STEALING BICYCLES.

Smooth Schemes by Which Dealers Are Victimized.

Curious Stories of Thefts by Respectable Appearing Persons—Women Are Engaged in the Thieving.

Whether bicycling in the long run is cheaper than riding in street cars, it is certain that some persons of unscrupulous tendencies make money by their cycling adventures. They are those who make a practice of stealing bicycles and selling them for what they can get. Four or five years ago, when the price of the cheapest wheels almost equaled that of the best in the market to-day, the business of bicycle stealing was really in its infancy. Men who had engaged in various lines of crookedness soon discovered that the demand for wheels at a low price furnished exceptional inducements for them to make bicycle stealing a regular occupation, and the tactics they employed in order to get possession of machines were numerous and often extremely clever.

During the last two years wheel-stealing has been carried on to a greater or less extent, but until this summer comparatively few complaints have been heard from dealers and individual riders since 1896. The thieves have lately started out again in great earnestness, and their modes of operation differ in many respects from those pursued formerly. Dealers tell some curious stories of the way they have been robbed by honest-looking and apparently respectable persons who have come to their shops ostensibly to buy or to rent wheels.

"Last week," said a dealer on the West side, "a young man came into my store and asked to see a new man's bicycle, with a 24-inch frame. He said that his own wheel did not run smoothly and that he desired to get another one. He inquired my cash price for one of the best machines in the store and then decided that he would like to exchange his old wheel for the one we were examining. 'Where is your wheel?' I asked. 'Of course I must see it before I can tell how much I will be able to allow you for it.' 'It's five or six doors up from here, in a repair shop,' said my visitor. 'The repairer had one of the wheels off about five minutes ago and was straightening the front fork, which I bent a little in an accident. If you will just step in there for a moment you can see it.' 'The man's apparent honesty and uncommonly frank expression of countenance made me less suspicious that I would be generally, but I had already had some experience with smooth-talking individuals, and made up my mind I would not be taken in by them again. I was alone in the shop at the time, but resolved, nevertheless, to see if there was anything in the man's game. So I agreed to step over to the other place with him and take a look at his wheel. When we arrived there, instead of walking to the back of the shop, where the repair department was, I stopped purposely about six or eight feet from the front door to look at a machine which, I remarked, had a very odd appearance. A few seconds later I walked out of the shop, and as I did so saw a man rush into my store. When I got there he was just coming out with a new \$75 bicycle and seemed embarrassed when he met me face to face.

"I was just seeing how easily this wheel runs," he exclaimed when I confronted him. "If I can dispose of my own bike, I'll come back in a day or so and buy this one. It is a daisy." "Oh, yes," said I, "it's a beautiful machine, but if you had got it outside of this door when I saw you, you bet I would have your picture in the rogues' gallery." His explanations were profuse, but they didn't convince me of his honest intention. The fact is that he was watching for me to go into the other shop, and the moment I did so he improved his opportunity.

"We do not fear the men thieves nearly so much as we do the women," said another dealer. "If, for example, a man comes in here to rent a bicycle and we have any doubt as to his honesty, we flatly refuse to let him have it. But with women it is different. A woman may come in all rigged out for a spin and with her face covered with smiles. She has been told that our wheels are better than those in other places and she wishes to hire one for a couple of hours. When we inquire her address she gives one that is a mile or so away—too far, of course, for us to send around there to see if it is genuine—adds that she is so and so and expresses great surprise that we should for a moment doubt her sincerity. We tell her that it is against our rules to let a wheel to anybody we don't know, and that we can scarcely make an exception in her case. Then she tosses her head, snaps her eyes, and declares that the whole thing is absurd and that she is to be deprived of a whole afternoon's pleasure on account of our abominable system of red tape. Under such circumstances it is mighty hard to deny the request, but we have to do so. If we didn't, it would be only a short time before our shop would be in the hands of a receiver."—N. Y. Sun.

The readers of this paper will be glad to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh, being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & Co., Toledo, Ohio. Sold by druggists, 75c. Hall's Family Pills are the best.

How Women May Keep Young

The real secret of youthful features in women is regular menstruation. If there is an irregularity of any nature—if the menses be suppressed or too scanty, too profuse or painful—the trouble will show in the face. The eyes will be encircled with black, the skin sallow; blotches and pimples will appear, and the sufferer, although young in years, will appear old in looks. The unfailing remedy is

RAW AS BEEF FROM ECZEMA!

No Torture Equal to the Itching and Burning of This Fearful Disease.

Not much attention is often paid to the first symptoms of Eczema, but it is not long before the little redness begins to itch and burn. This is but the beginning, and will lead to suffering and torture almost unendurable. It is a common mistake to regard a roughness and redness of the skin as merely a local irritation; it is but an indication of a humor in the blood—of a terrible disease which is not to be cured by local applications of ointments, salves, etc., applied to the surface. The disease itself, the real cause of the trouble, is in the blood, although all suffering is produced through the skin; the only way to reach the disease, therefore, is through the blood.

Mr. Phil T. Jones, of Mixersville, Ind., writes: "I had Eczema thirty years, and after a great deal of treatment my leg was so raw and sore that it gave me constant pain. It finally broke into a running sore, and began to spread and grow worse. For the past five or six years I have suffered untold agony and had given up all hope of ever being free from the disease, as I have been treated by some of the best physicians and have taken many blood medicines, all in vain. With little faith left I began to take S. S. S., and it apparently made the Eczema worse, but I knew that this was the way the remedy got rid of the poison. Continuing S. S. S., the sore healed up entirely, the skin became clear and smooth, and I was cured perfectly."

Eczema is an obstinate disease and can not be cured by a remedy which is only a tonic. Swift's Specific—**S. S. S. FOR THE BLOOD**—is superior to other blood remedies because it cures diseases which they can not reach. It goes to the bottom—to the cause of the disease—and will cure the worst case of Eczema, no matter what other treatment has failed. It is the only blood remedy guaranteed to be free from potash, mercury or any other mineral, and never fails to cure Eczema, Scrofula, Contagious Blood Poison, Cancer, Tetter, Rheumatism, Open Sores, Ulcers, Boils, etc. Insist upon S. S. S.; nothing can take its place. Books on these diseases will be mailed free to any address by Swift Specific Company, Atlanta, Georgia.
