Scott's Emulsion

of Cod-Liver Oil with Hypophosphites. We are willing to trust in his answer.

For twenty-five years doctors have prescribed our Emulsion for paleness, weakness, nervous exhaustion, and for all diseases that cause loss in flesh.

Its creamy color and its pleasant taste make it especially useful for thin and delicate children.

He finally made it all right but had a badly frozen toe and ear.

Country publishers receive subscriptions now and then from city firms who can have no interest in the local news of the paper. The following from the New York Times may explain the reason for these "foreign" subscriptions: "A wholesale grocer in this city, who has become rich at the business, says his rule is that when he sells a bill of goods on credit to immediately subscribe for the local paper of his debtor. So long as his customer advertises liberally, he rested, but as soon as he began to contract his advertising space he took the facts evidence that there was trouble ahead and invariably went for the debtor. He said: 'The man who is too poor to make his business known is too poor to do business. The withdrawal of an advertisement is evidence of weakness that business men are not slow to act upon. There's nothing like it.' Here is another reason why the country merchant cannot afford to ignore advertising in the home paper.—Ex.
