## IT IS A SECOND BLIZZARD.

The Storm of Saturday and Sunday Outdone in the West.

#### MUCH SUFFERING REPORTED.

Colorado Towns Isolated by Great Drifts of Snow-The Cold and Wind General in Kansas-Much Injury to Stock-Traffic Delayed.

DENVER, Col., Jan. 31.-Snow fell on the mountains shortly after midnight last night and the storm, which has been raging since a week ago, with an occasional let up, is again in full blast. The town of Breckinridge, about forty miles from Leadville, is isolated. Fuel and provisions are getting low and much suffering from the lack of necessities must result. Not a wheel has moved out of Como on the South Park road for two days, and reports from there tell of great losses to range stock. The mines about Leadville have been forced to close down, as no ore can be moved. .

Hundreds of men worked almost incessantly at different points on the South Park line between Como and Leadville to open the road to traffic. but have at last been compelled to surrender to the elements. Snow is packed in great drifts in the cuts and the wind piled it in as fast as the shovelers could make an opening.

Kokomo is almost hidden away by the banks of snow on all sides. Snow slides are frequent and danger of destruction threatens the town. No trains have moved west of Leadville on the Colorado Midland for several days. Should the storm keep up its present fury great suffering and loss of life will result.

The storm extends along the mountains in Wyoming, and already the loss of cattle has been great.

TOPEKA, Kan., Jan. 31.-The Atchison, Topeka & Santa Fe weather reports from the stations on the lines show that the snow storm extends over nearly the whole state. The temperature here is at zero. At Dodge City it is 2 degrees lower. There is snow reported from all the stations in Eastern Colorado, together with h lowering temperature. In Western Kansas the snow, blown by a high wind, is drifting in the railroad tracks and all trains from the west will be delayed to-day. The storm does not cross the line into the Indian territory, though from the stations there a high and extremely cold wind is reported.

Similar reports have come from towns along the Chicago, Rock Island & Pacific railroad. Temperatures at 2 and 4 degrees below zero are prevailing in Northwestern Kunsas.

He was married September 28. and two days later, according to the Hoboken police reports, what was supposed to be his corpse was found in the Hackensack river. The report that Kontnik had drowned himself was given extensive publication. It subsequently developed that Koutnik, had simply disappeared from Hoboken and that the drowning story had been planned some time before. To aid the deception, Koutnik's hat had been thrown into the river and portions of his clothing were found on a pier.

Pants, Jan. 31 .- Unofficial information has been received announcing that Senor Tauson, the Filipino envoy to France and England, will probably reach Paris within three weeks, bearing credentials from Aguinaldo and

the so-called Philippine republic. Tauson's expected arrival in Paris cannot cause the slightest embarrassment to the French government, which will categorically refuse to receive him in his alleged official capacity, not only because France is animated by a desire to be agreeable to the United States during its present development as a world power, but also on purely technical reasons.

MANILA, Jan. 31 .- According to a dispatch from Poito, capital of the island of Panay, at the election held on January 17, Senor Ramon Melliza was chosen president of the so-called Visayan federation for a term of two years, his predecessor, General Lopez, being appointed commander in chief of the forces of the revolutionary government. Senor Meliiza is kindly disposed to the Americans and it is hoped that the difficulty between the natives and the United States authorities will be settled amicably.

Business was being resumed there when the dispatch in question left and sugar was entering from the Island of Negros. Ships were loading hemp. The sugar crop is far below the average and shows an estimated deficiency of about 9,000 tons.

Six native commissioners, headed by Senor Ramon Avancena, a lawyer, arrived from Itollo by the United States transport St. Paul. They have come to consult with Aguinaldo. A number of native soldiers who had been transported were lauded on January 25 in the Island of Panay, about twenty-five miles north of Hollo.

## MYRON W. REED IS DEAD.

Politics as Well as Preaching Was the Denver Paster's Work.

#### NERVOUS PROSTRATION FATAL.

Mr. Reed Declined the Nomination That Sent Lafe Pence to Congress -- General Thomas' Chief of Scouts -His Career in Deaver.

DENVER, Colo., Jan. 31 .- The Rev. Myron W. Reed, pastor of the Broadway temple, and formerly pastor of the Olivet Congregational church, Milwaukee, the First Presbyterian church of Indianapolis, and other churches in the East and South, died at St. Joseph's hospital, here, yesterday morning, after a protracted illness. Mr. Reed was 63 years old. He was stricken by nervous prostration which developed insomnia. His sleep-lessness was helped only by hypnotism. This quieted his nervousness. He had a relapse two days ago.

