This paper would advocate the idea of the mayor issuing a proclamation and having it printed in the city papers and distributed in printed notices declaring that all offenders big or little caught teasing or in any other way interfering with Tommy Quinn will be arrested and fined. This nuisance has gone far enough. The fact that the ladies of our city have to be subjected to the vile blasphemy of this old fellow in order that some may have fun out of it is getting a little thin. He should either be placed in subjection or the ones causing the nuisance should be.

The CHIEF has always been in the habit of giving its subscribers the best of it on the offering of premiums for subscriptions paid in advance. The fact that paper has advanced materially and that no advance has been made in the price of this paper, has made it imperative that we have what is due us at once. We have heretofore been lenient, but will be compelled soon to place many accounts in the hands of a collector to enforce payment. Rather than do this we will give as an inducement for those paying up to date, a six months paid up subscription to the paper and a fine genuine oil finish portrait of yourself or a friend, in a splendid frame for the small sum of \$1.98. These portraits will not rub off like the cheap crayon pictures, but they wash and can be put in a tub of water over night without injury. The portrait can be made from any small picture, photo, tintype, or ambrotype furnished. Any portrait that is not entirely satisfactory will not cost you a cent. We have a sample portrait at this office which must be seen to be appreciated. If you have a loved one whose picture you wish enlarged it will pay you to take advantage of this offer.
