

# The Eyes and Health

Nothing is more important for the preservation of good health and clear business judgment than the careful care of the eyes. Defective vision produces irritation and nervousness, and in this condition no person is capable of giving to business matters or to the ordinary affairs of life the attention necessary to success. Perfect fitting glasses will overcome nature's defects. You can have your eyes examined free by

Don't buy a range or cooking stove until you examine the line kept by W. W. Wright. They are of the latest pattern and built to do good cooking and save fuel.

By allowing the accumulations in the bowles to remain in, the entire system is poisoned. DeWitt's Little Early Risers regulate the bowles. Try them and you will always use them.—C. L. Cotting.

FOR SALE.—House and lot, corner Webster street and Fifth avenue, containing 13 rooms and cellar; also barn and lot.—For further particulars, address, L. BAUM, No. 711 Potomac Ave. Chicago, Ills.

The people living on "sacred knob" who have no wells, had a good time carrying water from the wells in the "valley" the fore part of the week, while the water commissioner was cleaning out the well and standpipe.

R. L. Tinker of the B. & M. water service has been here for several days superintending the placing of a pump in the round house to be used in pumping water to be used in the engines, the city supply having to be shut off on account of shortage.

List of letters remaining uncalled for at the postoffice at Red Cloud, Nebraska, for the week ending May 18th, 1899.

Berry, Jas. B. Gifford, G. Hartman, Chas. Saunders, Mrs.

These letters will be sent to the dead letter office June 1st, if not called for before. When calling for above please say advertised.—T. C. HACKER, P. M.

There is an inclination on the part of some to think that the shutting off of the B. & M. water supply by the city was done in retaliation of the taking away of half of their round house at this place. However, we can state on good authority that such is not the case. The water was shut off solely on account of the shortage in the supply from the wells, and the creek water being unfit for use.

There are several people living in the north part of town who are getting extremely tired of putting in the time between 6 and 8 a.m. and 6 and 8 p.m. chasing cows out of their gardens and lawns. Probably it would be a good thing if the mayor would give some of the boys who drive cows to pasture a notice to keep their cows in the middle of the street or quit driving. They could easily do so. There is no sense in having gardens, lawns and sidewalks destroyed in this manner and people are getting tired of it.

The boys who went to Cuba—the boys who didn't get scared and come back home when they were going to get a chance to see service—the boys of Nebraska's third regiment returned to their different homes the first of the week. A large crowd assembled at the depot on Sunday evening to welcome the boys home. Charley Perry a member from here did not return after the muster out but will return to Cuba where it is said he can secure a good position. Leslie Graves stopped off east to visit a sister. Those who returned were Melvin McCord, John Pegg, Al Groat, Harry Brown, Herb Barber, Fred Miller and Charley Cockrill.

A new fence has been built at the residence property on Fourth avenue and Cedar street belonging to Ed. McFarland.

The water commissioner had a force of men at work the fore part of the week cleaning the north well at the pumping station.

The new residence of Bert Ducker in the west part of town has been commenced and the carpenters are rushing the work along in good shape.

Get your sale bills printed at this office and the announcement of sale will be printed in the paper during the time preceding the sale day free of charge.

Pneumonia, la grippe, coughs, colds, croup and whooping cough readily yield to One Minute Cough Cure. Use this remedy in time and save a doctor's bill—or the undertaker's.—C. L. Cotting.

If you have piles cure them. No use undergoing horrible operations that simply remove the result of the disease without disturbing the disease itself. Place your confidence in DeWitt's Witch Hazel Salve. It has never failed to cure others; it will not fail to cure you.—C. L. Cotting.

We call the attention of our readers to the professional card of Dr. Goode who has recently arrived here from Ohio and permanently located in Red Cloud for the practice of his profession. He has located his office over Cotting's drug store in the rooms once occupied by Dr. Damerell. The gentleman has had a long and successful career as a physician having been in active practice since 1880. From all we can learn he evidently understands his business and will be a valuable addition to the medical profession in our community.

Conrad Fitz who purchased the Rust property west of town is building a substantial two story addition to the residence building.

The time for the new trains which will be put on here on June 4 to arrive here it is said will be No. 13 from the east 7:35 a.m., No. 14 from the west 12:50 a.m.

All members of the M. W. A. lodge are requested to meet at the lodge room on next Sunday morning at 10 o'clock and attend the sermon at the Baptist church in a body.

People who have taken DeWitt's Little Early Risers will never have any thing else. They are the "famous little pills" for torpid liver and all irregularities of the system.—C. L. Cotting.

Theo Ponsar who has been superintending the putting in of some improvements at the mill at Naponee was here Wednesday and left that night for Detroit. He says that never before has he seen such a general demand for improvements in machinery and other things used in the milling business. He says the prosperity in these and all other lines is phenomenal.

The city authorities last Saturday shut off the water supply of the B. & M. at this point, and rescinded the contract for furnishing them water for the ensuing year. This move was made necessary on account of the shortage in the supply of water, and as numerous objections were made to the turning in of the creek, especially so by parties who depend solely on the city water for their supply of drinking water, it was thought advisable to cancel the contract and depend solely on the two wells for the supply. It is the opinion of the "city dads" that by a careful observance of the ordinance regulating the use of water the wells will furnish an ample supply of good water for all purposes.

The Nebraska Telephone company placed their force of men at work on the telephone system for this place on last Saturday and the excavations have been made and the poles have gone up rapidly and soon the work of stringing the wires and placing in the phones will be going on. The residence of Geo. J. Warren has been decided on as the central office. A station where long distance connection can be had and tolls paid by those not having phones will be put in some store at a central location down town. Those having office phones can get long distance connection by calling up central and talk direct from their place of business. As this office is glad to see any new improvement come to our city we are happy to chronicle this new enterprise. The time given out for the completion of the system here is three weeks.

# Is Baby Too Thin?

If so, there must be some trouble with its food. Well babies are plump; only the sick are thin. Are you sure the food is all right? Children can't help but grow; they must grow if their food nourishes them. Perhaps a mistake was made in the past and as a result the digestion is weakened. If that is so, don't give the baby a lot of medicine; just use your every-day common sense and help nature a little, and the way to do it is to add half a teaspoonful of

# SCOTT'S EMULSION

to the baby's food three or four times a day. The gain will begin the very first day you give it. It seems to correct the digestion and gets the baby started right again. If the baby is nursing but does not thrive, then the mother should take the emulsion. It will have a good effect both upon the mother and child. Twenty-five years proves this fact.