Mr. Reed was always well known in the politics of this state. In 1886 he was nominated for Congress by the Democrats, and though the normal Republican majority was from 6,000 to 10,000, he was defeated by only 800. In 1892 Mr. Reed became a Populist and was again tendered a nomination for Congress. He declined it and Lafe Pence, to whom the nomination was then given, was elected by a large majority. Mr. Reed was one term department commander of the G. A. R. for Colorado.

Mr. Reed was educated, he used to say, in the district school, in the St. Lawrence academy at Potsdam, N. Y., and in the army. On the breaking out of the war he enlisted in the Eighteenth Michigan infantry and was appointed chaplain of the regiment. Two months later he resigned that place to accept the captaincy of one of the companies. When mustered out he was serving as General Thomas' chief of scouts. At the close of the war Mr. Reed studied in a Chicago school of theology. His first pastorate was in a small town in Michigan, but he soon afterward accepted the pulpit of a non-sectarian church in New Orleans, where he remained nearly four years. Here he met Miss Louise Lyon, who had gone south to teach the negroes. They were married at Clifton, Ill., in 1870. In 1873 he became pastor of the Olivet Congregational church, Milwaukee, re-maining there four years. This was followed by seven years as pastor of the First Rresbyterian church of Indianapolis of which ex-President Har-

rison was a member. Mr. Reed always wore a widebrimmed black slouch bat, a black tie and a long, loose dark colored coat. A Masonic charm dangled from his watch chain, and upon his coat was always a veteran's button. He walked with a swinging military stride and had a pleasant word or nod for everyone he met. It used to be said that he knew every man, woman and child in Colorado and Indiana.

Mr. Reed leaves a widow, two sons and a daughter. The older son, Paul, is a civil engineer in Antwerp, Belgium. The younger, Ralph, is an attorney in this city. The daughter Mrs. Leslie O. Carter, lives here.

## ROBERTS AND EDMUNDS LAW.

Missionary Societies Claim the Polyga mist Is Legally Barred From Congress. New York, Jan. 31.-Nine great missionary organizations, representing the Baptist, Congregational, Episcopal, Methodist, Presbyterian and Reformed church of this country, have united in a protest against the seating of B. H. Roberts as Representative in Congress from Utah. They declare that if his election should be held to

be legally valid he should be expelled. The memorial recites that Roberts is "an avowed polygamist, having at least three wives," and that he served a term of imprisonment in the penitentiary in 1859 for living in polygamy. It also shows that by the Edmunds-Tucker law of 1887 polygamists are made ineligible to hold office "under the United States."

It declares Roberts 'has confessedly lived with plural wives and has begotten polygamous children since November 1, 1890, and therefore has not complied with the amnesty proclamations of Presidents Harrison and Cleveland.

Chaptain Chadwick Lectures Upon "Our War With Spain."

NEW YORK, Jan. 31. - An immense throng filled Carnegie hall last night to hear the benefit concert and the lecture by the Rev. John P. Chadwick, who was chaplain of the Maine, on Our War With Spain. It's Causes and Results;" preceded by what he saw of the blowing up of the battleship. The concert and lecture was for the benefit of the Catholic reading rooms for young men.

Governor Roosevelt presided. Major General Roc, with his staff, Admirals Frhen and Miller, Lieutenant Commander Delehanty, Adjutant General Avery D. Andrews, Colonel Trendwell, Commodore Philip, Captain Goodrich and hundreds of other officers were

Governor Roosevelt made a brief address, after which Father Chadwick spoke for an hour, giving an interesting account of the sailing of the Maine for Havana, the experiences in Havana and the blowing up of the ship. He spoke of the heroism of the sailors when the catastrophe occurred and afterwards, when suffering in hospitals.

... Imperialism; what do they mean by imperialism?" said he, in the course of his address. "What does it mean, this departure from the settled policy of the nation? Must it be that this policy, thought out by the founders of our government, is to be laid aside as useless now? God forbid that ever Imperialism may find a foothold in our country. For the fathers knew what imperialism meant; they had learned it from England when they fought for liberty.

"They fought to establish the proposition, and wrote it in blood, Heat all good government rests with the will of the governed people. The strength of our nation is in the manhood and womanhood of its people. These have been developed out of liberty in hope and ambition. I believe that imper ialism would be shortlived in this country were it ever established. We would not be able to hold on to it. The whole tide of the war is toward republicanism. Shall we go back a step in the progress of the world?

"I do not mean to arraign the government as if it were responsible for such a policy. I firmly believe that there is no greater American than President McKinley. The holding of the Philippines is not against the principles of our nation. The holding of the islands is an absolute necessity.

