

**Sight,
Hindsight.
Foresight.**

The actions of many people in regard to the use of glasses would lead the informed to believe that their eyes were in the back of their heads, because they never look into the future. In eye use and abuse they go year after year with never a look ahead or a thought for the ill neglect will bring. They cling to the old, foolish, erroneous idea that it is best to put off the use of glasses until forced to put them on. They wait until their vision so deteriorated that even proper glasses cannot entirely restore it to its former acuteness, when, if taken in time, glasses would give the same easy, restful vision enjoyed in younger days.

Considerable complaint is being made of the manner in which cows and other animals are being driven over side walks and lawns on their way to and from the pasture. This is a complaint that comes in every year and it is about time to stop it. The city council should pass an ordinance prohibiting the driving of loose stock through the streets. That is about the only way to stop it.

Now that there is a good prospect for crops and all nature seems bent on the making of plenty, it seems to us would be a very opportune time for those in arrears to come in and pay their subscription. As we have said before it is not the large amount of each individual who is in arrears, but taken as a whole it amounts to a large sum. Take for instance the fact that of five hundred delinquents, fifty owe from two to three years, two hundred owe two years and the balance or two hundred and fifty owe one year. This collectively makes a large sum. Some people seem to think that they should receive a paper right along without paying a cent, but they don't stop to think that the publisher has to be eternally putting up the cash. When you read this article stop and think if you are one of the many and then do the right thing. We'll not become a bloated bond-holder but in turn we will pay what we owe.

We have a design suitable for any room in the house. We do not consider our Wall Paper merely as a side line, but something that requires careful attention and the exercise of
GOOD TASTE
in selecting. Our stock will please the most fastidious. There are numerous dainty patterns for 10c per roll and many rich designs for from 15c to 50c per roll.
Call and see them.
