

Jewelry Honesty

Jewelry is something that the average person knows so little about that he must needs depend almost entirely upon the Jeweler of whom he buys. We find that our judgment is relied upon more and more by Jewelry buyers. People who wish to avoid mistakes are willing to have us shoulder the entire burden. If you buy jewelry here it's right—no matter what you pay for it.

Have You Heard Of It?

You may have heard about SCOTT'S EMULSION and have a vague notion that it is cod-liver oil with its bad taste and smell and all its other repulsive features. It is cod-liver oil, the purest and the best in the world, but made so palatable that almost everybody can take it. Nearly all children like it and ask for more.

SCOTT'S EMULSION

looks like cream; it nourishes the wasted body of the baby, child or adult better than cream or any other food in existence. It bears about the same relation to other emulsions that cream does to milk. If you have had any experience with other so-called "just as good" preparations, you will find that this is a fact.

The hypophosphites that are combined with the cod-liver oil give additional value to it because they tone up the nervous system and impart strength to the whole body.
