# THE RED CLOUD CHIEF.

## JUDGE GREENE DEAD WRECKING TRAIN SENT OUT. WHEN HECOUNTS US IN 1900 THEY WANT INDEPENDENCE.

## Porto Ricans Said to Be Chafing Under American Military Rule.

Curcago, March 13 .- A special to the Tribune from New York is as follows: "The Porto Ricans want independence," said Colonel William P. Hubbell, commander of the One Hundred and Forty-seventh regiment, today, upon his return from Porto Rico. Colonel Hubbell declared his belief that an insurrection of the natives of Porto Rico is bound to come sooner or later. He says every evidence of the forthcoming uprising was given in Porto Rico, especially in the latter part of the stay of the regiment there. He said: "The demonstrations made at our departure convinced us that the majority of the natives were glad to get rid of us. Our first difficulties on the island were caused by our suppression of a secret society known as the Black Hand. It was organized on the same lines with the Ku-Klux in this country. A plot was formed, of which we obtained ample proof, to enter our barracks by stealth and put them, the entire portion of the regiment which was at Caguay, to the machete. Fortunately, we were placed on our guard and the conspiracy was frustrated."

The Tribune prints the following pecial correspondence from Porto Rico from a Tribune correspondent:

"The real situation in Rorto Rico is not understood. People in the States generally regard Porto Rico as a sort of haven of peace. The War department has just requested of General Henry that he immediately report how many regular troops he can spare from the island. General Henry is in a dilemma. He has only three regiments of troops-the Eleventh infantry, the Nineteenth infantry and the Fifth cavalry-and two batteries of the Fifth heavy artillery.

"I need twice the troops I have, said the general. 'Because of the easy victory of our troops here in the war and in the apparent friendliness of the natives to the American soldiers when they invaded the island, a notion prevails in the states that there is little necessity for a strong force to maintain order in the island. The idea is erroneous.

"The conditions here are alarming. These people have been given every opportunity, but they have their own theme aside. They are clamoring now for local self-government. They are no more fit for local self-government than I am to run a locomotive. More troops are needed in the island. The seeds of discontent planted by professional agitators are rapidly growing, and can be kept down only by a strong military force.

"The ill feeling between the naple, no copyist who cannot write or tives and the American troops seems to grow stronger every day. The Americen officers have to maintain the greatest vigilance to prevent their men from wreaking vengeance on the natives and especially on the native police for acts of violence that are had with senators and representatives continually committed against the troops."

## NEBRASKA CONGRESSMAN SUDDENLY SUMMONED.

Overcome by Heart Fallure While Enroute From His Hotel to Take the Train at Omaha for Lincoln-Remains Taken to Kearney.

OMAHA, Neb., March 13 .- Congressman W. L. Greene of the Sixth district died suddenly of heart failure Saturday evening in a carriage while enroute from the Arcade hotel to the depot to take a Burlington train to Lincoln.

He left the hotel in company with F. B. Prince, J. B. Donovan and J. C. Rooves, all of Madison county. He became ill just before the party left the hotel, but persisted in his desire to go to Lincoln, and was assisted to the carriage by his companions. Just when he died his companions do not know. They noticed that his head had dropped forward upon his breast, but did not realize the gravity of the situation until the depot was reached. When the three had left the carriage. Mr. Donovan turned and remarked to Mr. Greene: "Here we are; this is the

depot." There was no response, and Mr. Donovan peered into the carriage only to find the congressman still sitting motionless with his head drooping upon his breast.

Calling a depot porter, the three gentlemen took Mr. Greene from the carriage and bore him into the depot. A young medical student who was at hand examined him as he lay upon the floor and pronounced him dead. Dr. S. H. Smith arrived a few minutes later

and found that the lower limbs had already grown cold. He declared that death was due to heart failure, caused by various complications. A delegation consisting of Norris

Brown, John T. Mallalieu, C. W. Hoxle, C. B. Scott and B. O. Hostetter arrived in Omaha early Sunday morning from Kearney to act as an escort for for the remains.

KEARNEY, Neb., March 13 .- The remains of Congressman Greene arrived here yesterday afternoon in charge of the escort and were met at the depot by members of the Kearney bar and a large crowd of sympathizing citizens. A funeral procession of carriages several blocks in length followed the remains to the home of the family. The flags on public and private buildings were floating at half mast.

Mr. Greene was born in Pike county, Ind., in 1849. He attended an academy at Ireland, Ind, three years and was admitted to the bar in 1876. In 1883 he moved to Kearney, Neb., where he has since resided. In 1895 he was elected judge of the Twelfth judicial district. He was elected to the Fiftyfifth congress as a populist and re-

The Wreckage in the West Lincoln Yards Being Cleared Away.