"Would it not be to leave the inhabitants in bloodshed to withdraw the troops to-morrow? Would we not be held up to the scorn of history if we should desert them now? . We are bound to keep them. Whether wise or not it is now a necessity. The treaty does not say we are to hold them eternally, but the American people must not let them go back to Spain; but must hold them till this nation can place them as they must be placed, among the free peoples of the earth. The pressure upon the President to compel him to formulate a policy in regard to the Philippines is decide what is the best policy toward

# NO PENSIONS. FOR CLERKS.

Salaries for Retired Treasury Employes Wiped Out.

PROTESTS FROM CONGRESS.

Assistant Secretary Vanderlip's Plan Balked in the Legislative Appropriation Bill-A Mutual Insurance Their Only Hope.

WASHINGTON, Jan. 31.—The so-called roll of honor" of the Treasury department, inaugurated some time ago by Assistant Secretary Vanderlip, which practically retired on pensions superannuated clerks, is wiped out by a section of the legislative appropriation bill which prohibits expenditures for the compensation of any persons permanently incapacitated by age or otherwise, and declares that "the establishment of a civil pension roll or an honorable service roll or an exemption of any of the officers, clerks and persons in the public service from the existing laws respecting employment in such service is hereby prohibited.'

There are said to be twenty-two clerks in the Treasury department who are on this roll of superannuated employes and the committee, having procured a list of the names of such and the divisions where employed, have omitted from the bill a clerk or clerkships in all such divisions. It has also prohibited the use of time recording clocks in the department, a feature which has been introduced by Assistant Secretary Vanderlip in the treasury in order to prevent absence and loss of time on the part of the

The action of the committee in practically providing for the dismissal of a number of superannuated employes is due chiefly to repeated protests on the part of senators and representatives against the retention in office of clerks no longer able to perform their therefore, is willing to permit the duties, but whose long and faithful service in the absence of a civil pension system has operated to prevent their displacement by younger and more capable men. In consequence, the work which, if physically competent, is thrown upon other clerks, many of whom draw less salaries than those who practically do no work at all. As a result those employes upon whom the added elerical labor falls have been protesting and insisting that the government is entitled to full service for

the salary which it pays.

In all the departments there are aged employes retained on the rolls who endeavor to the best of their ability to continue in the performance of duties for which they are unfitted by reason of advanced age and physical infirmity. Were a civil pension law in force several hundred would be placed upon a retired list, but in the absence of such a law they are retained on the rolls out of pure charity. #### NOT ALL OF ONE MIND.

The Kansas Administration Divided on

the Special Session Validity. Topeka, Jan. 3L - While Auditor Cole and Treasurer Grimes in the west wing of the capitol are holding up the laws of the special session, Clark, the secretary of state, in the north wing, is recognizing them to be good, but in acts carrying appropriations the west end officers have the last to say, and there such bills will be lodged until the supreme court decides on the Harvey case. To illustrate, the special session transferred \$960 from the state house fund to the furniture and fixtures fund. Secretary Clark drew against it Saturday and sent it over to the auditor for a voucher upon the treasurer, but it got no farther, the auditor held it up. In ordinary bills, however, the sec-

retary has his own way, and he accepts all to be good until the court shall decide otherwise. He says they come to him in the regular way, properly signed by the speaker, the prestdent of the senate and the governor, and since he is not vested with judicial authority he is bound to recognize them. Daily he hold's the state printer's fees down to the new law passed by the special session and all charters granted are under the new law. In issuing charters under the new law the secretary even has the approval of Attorney General Godard, who, although he gave the opinion turning down the special session, sits on the charter board with Secretary Clark and Bank Commissioner Breidenthal, as provided by that law.

In the executive department no official act has been passed that might interpret the governor's position on the question, but it is understood that he does not agree with Attorney General Godard's opinion. A straw indi cating this is his attitude on the proposal to appoint a new board of raftroad commissioners. The governor is getting ready to appoint a court of visitation under the new law in the face of Godard's opinion that the special session was unconstitutional and, Populist commissioners to serve out the fragment of a term which the repealing act has left.

Webb McNall, state superintendent of insurance, received a check for \$6,259 from the Northwestern Mutual they would be called upon to perform Life Insurance company this morning. The money is to pay the 3 per cent tax placed on gross premiums by the last legislature. Since Attorney General Godard issued his opinion that the extra session was unconstitutional, the insurance department has received over \$8,050 as payment under this law. Should it all be paid the state will get \$60,000, more than enough to pay the expenses of the extra session. None of the insurance companies has so far shown any inclination to take advantage of Godard's decision.
