 The farmers of Nebraska, generally speaking, are not grumbling much this year because the corn crop is not so big as it has been. Though it is cut down about a third, perhaps on the average, this still gives them a crop up to the average of the less favored states. But in some counties the great crop of wheat raised this year will sell for more, notwithstanding the price has fallen, than the entire farm crops sold for last year, and last year was a good year, too. There is a vast store of last year's corn on hand in the cribs, and there will be plenty to feed the cattle and the swine.

The increase of sickness in the Third regiment is alarming. Friends of the regiment who first thought there would be little sickness at Jacksonville."

 We are told by one who drives around the country that the war that has just closed has so filled the farmers with patriotism that as they drive around the field plowing for wheat, you may hear them addressing their horses by the command "Forward, march," and stopping them by "halt." The more patriotic say "right about, march" and "left about, march" instead of "gee" and "haw," while the time honored "back" has been replaced by "retreat."

A Fleshy Consumptive

Did you ever see one? Did you ever hear of one? Most certainly not. Consumption is a disease that invariably causes loss of flesh. If you are light in weight, even if your cough is only a slight one, you should certainly take Scott's Emulsion of cod liver oil with hypophosphites. No remedy is such a perfect preventive to consumption. Just the moment your throat begins to weaken and you find you are losing flesh, you should begin to take it. And no other remedy has cured so many cases of consumption. Unless you are far advanced with this disease, Scott's Emulsion will hold every inducement to you for a perfect cure. All Druggists, etc. and at SCOTT & BOWNE, Chemists, N. Y.

 The Guide Rock assault and battery case came up for a hearing on a change of venue from Porter's court to that of Justice Yeiser on Monday morning. The complaint amended by Judge Porter was found to be irregular and the case was dismissed by Yeiser. A new complaint was then issued and the defendants again arrested and the trial before a jury was held the next day. The testimony from witnesses on each side seemed to be truthfully given from each sides observation of the fight and showed conclusively that Jones had given Robinson a good licking for remarks which had better been unsaid. The case also developed the fact that there is an undercurrent of old grudge between Prouditt and Robinson in which the latter tried to get even by bringing in the name of a young lady who has the respect of everyone throughout the county. The following verdict was brought in: "We the jury find the defendants guilty of assault but the assault was justifiable." The prisoners were then turned loose.
