

School Time

Your boy will be better for having a watch. There will be fewer tardy marks and fewer broken appointments. He will learn the value of time, that thing from which life is made. As little acorns make great oaks, so moments of time put to good use make life a success. Don't let them stand on streets and wait for the car. Teach him to meet the car on time, go to church on time, to use time as a means of shortening the cares of life. We have watches to suit all sizes and conditions of boys. Come in and look at them.

CLOTHES

May not make the man but they can greatly improve man's appearance. Nothing looks worse on a man or boy, than an ill-fitting suit, no matter what the price of it may be, while a neat fitting suit, although it may be cheap, looks dressy. We sell you clothes

THAT - FIT,

and give the weare of them a dressy appearance, no matter whether it is a high priced or a low priced suit. We do not allow a customer to leave our store with an article unless it fits. Our prices are as low as the lowest and our goods the best.

Cowden-Kaley Clothing Co.,
LEADERS IN LOW PRICES.

OSTEOPATHY,
The Science of Healing Without Drugs.

The theory on which the Science of Osteopathy is founded, is that if every part of the bony structure is in place, and the passage of the nerves and blood vessels is unobstructed, so that every part of the body is receiving its proper nerve and blood supply, the physical body will perform its work correctly and the condition known as health results.

On the other hand if any part of the bony structure or its muscular attachments become dislocated, misplaced or malformed, so that a nerve or blood vessel is partially or fully obstructed, the condition known as disease will appear in the part which should be supplied or drained by the nerve or blood vessel involved.

"Osteopathy is the work of a skilled mechanic on the most complicated of machines."

Osteopathic treatment is scientific, requiring no faith, no drugs, no surgical operation. It is purely a study of mechanism and function combined with a system of scientific manipulation.

Osteopathy is applied Physiology.

DR. MARY CHASE ROCKWELL,
Graduate of the National School of Osteopathy.
ROOMS OVER COTTING'S DRUG STORE.

The "Ivory" is a favorite shaving soap because it makes a profuse rich lather, which softens the beard to be removed and leaves the skin unharmed.

It costs about one-fifth as much as the so-called shaving soaps and many who have used it for this purpose for years, will not have any other.

The vegetable oils of which Ivory Soap is made, fit it for many special uses for which other soaps are unsafe or unsatisfactory.
