Kansas is ever doing some queer thing, but she is generous in all her cranky doings. She gave the cradle for populism and she will furnish its grave. Here it was born and here it will die. Sick unto death it has turned from its wanderings in the south and with the sub-treasury swamp fever, to fall upon its maternal bosom and plead for the referendum system in giving up the ghost.—Ex.

We have used Chamberlain's Cough Remedy in our home for many years and bear cheerful testimony to its value as a medicine which should be in every family. In coughs and colds we have found it to be efficacious and in croup and whooping cough in children we deem it indispensable.—H. P. RITTER, 4127 Fairfax Ave., St. Louis, Mo. For Sale by H. E. Grice.

Did You Take Scott's Emulsion

through the winter? If so, we are sure it quieted your cough, healed the rawness in your throat, increased your weight, gave you more color, and made you feel better in every way. But perhaps your cough has come back again, or you are getting a little thin and pale. Then, why not continue the same helpful remedy right through the summer? It will do you as much good as when the weather is cold. Its persistent use will certainly give you a better appetite and a stronger digestion. It will cure your weak throat and heal your inflamed lungs. It will cure every case of consumption, when a cure is possible. Don't be persuaded to take something they say is just as good.

All Druggists, etc. and by SCOTT & BOWNE, Chemists, N. Y.

By the accession of Cuba, Porto Rico and the Philippines, which is now assured, the area of the United States will be increased 161,000 square miles, or by an addition a little larger than California. Its total population will be expanded to the extent of 10,000,000 or 11,000,000, or by more people than New York and Pennsylvania combined had in 1890. The United States census of two years hence will show some big changes from that of eight years ago.

A gentleman (?) with a face like a poisoned pup, alighted from the west bound train last evening. He hailed from Guide Rock. It is said he made some very insulting remarks about a young lady of that city, and the young lady's brother resented the remarks with his fists. If such is the case the man with the sore face deserves no sympathy nor will he get any, and we are only sorry that he didn't get a more liberal supply of black spots. It is a pity that more sisters haven't brothers like the young lady's.

We want a few good correspondents in different parts of the county. We would like to have one at Guide Rock, one at Inavale, one at Cowles, one at Blue Hill, one at Otto, one at Rosemont, one in Garfield and one in north Line. We wish also that our old correspondents would be a little more regular about sending in items of news. If you know of any news in your locality write it up and send it in, it will be thankfully received. That is what we want. Don't wait for your neighbor to do it and then kick because it is not in the paper. If you know anything about yourself or your neighbor that is worth mentioning tell us about it, or if you haven't the nerve to tell it, write it down and bring or send it to this office. News is what makes a newspaper and that is what we want.

That this is not the only section that is suffering from lack of rain will be seen by the following from the Lacon (Illinois) Journal: "We have talked to quite a number of farmers during the past week, and one and all declare that there will be no corn to speak of raised in Marshall county. The drought struck it just when rain was needed the most. There are fields that look well, but there are no ears on the stalks. Some farmers who are paying cash rent have offered to turn over the entire crop in lieu of the money. Of course there are some fields that will make 25 to thirty bushels per acre, but they are few and far between. However, the farmers are always given to 'kicking' more or less and it is to be hoped that it will not turn out as bad as they picture it."

About one month ago my child which is fifteen months old, had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief we sent for a physician and it was under its care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it should soon obtain relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy.—C. L. BOGGS, Stumptown, Gilmer county, W. Va. For sale by H. E. Grice.

One of Sam Jones' latest on women: "When God gives man a wife and six children he has done a great deal for that man, but when He gives him a society woman and a poodle dog he has thrown off on him. These society women look upon children as a great nuisance. I have had some of these society women shake hands with me, I had as soon shake a dead fish's tail. I wouldn't give one of your old sock-darning women for all your society women in this country. Between cutting off the top of the dress for ball rooms, and the bottom for the bicycle these women will soon have no clothes left. Some people say you shouldn't talk this way before mixed audiences. You ride the bicycle before mixed audiences. You old sisters wear a high close collar around your neck. That's modesty and comely. But deliver me from the society women who button their collars around their waists. You preachers don't talk that way do you? You talk of the sweet by and by. You ought to talk of the nasty now and then."

August 3d being the 46th anniversary of the birth of Mrs. E. J. Myers, residing ten miles north of Lebanon in Logan township, she was happily surprised by the advent of about seventy-five of her relatives and friends, bringing with them baskets of good things to eat, and bundles of presents in honor of her birthday. When the dinner hour arrived the people all repaired to the grove in front of the house where they found a table set to accommodate thirty guests at a spread, with every luxury of life, and to which they all did justice. About a o'clock they all gathered in a group and had their pictures taken by Miss Hewitt, who came prepared to take the group. Those who gave presents were, Grand- ma Casper, Mrs. M. Casper, Mrs. Start

Mrs. Myers extends thanks to all for the kindness and generosity displayed to her, and her prayer is that the blessings of God may attend them through all time. "True happiness is found in making others happy," may be rightly applied in this case.

A young girl running away from home to escape being under the control of a step-mother and had treatment of a step-sister came to light in this city this week. The young girl is from Alma and is the daughter of S. A. Hadgett, a conductor on the Kansas City and Omaha railroad. When it was found that she had left town her father found out from the depot force at Alma that she had purchased a ticket and had her trunk checked to Red Cloud. Being himself an old operator he addressed the operator here and Marshal Dickerson was notified and soon had the young lady located. She came to this city Monday morning and in inquiry where she could obtain employment at sewing was directed to Mrs. H. A. Howard's. Not finding that lady at home, she being over to the home of J. W. Warren, she went there and Mrs. Warren decided to keep her, she being much taken with the lady-like appearance of the girl. She told her story of why she had left home and had money enough to take her back to Alma if she failed in her mission of finding something to do with a good family. Her father having become terribly worried by her absence was much relieved when the news was telegraphed back that his daughter was in a good home. He arrived in the city Wednesday and together they returned to Alma that night. The girl was about seventeen years of age, neat and of a refined and modest bearing and it is to be deplored that she was driven to the step she took by the persecution which generally follows the advent of a stepmother who has children of her own. The father will provide her with a good home with relatives.
