

Filipinos to Be Shown No Quarte. Unless They Surrender at Once.

ORDERED TO LAND AT ILOILO.

The Boston Brings Instructions to General Miller to Take the Philippines' Second City-Troops There To Be Supported by War Ships, If Necessary.

WASHINGTON, Feb. 8.-Instructions have been sent to Major General Otis directing him to communicate to the insurgents the information that the treaty of Paris had been ratified by the Senate and to continue his operations against them, so as to promptly crush the revolt against American sovereignty.

The cruiser Boston, which left Manila Monday for Iloilo, ostensibly to relieve the Baltimore, carries with her instructions to Brigadier General Miller to at once occupy Iloilo with or without consent of the natives there.

In adopting such a vigorous policy against the insurgents the President is actuated by a desire to bring to an end with all dispatch the rebellious movement Aguinaldo has started ngainst this government. It was determined upon as the result of the conference at the White house Sunday night and at a further conference in the executive mansion to-day, which was participated in by the President, Secretary Alger and Secretary Long.

At this conference instructions to General Otis and Rear Admiral Dewey were prepared along the lines indicated. These officers were directed to co-operate in the campaign and the President assured them of his condence in their ability and discretion. Appreciating the impossibility of operating a campaign from Washington, General Otis has been notified that the President leaves in his hands the conduct of the war, but he is directed to act vigorously.

It is the confident belief of the President that as soon as Aguinaldo learns of the ratification of the treaty he will appreciate the futility of a conflict with the United States and will be willing to make terms of surrender. It is assumed that Agoneillo, who is in Montreal, has taken measures to inform Aguinaldo of the action of the Senate, but General Otis will be ahead of him and will send the information into the insurgent lines without delay. Secretary Long, for the, information of Rear Admiral Dewey, cabled to that official the simple message, "Treaty ratified."

" It is possible, of course, that Aguinaldo may continue fighting, in which event he will be shown no quarter, but will be relentlessly pursued until he is forced to surrender. President McKinley does not intend to show any vaccilation in this matter.

No approhension is felt as to the rcsult of the attack on Ilollo. General Miller has at his disposal about 3,000 men and he will be aided in his opera-

3,500 Wounded and 5,000 Taken Prisoners at Manila. MANILA, Feb. 8.—Careful estimates

Aguinaldo's Troops Fitted Out by a place the Filipino losses up to date at 2,000 dead, 3,500 wounded and 5,000 taken prisoners. The rebel forces have been driven back ten miles. THE KAISER'S CONSUL IN IT.

During the fighting the United States warships shelled a train loaded with insurgents.

Another intensely exciting incident occurred during the engagement. The Washingtons and Idahos and Companies K and M, of the Californians, made charges across the rice fields between Paco and Santana in the face of a terrific fusilade. The ground over which they passed was covered with dead and wounded natives. The former were buried in groups of five or six, about where they lay, and the latter were brought to the hospital. It was at this stage of the fighting and at Calvoscan that the Filipinos suffered the heaviest losses.

The Fourtcenth regulars were in a particularly tight place near Singalon, and Colonel Duboce was compelled to rush past them with the reserve in order to prevent the regulars from being cut off. In the last line twelve men were killed before the rebels retired.

Both sides cheered frequently during the engagement. The American "hurrahs" were almost invariably met by derisive "vivas." Among the natives, the Ygorotes were especially the conduct of its representative. noticeable for their bravery, about 700 of these naked savages facing artillery fire with their bows and arrows.

The scene at Manila when the alarm was given on Saturday night was wildly exciting. The American soldiers at the theaters and at the circus were called out, the performances were stopped. Filipinos scurried everywhere, and the rattle of musketry and the booming of cannon outside the city was plainly heard. The residents of the outskirts of Manila flocked into the walled city with their arms full of articles. All the carriages disappeared as if by magic, the street cars were stopped, the telegraph lines were cut, and the soldiers hurriedly but silently marched out af the city to the stations assigned to them. The stores were closed almost instantly; foreign flags were to be seen flying from many windows, and a number of white rags were hung out from Filipino huts and houses.

On Sunday immense crowds of people visited the water front and gathered in the highest towers to watch the bombardment. There were no street cars or carriages to be seen, and the streets were almost deserted.

