

THE BEST THEY KNOW.

YOU remember the old lady who rode for the first time on a railway train. There was a frightful collision, but when the rescuers reached her she was quite calm. She said she supposed they always stopped that way. The story well illustrates why so many women are satisfied to live without Ivory Soap. They have never tried it! Naturally enough, they think that annoying odors, sharp chemicals, and wasteful greasiness are common to all soaps.

For State Representative, CHAS. E. HICKS, For County Attorney, E. U. OVERMAN.

The city has settled down to something like its old harmony. Now why not let it stay that way?

Mrs. Geo. W. Dewey made somewhat of a tour of the western and southern states this week. Her husband accompanied her.

Just put it down in your scrap book that farmers in this immediate section of Nebraska are in prosperous circumstances and that the crop outlook was never more promising.

It has been now ten days since the state convention was held, and as yet the demo pop press has not been able to find anything mean to say about C. H. Deitrich or any of the rest of the state ticket.

Col. Bryan will rest from May 15th until after the democratic convention. During his vacation he ought to revise his picture of the distressed farmer of the west, who lives in a hovel, without books or papers, or any of the comforts and hardly the bare necessities of life.

The only thing the fusion press can find against W. S. Morlan is that he is a railroad attorney. That surely is no discredit, but to the contrary it speaks well for his ability. Such corporations are not in the habit of hiring anyone except competent men to handle their business.

The fusion pops now in session at Sioux Falls are all at sea and no doubt have begun to wish they had put off

the holding of their convention until after the Fourth of July. They are afraid to nominate anybody for vice president and are sure that they will be made public laughing stock if they don't.

Gen. Charles F. Manderson is being quite prominently mentioned as a possible "good western man" for the nomination of vice president. Should he be nominated we wonder what the demo-pops would substitute for their campaign cry of "Stand up for Nebraska."

Two thirds of the population of a western country changes every ten years. The first thing an intelligent new arrival does is to subscribe for a local newspaper as there is no other way in which he can so easily get the run of things. The business man who keeps this fact in mind and constantly keeps his name prominent in the local press is the man who will naturally catch the trade of these people and if he is the right kind of a man he can hold it. The business man who fails to keep up with the procession is very soon out-distanced by younger and more vigorous rivals, and the man who thinks he can so firmly establish a business in this country where population shifts so rapidly, without effort, is doomed to grievous failure. When a man says that his business is so firmly established that he doesn't need to push or advertise it, you can conclude that the man is a fossil who is so firmly established, like a rotten log, that the moss has already started on his back.

Two populist national conventions are being held this week, one at Sioux Falls, South Dakota, and the other at Cincinnati, Ohio. From press dispatches one is led to conclude that each wing of this great reform party has troublesome ideas of their own and also thankful that the conventions are far enough apart so that there is no danger of the ideas of one crowd

Life's a Sack Race

To a sick man. He's hobbled, hampered, handicapped by his sickness. Every little while he has to lay off for a day.

He can't get ahead. Everybody passes him in the struggle for success. If sickness originates in a diseased condition of the stomach (and most sickness does) there's a cure for it. Dr. Pierce's Golden Medical Discovery is not a cure-all, but a medicine specially designed to cure diseases of the stomach and organs of digestion and nutrition. It cures many forms of disease, because many forms of disease originate in a diseased condition of the stomach and organs of digestion and nutrition. It cures many forms of disease, because many forms of disease originate in a diseased condition of the stomach and organs of digestion and nutrition.

"I write to tell you of the great benefit I have received from the use of Dr. Pierce's Golden Medical Discovery," writes Mr. G. B. Bird, of Byrnsdale, Putnam County, West Va. "I had no appetite, could not sleep or work but very little. The little that I ate did not agree with me; bowels constipated, and life was a misery to me. I wrote to Dr. Pierce, giving the symptoms, and asked for advice. You advised me to try the 'Golden Medical Discovery,' so I began the use of it, and after taking four bottles I felt so well that I went to work, but soon got worse, so I again began the use of it, and used it about eight weeks longer, when I was permanently cured. I took in all about twelve bottles of the 'Discovery,' and some of Dr. Pierce's Pleasant Pellets in connection with the 'Discovery.'"

Dr. Pierce's Pleasant Pellets keep the bowels in healthy action.

getting tangled up in the wheels in the heads of the other crowd. Their opinions of each other would lead one to believe someone had got kicked out of the populist bed. Ignatius Donnelly in speaking of the fusion populists at Sioux Falls remarks that "the Lord has separated the sheep from the goats and the exuviae are all gathered at Sioux Falls in obsequious severity to the democratic party. They are parting their coat-tails and inviting the democrats to kick them, and every time they are kicked they thank God and take courage." And the other gang refers to the Cincinnati crowd as "bolters and self-constituted patriots, only a few in number but very noisy." That is what is commonly called harmony in populist ranks.

