Are You Pale?

Are your cheeks hollow and your lips white? Is your appetite poor and your digestion weak? Is your flesh soft and have you lost in weight?

These are symptoms of anemia or poor blood. They are just as frequent in the summer as in the winter. And you can be cured at one time just as well as another.

Scott's Emulsion

of cod liver oil with hypophosphites will certainly help you. Almost everyone can take it, and it will not disturb the weakest stomach.

It changes the light color of poor blood to a healthy and rich red. It nourishes the brain; gives power to the nerves. It brings back your old weight and strength.

The department was again willing to undertake the task but did not feel like starting without enough money to carry out the undertaking without going to its own treasury.

The Everton Review last week published an account of the shooting, tearing to pieces, trampling under foot and destruction of the American flag by the residents of the French settlement near Campbell, which the editor of that sheet must have written while suffering from a severe nightmare. The article is unworthy of reproduction, being a fake pure and simple, and reflects much discredit upon the French residents near the place where the occurrence is said to have happened and has created considerable just indignation among them. The people of that vicinity may be French, which is no discredit but they are by their own words, "American citizens and respect the American flag as much as any American, and do not want to be classed as anarchists and traitors to a country of which they have willingly become subjects."

There is no mistaking the signs of the times that prosperity is here in Nebraska. If there is any doubt on the subject the numerous fakirs, peddlers, shows and photographic outfits which infest this country at present would forever silence them. For the past week or ten days the city has had two photographic outfits to deal with and it goes without saying that they have made money here. While these fellows are making money here we believe it would be a good scheme for the city to get in line and help out the city finances by charging them a good round license for running their business. They and many other parties come here in direct competition with merchants of our city and it is due to our merchants that the license be made large enough so that a good sum may be turned into the treasury of the city or these pests made to strike Red Cloud from their list of stopping places. The charges for license of tent shows, fakirs, peddlers, canvassers and others is entirely too low and we think it would be a good idea for the council to look into the matter and draft an ordinance which would give our merchants protection or fill the coffers of the city.

An alarm of fire was turned in last night at 12:15, flames having been discovered issuing from the building on the corner southeast of the south ward school house, owned and occupied by J. A. Norris. The building and contents were entirely destroyed; insurance \$200 on the household goods. The fire is supposed to have originated from the explosion of a lamp. The department responded promptly but owing to the long distance to the scene of the conflagration arrived too late to be of much service.

Red Cloud, in all probability will not celebrate this year. A subscription paper was circulated among the business men this week by a committee appointed by the fire department to raise the funds necessary for a celebration, but the amount subscribed was not sufficient to warrant the undertaking and the matter was dropped.

Red Cloud Creamery opened up Thursday. We will honor any check issued by the Creamery Co. GALUSHA & WESCOTT.