The Minnesota troops, acting as police, searched every native and arrested many of them, with the result that while there were several altempts to assassinate American officers on Saturday, there were none on Sunday. Absolute order was maintained. The United States flagship Olympia steamed across the bay on Sunday and took up a position near the German

cruiser Irene and the British cruiser Narcissus, off the Mole. She is still there. The Americans are determined not

## FLED JUST IN TIME. Authorities Wers Preparing to Arrest

#### Agoneillo.

WASHINGTON, Feb. 8 .- It is no secret now that the authorities here were preparing to arrest Agoneillo just as he fled, but probably they are not sorry that he got off safely and thus relieved them from the performance of a disagreeable task. The conduct of the remaining members of the Philippine junta is still under close watch, and while the treatment to be accorded them has not been determined, it is recognized that they are in a precarious position legally, and can secure im-munity only by the exercise of the greatest discretion.

The Filipino junta here is in a state of bewilderment. Senor Agoncillo, its head, fled so hurriedly that he failed to leave instructions for the balance of the junta, and they accordingly are dependent upon word from him as well as hampered by the serious illness of one of them. Their counsel, Ralston & Siddons, withdrew from any relations with them, and they are accordingly now without advisers in a strange country, and although told they will not likely be arrested, they have a strong apprehension on that score. The junta at 2 o'clock had received no dispatches from Aguinaldo about the battle, and no word had come from their fleeing chief, Agoncillo. This forenoon Senor Lopez had a long interview with their attorneys, at which the latter formally withdrew all connection with them, and subsequently, to make their position clear, made the following public announcement:

"A conflict having taken place between the American troops and the forces under General Aguinaldo, a duty superior to that which a lawyer owes to his client requires us to withdraw from the service of the representatives here of the Philippine republic, and this has to-day been done.

MERAN, Austria, Feb. 8.-Prince Alfred of Saxe-Coburg-Gotha is dead. He had been suffering from chronic cerebral troubles. Prince Alfred of Saxe-Coburg-Gotha was the son of the Duke of Saxe-Coburg and Gotha, second son of Queen Victoria, and was born at Buckingham palace, London, on October 15, 1874. He was a captain of the Prussian infantry and unmarried. He was the only son and heir.

#### Hastens Their Departure.

fighting at Manila has hastened the departure of the three battalions of the Tweifth United States infantry from Jefferson barracks. Under command of Colonel Smith the troops left Jefferson barracks yesterday for New York, where they will be joined by the Fourth battalion. On February 9 the regiment will embark on the transport Sheldon for Manila.

OFFER LITTLE OPPOSITION.

Evidences of Terrible Slaughter Among the Insurgents-Into the Canebrakes to Die-Many Were Mowed Down by Dewey's Warships.

MANILA, Feb. 8.-The Americans are in complete control of the situation within a radius of nine miles of Manila. Their lines extend to Malabon on the north and to Paranaque on the south, fully twenty-five miles long.

While a few detached bodles of the enemy offer desultory opposition the main body of the rebels is in full retreat and utterly routed. Of the hordes of troops originally

drawn up in battle array against the Americans fully one-third are already incapaciated and the others are scattered in every direction.

The terrible loss of the rebels may be gathered from the fact that sixteen of them were buried in one rice field near Pasas, and that eighty-seven were interred between Paco and Santana.

A converted river gunboat did terrible execution among the rebels, sweeping both banks of the river with her Gatling guns and her heavier battery. Hundreds of Filipinos crawled into the canebrakes and died there.

The Americans are working nobly in their efforts to find the wounded, and are bringing hundreds of suffering rebels to the hospitals for treatment. The natives are unable to succor the

wounded of the enemy. Members of the hospital corps have discovered that there are several women, in male dress and with hair cropped, among the dead.

The chief of the Ygorotes, the Fillpino natives who fought so gallantly in the face of our artillery fire, with their bows and arrows, is in a hospital with a shattered thigh. He admits that he never saw modern artillery and was ignorant of its effects until he and his followers met the disastrous fire of Sunday morning.

The chief is bitterly incensed against the Tagalos for placing the Ygorotes in front of the American battery, under the pretense that they were sent to occupy a post of honor. He intimates that the Ygorotes will avenge this treachery when the survivors return north.

FILIPINO OFFICIALS DISAPPEAR.

It is regarded as a significant fact that many of the Filipino officials of this city disappeared from Manila as soon as hostilities commenced. Some of them are supposed to be still hiding here.

"Our casualties probably aggregate 250. Full reports to-day. "Casualties of insurgents very heavy.

"Troops in excellent spirits. Quiet prevails.-Otis."

A SHARP FIGHT MONDAY.

MANILA, Feb. 8.-Late Monday General Hale's brigade advanced and took the waterworks at Singalon. Four companies of the Nebraska regiment and a part of the Utah battery, with two field guns and two Hotchkiss guns, met the enemy on the hill a mile out, and a shirp engagement took place, in which the Nebraskans lost

one dead and three wounded. The Filipinos were driven back, re-

tiring in bad order and carrying with them the valves and heads of the steam chest and cylinder of the pumping machinery. General Overshine's brigade ad-

vanced and took Paranaque, capturing two field guns. They met with no opposition. General McArthur's division advanced beyond Gagalangin without loss, the enemy retreating upon Calocan.