In speaking of the vice presidential possibilities on the republican ticket the St. Louis Globe Democrat says: "Perhaps the strongest of the good western men yet brought forward is Gen. Charles F. Manderson of Nebraska. The former senator has not treated the mention seriously as yet. Probably he cannot be called a candidate. Two years ago he went out of the senate, where he was one of the strongest men in his party, with the avowed intention to devote himself to his profession. The mention of his name has shown that he is widely popular in the west and commands the respect of the east. If Gen. Manderson should be chosen for the second place on the ticket, the unprecedented fact of a presidential ticket made up of fellow-townsmen would be the result. General Manderson has been so thoroughly identified with Nebraska that not many people know he came from Canton, Ohio. He was born in Philadelphia but went to Canton when he was nineteen. There he studied and practiced law. There he entered the army in 1861. To Canton he returned in 1865, partially disabled by a desperate wound. He was three times elected district attorney, and then, in 1869, moved to Omaha. William McKinley came to the front as the foremost republican of Canton when Charles F. Manderson went west. Unless he shall prohibit it Nebraska will probably present his name at Philadelphia. And by all present indications there will be several others."

Where Mr. Bryan fails is in the fact that he never gets beyond party to principles. He has no conception of the national spirit behind expansion. It is enough for him to say that the republican party is trying to change the republic to an empire. He has no apprehension of the deep popular conviction for justice to Porto Rico. It is sufficient for him that the republicans first proposed free trade and then proposed the tariff. He offers no argument to show that all trusts are necessarily bad, or that a monopoly may or may not exist in other form than in a trust. He does not even catch the principle that protective duties on trust products should peremptorily be struck off. His case is satisfactorily made up in the declaration that the republican party is run for syndicates and by syndicates. His defense of free silver is that the republican party is insincere in its profession for bimetalism. His charge against the gold standard is that the republicans have not been consistent in its support. His argument for an income tax is that Abraham Lincoln approved one and in 1894 republicans voted against one. His pose against expansion is that no republican can say just exactly what should be done and what will have to be done in the Philippines. These are welcome sallies to the democratic partisan and catchy phrases for the rabble. But they afford no light on the questions of the hour, they offer no light to the sincere student of our national problems.

The middle road populists on yesterday at Cincinnati nominated Wharton Barker for president and Ignatius Donnelly for vice president. The fusionists at Sioux Falls named W. J. Bryan for president and C. A. Towne for vice president.

Republicans are a unit as to their national candidate, and their state platforms are substantially all alike. It is plainly a year of complete republican harmony.

It is easy for democratic platform writers to get up a plank against trusts. The best points are already embodied in platforms adopted at republican state conventions.

It is proposed by the Goebelites to amend the Kentucky election laws so that a man who votes the republican ticket can have his certificate commuted to imprisonment for life.

When the Chicago platform is taken out of cold storage on the 4th of July the delegates will be surprised to observe the number of blow hoes in it.

Mrs. Dewey is a ready well satisfied that the admiral can be elected president with or without the vote of New York.

I will move to new quarters opposite the State bank on the first of May - W. A. MITCHELL.

SCROFULA The Blighting Disease of Heredity.

In many respects Scrofula and Consumption are alike; they develop from the same general causes, both are hereditary and dependent upon an impure and impoverished blood supply. In consumption the disease fastens itself upon the lungs; in Scrofula the glands of the neck and throat swell and suppurate, causing ugly running sores; the eyes are inflamed and weak; there is an almost continual discharge from the ears, the limbs swell, bones ache, and white swelling is frequently a result, causing the diseased bones to work out through the skin, producing indescribable pain and suffering. Cutting away a sore or diseased gland does no good; the blood is poisoned. The old scrofulous taint which has probably come down through several generations has polluted every drop of blood.

Scrofula requires vigorous, persistent treatment. The blood must be brought back to a healthy condition before the terrible disease can be stopped in its work of destruction. Mercury, potash and other poisonous minerals usually given in such cases do more harm than good; they ruin the digestion and leave the system in a worse condition than before.

S. S. S. is the only medicine that can reach deep-seated blood troubles like Scrofula. It goes down to the very roots of the disease and forces every vestige of poison out of the blood. S. S. S. is the only purely vegetable blood purifier known. The roots and herbs from which it is made contain wonderful blood purifying properties, which no poison, however powerful, can long resist. S. S. S. stimulates and purifies the blood, increases the appetite, aids the digestion and restores health and strength to the enfeebled body. If you have reason to think you have Scrofula, or your child has inherited any blood taint, don't wait for it to develop, but begin at once the use of S. S. S. It is a fine tonic and the best blood purifier and blood builder known, as it contains no poisonous minerals. S. S. S. is pre-eminently a remedy for children.

SAVE THE CHILDREN. When my daughter was an infant she had a severe case of Scrofula, for which she was under the constant care of physicians for more than two years. She was worse at the end of that time, however, and we almost despaired of her life. A few bottles of S. S. S. cured her completely, as it seemed to go direct to the cause of the trouble. I do not believe it has an equal for stubborn cases of blood diseases which are beyond the power of other so-called blood remedies. S. I. BROOKS, Monticello, Ga.

Our medical department is in charge of experienced physicians who have made Scrofula and other blood diseases a life study. Write them about your case, or any one you are interested in. Your letter will receive prompt and careful attention. We make no charge whatever for this. Address, THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Birmingham, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.
