WHEATON IN ANOTHER FIGHT

Rebels Met a Reconnoitering Battalion South of Manila.

INSURGENT LOSS VERY HEAVY.

Five Americans Killed in the Engagement—Wheaton Brought Up the Rest of the Fourth Infantry and Drove Back the Enemy.

MANILA, June 20.—A battalion of the Fourth Infantry, which left Imus, where General Wheaton is in command, this morning, to reconnoiter towards Perezlasmarinas, seven miles south of Imus, where it was believed most of the rebels who escaped from Paranaque and Bacoor had fled, was attacked in the rear by apparently friendly natives.

This brought on a sharp engagement, lasting several hours, resulting in the killing of five Americans and the wounding of about twenty-five. The loss of the rebels was very heavy. The battalion soon exhausted its ammunition, and at 2:30 this afternoon General Wheaton and his staff, with the Second battalion, two mounted guns and one field piece, went to reinforce the troops attacked.

General Wheaton was fired on in a road and had a narrow escape.

Later the Third battalion was ordered to the front and formed on the Las Minas road. Heavy firing on both sides followed, the artillery being freely used. The enemy was located in the woods at 4 o'clock. The rebels showed signs of retreating, as they were pressed very hard. One gun of the Sixth artillery, in an advantageous position, did great execution.

The fighting was still in progress at 5 o'clock, at which time the Americans had secured a quantity of Filipino arms, which had been abandoned in the woods. The scene of the fight is over twenty miles from Manila.

FOR THOSE WHO STAY.

The War Department Offers Inducements to Philippine Colonists.

DENVER, June 20.—Letters received here indicate that many of the Colorado regiment will stay in the Philippines. They have discovered in different portions of Luzon undeveloped regions where there are strong indications of gold and silver deposits, as well as placer abounds. Reports of similar opportunities in other islands of the group have been received at Manila. The chances are looked upon as so favorable that many of the mountain men will try them before returning to their homes.

Some time ago a volunteers' petition was presented to the government, asking that those of the soldiers desiring to be mustered out at Manila be allowed travel pay to their homes. They pointed out that in no other way could so strong a colony of American residents be created or the resources of the island be so quickly developed.

It was promised that the men would organize into a resident military force if it were desired that they should do so.

Friends of the men interested Congressman Bell of Colorado in the petition and he has been in communication with the war department. He has received a letter from Adjutant General Corbin, in which the position of the department is set forth. While travel pay from Manila to homes in the United States will not be allowed, General Otis has been authorized to discharge at Manila all men who wish to stay in the islands. Each soldier must make application through his company and regimental commanders. Each man discharged will be allowed two months' extra pay, travel pay from San Francisco to his home and the right of transportation from Manila to San Francisco on any government transport within a year from the date of muster out. In other words, the soldier can stay in the Philippines for a year, if he wishes to examine the country, and will then be given free transportation to San Francisco. As a nest egg to start him on his business career in the islands, he will have two months' pay allowed by a special act of congress on January 2, and the travel-pay from San Francisco to his home.

NO PROTECTION FROM CHINA.

Missionaries Murdered While Under Government Protection.

HONO KONG, June 20.—It has been developed that the Rev. H. S. Phillips, Mrs. Phillips and Miss Sears, missionaries of the Church Missionary Society, who, with three native converts, were recently killed in the province of Ngan-Hwei, had sought protection of the yamen at Kien Yang. The yamen, not being strong enough to protect them, sent the party under escort to Kien Ning Fu, but the missionaries were murdered on the way.

It is reported that the natives destroyed also the church, parsonage and hospital at Kien Ning Fu.

The British consul is active in the matter, but the floods interfere with communication.

TOLEDO, Ohio, June 20.—Mayor Jones has issued an open letter in answer to several thousand people all over the country who have made appeals to him for personal aid. Mr. Jones' mail since his campaign for mayor has been enormous, keeping a force of clerks busy opening and sorting. Many of these letters have been appeals for personal help in every conceivable form. Mr. Jones states that while he is an advocate of the theory of the brotherhood of man, it is impossible to give these people the assistance desired or had time to write an answer to each.

BANDITS IN PHILADELPHIA.

A Street Railway Official in Fairmount Park Robbed of \$4,000.

PHILADELPHIA, June 20.—Masked robbers, probably ten in number, raided the receiving office of the Fairmount Park Transportation company at Belmont in Fairmount park early this morning. After "holding up" the receiver and five other employes of the railway, they blew open the safe, securing \$4,000, the company's receipts for two days.

Frank Leavan, receiver; Frank Watson and Henry B. Whitehouse, conductors; James Cavanaugh, fireman of powerhouse; Philip Eaves, electrician, and William Cadmus, laborer, were bound hand and foot with wire. In addition to the men who actually committed the robbery, others operated miles away from the scene by destroying telegraph and telephone wires connecting with the trolley company's main offices.

The Fairmount Park Transportation company operates various lines of trolley cars through the park. The traffic is unusually heavy on Saturdays and Sundays. Six men, employes, were in the office when the burglars made their appearance. Each robber was armed with two revolvers and they took the employes completely by surprise. It was the work of a few moments for the robbers to pinion the workmen, who were rolled over to one side of the room, with their faces to the wall. Ten minutes later the safe was cracked and the gang fled.

Frank Levan, the night receiver, one of the men gagged and bound by the robbers, told the story of his experience.

"While I was standing at the office door, I heard footsteps in the rear. Turning, I saw two men with masks on their faces. They had two big revolvers and took me into the cinder room and tied my hands and feet with wire and laid me upon the floor, with my face to the wall. In the conductors' room I saw Whitehouse was also being bound and gagged.

"When we were laid upon the floor a man was detailed to guard us. In a few minutes in came another victim, whom I think was Watson, a conductor, and he went through the same thing. Then two more came in and were bound. The burglars worked quietly. It only took them ten minutes to blow the safe.

"The guard frequently threatened to shoot us if we made the least outcry or motion. I think they must have had a wagon to take away the cash, for it was very heavy to get away with.

"Shortly after the money was taken out our guards left. Finally Philip Eaves, the electrician, got himself unloosened, and he then unloosened us. "I tried to reach the city hall by wire, but the wires of both telephones had been cut and I had to run in the pitch dark across country to Belmont pumping station, where I gave the alarm and they informed the detectives."

ALL TO SAIL BY JULY 15.

Olds Cables That Three Regiments, Including Nebraskans, Leave at Once.

WASHINGTON, June 20.—General Otis cables to the war department: "Transport Indiana with 151 officers and soldiers discharged as sick, with civilians, left for San Francisco via Nagasaki yesterday. Hancock and Sherman with Nebraska, Pennsylvania and Utah leave for United States as soon as troops can be placed in readiness. Californians will leave as soon as collected. Colorado to follow on first available transport.

"All volunteer organizations here desire muster out San Francisco."

Adjutant General Corbin said today that General Otis' dispatch stating that the Nebraska, Pennsylvania and Utah volunteers would leave Manila at once for San Francisco, indicated that the commanding general in the Philippines now saw his way clear to return all the volunteer force to this country. General Corbin said that while all of General Otis' cablegram was not made public, the general gave no intimation of when the Twentieth Kansas or any other volunteer regiments would leave the Philippines, but that he had no doubt that the entire volunteer force would have left for San Francisco by July 15.