Dr. Young, formerly quartermaster sergeant in the Third artillery, was wounded. Filipinos captured and murdered him. His body when recovered was found to have been mutilated.

SLAUGHTERED BY THE NAVY. After the engagement of Saturday night and Sunday was apparently at end the cruiser Charleston and the monitor Monadnock poured shells into the insurgent trenches at Malate, south of Manila. The Fourteenth infantry was forcing the insurgents back when the war ships opened fire. The result was shown in the heaps of dead found in the tranches.

During one part of the engagement west of the town the native forces be came panic stricken. They tried to escape to the rice fields, but the Laguna. a captured Spanish gunboat, threw shells into them, and the Filipinos ran into the river in droves.

Soon after the fight opened Satur day night, Brigadier General Otis with the Twentleth Kansas. First Montana, Third artillery and the Tenth Pennsylvania, joined the brigade of Brigadier General Hale consisting of the First South Dakota First Colorado and First Nebraska and, supported by Batteries A and 1

ions by the cruisers Baltimore and Boston and the gunboats Petrel and Callao. There are said to be about 10,000 natives defending the town, but they are badly armed and it is not believed any great difficulty will be experienced in driving them out.

As to the future policy of the administration in the Philippines the President has determined to take no action until the report of the Schurman commission is received.

Secretary Alger announced that no action will be taken looking to the dispatch of reinforcements to Manila until after the cabinet meeting to-day. Beyond advising the different vessels of the engagement with the insurgents and of the necessity of being prepared in case they should be needed for service in the Far East, Secretary Long has done nothing which will result in the assignment of additional vessels to Rear Admiral Dewcy's command.

It was said that Rear Admiral Dewey, before the outbreak of the insurgents, cabled to Secretary Long that in his opinion he would have a sufficient force, when all the vessels ordered to join him arrived, to cope with the insurgents. It is understood, however, that the department has practically determined to hasten the reconstruction of the former Spanish gunboats now at Hong Kong in order that they may be ready for service by the latter part of the spring.

The navy department has decided to send a cargo of ammunition by the Celtic, which will leave San Francisco 800n.

"The Asiatic squadron," said Captain Charles O'Neil, chief of the bureau of ordnance. "has oceans of ammunition. Every naval steamer that has gone out to Manila, has on board a large quantity of powder and shell and I do with it unless he puts it in a magazine at Cavite."

Major General Shaler, acting chief of the bureau of ordnance, War department, said that General Otis' men have about 5,000,000 cartridges and plenty of ammunition for their siege. field and machine guns. It is proposed to ship an additional supply by steamer. Practically all of the ammu-nition furnished the ships and troops is smokeless.

#### Otis Has Smokeless Powder.

WASHINGTON, Feb. 8.-It was learned at the war department that all the American troops at Manila have an abundant supply of smokeless powder, The regulars have the Krag-Jorgensen rifles, and about 5,000 of the same weapons are in the hands of the volunteers.

The further the Americans extend their lines the more the need of means of transportation increases. The American commanders have already been compelled to impress horses and vehicles on all sides to the inconvenience, naturally, of the civilians,

All the public conveyances have either been impressed or have disappeared in some manner or other. Street car traffic, however, has been resumed, and the cars are running regularly, though the streets are almost deserted.

#### WHITE FLAGS NOT TRUSTED.

There are a few native stores open. and white flags, in the nature of towels, pillow slips and aprons tied to bamboos, adorn the windows of the native residences everywhere. But, in spite of these emblems of peace, scores of Filipinos, under the cover of the darkness, fired from these same windows yesterday evening on the American patrols.

At 9 o'clock last night there was 'n general fuailsde in the Quiapo and Binon districts.

The inhabitants of the city generally believed that a battle was raging at their doors, and lights were extinguished inside the dwellings and a majority of the people were in a state of terror. ARTILLERY COVERED KANSANS.

The Americans now have the steam car line to Malabon and 600 marines with four Maxims have been landed from the fleet on the beach, north of the city. The Third artillery, upon the main road, and the Utah battery in a cemetery, covered the advance of the Kansas troops. Among the important points captured by these forces was a strong embrasured earth-

work within sight of Caloocan. The signal corps were compelled to run their lines along the firing line during the fighting, and consequently there were frequent interruptions of communication owing to the cutting of the wires, and the signal men were ordered to kill without any hesitancy anyone who attempted to interfere with the lines.
