Foul-Smelling Catarrh.

Catarrh is one of the most obstinate diseases, and hence the most difficult to get rid of.

There is but one way to cure it. The disease is in the blood, and all the sprays, washes and inhaling mixtures.

sprays, washes and inhaling mixtures in the world can have no permanent effect whatever upon it. Swift's Specific cures Catarrh permanently, for it is the only remedy which can reach the disease and force it from the blood.

Mr. B. P. McAllister, of Harrodsburg,

Mr. B. P. McAllister, of Harrodsburg, Ky., had Catarrh for years. He writes:
"I could see no improvement whatever, though I was constantly treated with sprays and washes, and different infact, I could feel that each winter I was worse than the year previous.
"Finally It was brought to my notice that Catarrh was a blood disease, and after thinking over the matter, I saw it was unreasonable to expect to be cured by remedies which only reached the surface. I saw it was unreasonable to expect to be cured by remedies which only reached the surface. I saw it was unreasonable to expect to be cured by remedies which only reached the surface. To continue the wrong treatment for Catarrh is to continue to suffer. Swift's Specific is a real blood remedy, and specific is a real blood remety, and cures obstinate, deep-seated diseases, which other remedies have no effect whatever upon. It promptly reaches Catarrh, and neverfails to cure even the most aggravated cases.

Most fascinating invention of the age. Always ready to entertain. It requires noskill to operate it and reproduce the music of bands, orchestras, vocalists or instrumental soloists. There is nothing like it for an evening's entertainment. Other so-called talking machines reproduce only records of cut-and-dried subjects, specially prepared in a laboratory, but the Graphophone is not limited to such performances. On the Graphophone you can easily make and instantly reproduce records of the voice, or any sound. Thus it constantly awakens new interest and its charm is ever fresh.
