The Beach & Bowers' minstrels which appear at the opera house next Wednesday evening are one of the finest minstrel troupes on the road and certainly deserving of a good house. An open date was all that secured this famous attraction for Red Cloud.  
The occupants of one of the business houses on main street has been bothered with what was supposed to be rats, for some time and last Tuesday one of the firm set a steel trap in the cellar to dispatch a few of the varmints. The first thing that happened to step in the trap was a skunk and since then the rats have been having pretty much their own way.  
The article in last week's Nation against Dr. Damerell and Andrew Berg will make no friends for that paper. These two gentlemen have many friends in this county who will resent the insult. The stand taken by Mr. Damerell in the late election was the result of friendship of long standing and was his own business. The statement that Andrew Berg was brought here to vote by Dr. Damerell is untrue as that gentleman wanted him to stay at Hastings and vote. Mr. Berg has always made this his voting place and that is the reason he came down this time.

Don't use bill heads or statements in which you have to write your own name. Get them printed in an up-to-date style. There is nothing which will make your customers think you are of the disposition to be penurious so much as this. If you are stingy in one way what reason is there to believe that you won't be in other ways. Get your printing done right at the CHIEF office.  
It is with great pleasure that we this week announce the marriage of Chas. E. Reigle to Miss Sophronia M. Robertson, which happy event was consummated at the residence of A. G. Agents for a steel range company have been in this vicinity lately and there is no doubt that some of our farmers have been caught by them. We understand that they sell their range for \$65 and there is no doubt in the world but what a better range than the one they sell can be bought of W. W. Wright of this city for \$45 or \$50. It beats all understanding why our farmer friends will be galled into buying goods of this kind from strangers who have no interest in the county, do not pay taxes or help to maintain the county in any way. We think the best thing for our farmers to do would be to give traveling fakirs of all kinds a wide berth and deal with responsible business men who are helping to maintain the county.  
The Chicago Tribune in speaking of Beach & Bowers' Minstrels which will appear at the Opera House in this city next Wednesday evening, November 17th, says: "The Beach & Bowers' Minstrels opened Sunday night with a crowded house, their first visit to Chicago. The impression created by the first performance is a good one, and from present indications there will be no end of attendance during their stay. The house Sunday night was jammed to the doors. It was a demonstrative crowd, too, and all the acts were given hearty applause. The troupe does not make a specialty of a \$10,000 wardrobe and a \$200 a week middle-man who tries to impress the audience as being the author of all the gags used, but have an earnest hard working company. The edge of the finest razor would lose its edge hunting for the slightest fuff on anything told. The after-piece is called 'Aunt Hannah's Christening,' and sends the people out well pleased."

The Nation has called a good many of the best populists in the county guerrilla bushwhackers because they had the nerve to come out and turn Prof. Wilson's picture to the wall.

The populist papers of this state and Kansas were mainly filled up with long tirades on traitors among their party. The truth is intelligent voters have begun to see the fallacies of Bryanism and are beginning once again to look for the betterment of their homes and country. No boys, they are not traitors, they are simply returning to prosperity and protection.

The republicans in this and Webster and many other counties elected their candidate for treasurer, while nearly everything else went to the populists. This must be because honesty is a scarce article among the pops and there are enough of them that realize it.—Riverton Review.  
Prosperity has just struck the Blue Hill Leader, and it has bulged out into a larger paper. Hope it is not due to a similar enlargement and new dress that the Blue Hill Times indulged in several years ago. The Times man modestly acknowledged then that it wasn't so much prosperity as it was a Hastings' mans lack of knowledge of draw poker, that permitted the Times to spread out.—Beatrice Express.  
Burglars entered the saloon Friday night by cutting a hole in the door on the south side and reaching inside and removing the fastenings. They drilled a hole in the door of the safe and put in a charge of powder heavy enough to completely demolish the front of the safe. But their efforts to turn an honest penny were fruitless, as the proprietor is not in the habit of leaving money in the safe over night. The curious part of the affair is that no one heard the noise of the explosion for it must have been a loud one from the amount of powder that was evidently used.—Guide Rock Signal.  
"Old Moore's" prophetic almanac issued in London for over a century, professes to forecast the most important events to happen in the world during the ensuing twelve months. It is claimed that last year Old Moore forecasted to the very month the terrible fire in the charity bazaar in Paris. Taking courage from this lucky hit, Old Moore prophesies for 1898 a terrible civil war in the United States, the death of the czar of Russia and the successful kidnapping of the young king of Spain. It also forecasted that during or about the second week of November, 1898, communication will be established between this world and the planet Mars. We would like to bet Old Moore that he has not hit once in this batch.—Minneapolis Journal.  
There was a railroad passenger coach on a Wymore side track last week that has quite a history attached to it. It had on its side in gold letters "The Cora Griswold" named after the wife of its owner. Upon the inside was seen the original name, Helvetin and was made by Fields & Pullman nearly forty years ago and was part of the train that bore Abraham Lincoln's party to Washington when he was first inaugurated president in 1861. It was originally built for the Erie when that was run as a broad gauge road. It is eight inches wider than the standard coach of today and was purchased of Mr. Pullman nine years ago. The owner of the car, Mr. Griswold, has just closed a successful season with his Uncle Tom's Cabin show and now proposes to have the coach cut down to standard width, and as much of the original material will be used in its construction as possible. The old coach attracted quite a little attention while down at Wymore.—Beatrice Democrat.

When an able bodied man comes to you with a tale of hunger and suffering, and asks the price of a meal, cast him into outer darkness. The work of begging goes on, although there is work for every man in the cornfields and elsewhere. The farmers are ransacking the country for workers, and cannot get enough. When a man deliberately says that he can't get work, he deliberately lies; and such a man deserves neither sympathy or aid, if he is hungry and ragged. The winter will soon be upon us, and the city will be called upon to provide fuel and fodder for the fellows who are too lazy to shift for themselves, and it would be a very good thing if the city and charitable organizations would refuse absolutely to help people of that character. The deserving poor, who suffer through no fault of their own, should always have liberal assistance, but it is an outrage upon society, and an injustice to tax payers, to help the loafers who do nothing all the year round but lean against buildings and grout.—Beatrice Express.
