voted for Abraham Lincoln in 1850 voted for Major McKinley in 1896 and every state that voted for Jeff Davis in 1861 voted for Bryan in 1896. The city authorities should see that steps are taken to suppress the youngsters who are running around town with rifles and shooting at birds. Several times the bullets fired by them have come in close proximity to pedestrians. They don't stop at birds but plug people's live stock also. Something should be done before some one is shot by weapons in the hands of these kids.

For more than twenty years we have been telling how Scott's Emulsion overcomes the excessive waste of the system, puts on flesh, nourishes and builds up the body, making it the remedy for all wasting diseases of adults and children, but it isn't possible for us to tell the story in a mere stickful of newspaper type.

We have had prepared for us by a physician a little book, telling in easy words how and why Scott's Emulsion benefits, and a postal card request will be enough to have it sent to you free. To-day would be a good time to send for it.

SCOTT & BOWNE, New York.

Dolly Reed was absent this week on account of last week's bad weather. She is a member of the fourth room and has not been absent or tardy before for about a year and a half.
