A man exhibiting as a curiosity on the street this week one of those Bryan free silver maps sent out by some of the poppers as a supplement before election. The United States was represented as a free silver dog wagged by the gold bug tail. Only a half dozen New England states were conceded for the gold standard while all the rest were for free silver. If you want to see the pops scatter pull out one of these maps in a crowd. It's more fun than a dog fight.—Council Grove Republican.