The disastrous wreck which occurred ast Saturday afternoon on the B. & M. at West Lincoln, was the principal topic of conversation on the streets of Lincoln the day following. All day long friends of the dead trainmen gathered at various places to discuss details

of the affair and morbid minded individuals thronged the morgue in the endeavor to view the remains of Engineers Boyce and Doyle and Fireman Graham.

Great interest was manifested in the bility of the injured men to recover.

The four men yet yet alive were all reported to be doing remarkably well considering the extent of their injuries. The wrecking train was sent out to West Lincoln Sunday morning and returned in the evening. The wreckage was cleared away and the track was left open. The wreck in the freight. yards was disposed of Saturday night and the switching was not interfered with to any great extent.

The most peculiar feature of the wreck is the great loss of life compared with the property loss and the low rate of speed at which both trains were going. Had the pilot of the freight engine not been forced downward it is probable that no one on the freight train would have suffered more than a little shaking up. When the pilot of the first freight engine stuck in the ties, the engine was derailed which in turn derailed the second engine, turning it completely arouns. The two freight cars following the engines, which ran off the track and came up along side of the engine, were the cause of the death and injury of the engine crews who had jumped for

Burlington officials say that \$3,000 will cover the entire property loss.

safety.

The responsibility for the accident has not yet been placed, but the blinding snow storm will probably be held accountable for the disaster. It is c rtain that no such accident could have happened on a clear day. The switch engine was inside the yard limi s where it had a right to work. The freight engine was on the main line

and supposed to be under control on entering the yards. The evidence all shows that the freight train was going at a low rate of speed and was exercising due care. The blinding snow storm, however, rendered it impossible to see but a few feet ahead, and this together with the weight of thirty heavy cars behind the engiens made it impossible for the engineers to stop the freight train on the slippery rails in time toavoid the collision.

# ORGANIZED RAID ON STORES.

## Light Without Heat.

Heatless light for illumination is s possibility of the near future. Experiments have recently been conducted with the well known Geissler tubes by which rarefied air or other gas is rendered luminous by an electric current. Recent investigations show that light sufficient to read by can be obtained in a practical way, although at an expenditure of considerably more power than is necessary for the incandescent or arc lights. There are indications, however, that some form of the Geissler tube will be developed for practical use. In surgery, there can be no question as to its value, as by its use it will be possible to pursue investigations in the cavities of the human body which

The countess of Huntingdon, whose title gives the name to many dissenting chapels, was born in 1707 and died in 1791. She warmly attached herself to the Calvinistic Methodists and spent a prominent member of the Chicage her large fortune in support of her own pecullar tenets.

of the firm of Bolon & Goff, was alone, and while one of the thieves had her

engaged in showing him some goods the other carried off two pieces of dress goods and the other, as he was going off, attempted to carry off another piece, but Miss Bolon made him. give it up and organized a pursuit. The ones who had stolen her goods escaped and the other two were arrested and lodged in jail. The ones who escaped were finally traced to Clearwater where it transpired that they had been boarding at the hotel for some days and were engaged in disposing of various kinds of merchandise at very low prices. The sheriff and his deputy followed them south, but finally lost track of them and returned home. The twowho are in jail are being held for Norfolk parties to identify, having presumably stolen goods from them some

## New Enterprise Launched.

An enterprise enlisting the influence and money of a number of successful business men was launched in Gordon. last week, styled the Niobrara Land and Sheep company of Gordon. The capital stock of the company is placed at \$100,000, and already land has been purchased and leased extending from within a mile from Gordon to the Niobrara river, ten miles distant. The range has a river front of about five miles, insuring plenty of water, and with the addition of rough feed raised by farmers it is thought there will be an abundance of pasture for several very large bands of sheep. The sheep industry has proved very profitable in that vicinity in recent years, and some of the most successful sheepmen are in the present undertaking.

## Problem to Solve.

The county judge of Dodge county has a puzzling probate matter before him. In 1891 George Kern mysteriously disappeared from the North Bend neighborhood and has not since been heard from. Mrs. Kern, the wife, asks if her husband can be considered dead and the matter will come up for consideration later.

### Two Papers Burned Out.

The offices of the Trades Exhibit, a a commercial paper run by M. L. Hodgin, and the Penny Press. an anti-department store paper run by M. S. Bartlett, located at 1010 Farnam street, Omaha, were destroyed by fire recently. Both were fully insured.
