WASHINGTON NOTES
WASHINGTON, D. C., June 27.

Victory has followed victory from the day that Gen. Shafter's army landed in Cuba and began the land movement towards Santiago, and news of the capture of that town may be expected at any time, although there is a possibility that Gen. Shafter, having gotten all the Spaniards in that vicinity rounded up inside the heavy fortifications of the town, may defer the big battle until the re-enforcements which are on the way from Newport News and Tampa shall reach him.

The Spanish government should have the various stories which its censor allows to be telegraphed from Madrid for bamboozling purposes better edited.

The ocean greyhounds in the government service are to be used to transport troops. Spinning along at the rate of over 500 miles a day is the new Sheridan's ride.

Diplomats who know the Spanish character well regard the publication in Madrid of the statement that the United States had offered Spain terms of peace—Spain to surrender Cuba and Porto Rico outright, and to cede coaling stations in the Philippine and Caroline islands—as an indication that Spain was paving the way at home to ask for peace on the best terms she can get.

A few of the senate anti's talk about keeping up the fight against the resolution for the annexation of Hawaii for an indefinite period, but to the old timers there are many signs visible of an early adjournment of congress.

agree to an adjournment of congress naturally follows that the signs also point to an early vote by the senate, possibly during the coming week.

Although some one hundred and fifty odd members of the house had signed a request asking the committee on rules would report a special order for the consideration of the currency reform bill, which was reported to the house recently, at the present session, the bill will not be acted upon.

By some extraordinary bustling on the part of the bureau of engraving and printing, which has broken all records in amount of work turned out in a given time, and the temporary use of postage stamps in some cases, the embarrassment that was feared from lack of stamps in putting the stamp provisions of the war revenue law into effect July 1, will be avoided.

WAR NOTES IN BRIEF.

King Alfonso, of Spain, was confirmed last week, with great ceremony.

Methodist missionaries are to be sent to the different Spanish possessions which will soon pass into American control.

The number of soldiers at Chickamauga is estimated at 52,000, and recruits are arriving at the rate of over 2,000 per day.

Refuges from Cienfuegos, Cuba, who have arrived in Jamaica say it is a mistake to suppose that the Spanish soldiers don't want to fight.

Whatever re-enforcements are needed at Santiago will be promptly sent forward. In the ability to do this we have a decisive advantage.

The military party in Spain charges that the government has betrayed the country and now wants to arrange peace to save the dynasty.

Watching our military balloons by day and listening for the "cough" of the Vesuvius at night are calculated to make insomnia take an epidemic form at Santiago.

With regard to Santiago, the plan is to put the Cubans in control of the city after it is captured, which will leave our troops free for Porto Rico and other operations.

Spain has begun a naval movement, real or pretended, to recover the Philippines. The prospect is good that Dewey will be a full admiral before the summer is over.

The ocean greyhounds in the government service are to be used to transport troops. Spinning along at the rate of over 500 miles a day is the new Sheridan's ride.

The rough riders were eager to be given a part in the first expedition to Cuba. Their wish was granted, and they have already proved that they are in the right place.

Madrid is alarmed by the news from Santiago. It is not until the lightning of calamity writes a message upon the wall that the Spanish people hear the truth, or care to hear it.

The rudder frame for the battleship Illinois has arrived at the Newport News ship yard from the Cleveland Iron Forge works. The weight of this frame is 32,900 pounds.

If Gen. Pando is wise he will not attempt to send re-enforcements to Santiago. We can easily beat him at the game, and forward a thousand men for every hundred he can muster.

The fact that Lieut. Hobson and his companions are in a prison four miles from Morro is no assurance that they are secure from our fire. No safe place can be found in Santiago at this time.

Lieut. W. W. Harris, who was injured recently by an accidental explosion while placing submarine mines for harbor defences near Jacksonville, Florida, is totally blind and deaf in consequence.

Among the bills just passed by congress is one providing severe penalties for malicious injury to or destruction of submarine mines, torpedoes, fortifications or other military or naval defences.

Some of the veteran military critics predicted that it would take nearly a

week to land Gen. Shafter's army at Santiago. Precedent was on their side but in this instance a single day answered the purpose.

In a harangue on the battleship Pelayo before the departure of the Spanish fleet from Cadiz, Spain, Admiral Camara said to his officers: "We shall not return to Cadiz till our flag is wet with American blood."

The so-called Spanish parliament has been suspended indefinitely. It represented the premier, as usual in Spain and he will quickly follow it into retirement. A military government will probably be the speedy result.

While our troops were being landed at Santiago last week 5,000 veteran Cuban soldiers lay on their arms in the mountain fastness and thickets, watching every road and mountain pass to prevent the approach of Spaniards.

Peace or war is the all absorbing topic at Madrid, and the desire for peace on any terms seems to be unanimous among the masses of the people, and continuation of the war will practically result in national destruction.

Lieut. Geo. N. Hayward, of the cruiser Baltimore, in a letter to a relative in Detroit, says: "My one hope is that we shall retain the Philippine group forever. It is worth all of China and a hundred Cubas, and the inhabitants desire it."

Crippled by Rheumatism.

Those who have Rheumatism find themselves growing steadily worse all the while. One reason of this is that the remedies prescribed by the doctors contain mercury and potash, which ultimately intensify the disease by causing the joints to swell and stiffen, producing a severe aching of the bones.

Everybody knows that Rheumatism is a diseased state of the blood, and only a blood remedy is the only proper treatment, but a remedy containing potash and mercury only aggravates the trouble.

S.S.S. For the Blood being Purely Vegetable, goes direct to the very cause of the disease and a permanent cure always results. It is the only blood remedy guaranteed to contain no potash, mercury or other dangerous minerals.
