Indiana continues to contribute prominent democrats to the republican cause.

After all, crop conditions all over the country afford very little material for the calamity howlers.

The ghost of imperialism is so transparent that even a near sighted man can see 16 to 1 through its shadowy form.

The fact that the republicans insist on choosing their own line of battle in this campaign is considered very unfair by the enemy.

Kansas cannot find enough ears to carry her crops. Thus is opened the golden opportunity to kick because of too much prosperity.

The antics of the populists and democrats in some western states makes one think of the two snakes that tried to swallow each other.

If free silver is really dead Mr. Bryan should not dislike the republican party for killing it, as he has been making lots of money exhibiting the corpse.

The democratic managers are said to have noticed no particular demand, as yet for 16 to 1 literature. Every one understands all about that question.

So far Mr. Bryan has had the greatest difficulty with those members of his audiences who insist upon him explaining his predictions of four years ago.

The experience of the city of Omaha with a padded census should be a warning to those Nebraskans who would vote for a padded currency. There is always a day of settlement.

Following the teachings of Bryan and Edward Atkinson, the Filipinos have taken to counterfeiting the silver dollar. Is this not carrying the free coinage idea to an absurd extreme.

The Hon. Chas. A. Towne has been nominated to reply to the speeches of Governor Roosevelt. The chances are that he will be compelled to execute another withdrawal before the close of the campaign.

Owing to the backwardness of the country in responding to the democratic appeals to start a fire in the rear of the American soldiers in the field, Mr. Bryan may have to do a little more parading during the campaign.

The McKinley administration has not sought to avoid one of the many emergencies which have developed since its inauguration. Are the voters

prepared to place the affairs of the government in the hands of a political party that is trying to evade its own platform?

Mr. Bryan should cede the sovereignty of his farm at Lincoln, Nebraska to Spain or France. The land was acquired by the United States without the "consent of the governed" by another democrat, Thomas Jefferson.

How Mr. Bryan can consent to live in Nebraska, when this circumstance is considered, is unexplainable.

Bryan wants a republic where the coach owner and coachman, the mistress and the maid, will have the same chance and share alike the good things of this life, but unfortunately he neglects to explain how this blessed state is to be brought about. The question is suggested that, in order to be consistent, with such views, he should arrange with Adlai in the event of their election to put their respective salaries into a pool and share alike.

Mr. Pettigrew complains that immense sums of money are being sent into South Dakota to defeat his re-election to the senate. This is the same Pettigrew who recently tried to dis-

CONTAGIOUS BLOOD POISON

Contagious Blood Poison is the most degrading and destructive of all diseases, as it vitiates and corrupts the entire system.

The first sore or ulcer is followed by little red pimples on the body, mouth and throat become sore, the glands enlarge and inflame, copper colored spots appear, and hair and eyebrows fall out. These are some of the milder symptoms; they increase in severity, finally attacking the vital organs; the body is tortured with rheumatic pains and covered with offensive eating sores.

It is a peculiar poison, and so highly contagious that an innocent person handling the same articles used by one infected with this loathsome disease, may be inoculated with the virus. It can be transmitted from parent to child, appearing as the same disease or in a modified form—like Eczema or Scrofula.

Many an old sore or stubborn skin trouble appearing in middle life, is due and traceable to blood poison contracted in early life. You may have taken potash and mercury faithfully for two or three years and thought you were cured, but you were not, for these poisonous minerals never cure this disease; they drive it from the outside, but it is doing its work on the inside, and will show up again sooner or later. You may not recognize it as the same old taint, but it is. S. S. S. has cured thousands of cases of Contagious Blood Poison, and it will cure you. It is the only purely vegetable blood purifier known, and the only antidote for this poison. S. S. S. cleanses the blood thoroughly of every particle of the poison—there is never any return of the disease.

CURE YOURSELF AT HOME. Send for our Home Treatment book, which gives a history of the disease in all stages, and is the result of many years of

close study of blood poison and actual experience in treating it. You can cure yourself perfectly and permanently at home, and your secret is your own. Should you need any information or medical advice at any time, write to our physicians. They have made a life study of blood diseases, and will give your letter prompt and careful attention. Consult them as often as you please; we make no charge whatever for this service. All correspondence is conducted in the strictest confidence.

Does the Baby Thrive

If not, something must be wrong with its food. If the mother's milk doesn't nourish it, she needs SCOTT'S EMULSION. It supplies the elements of fat required for the baby. If baby is not nourished by its artificial food, then it requires

Scott's Emulsion

Half a teaspoonful three or four times a day in its bottle will have the desired effect. It seems to have a magical effect upon babies and children. A fifty-cent bottle will prove the truth of our statements.

Should be taken in summer as well as winter.

crediting the word of Admiral Dewey by publishing a letter from one of his Filipino correspondents. The trouble with Pettigrew is he has been home long enough to ascertain that the South Dakota people propose to have a representative in the senate who will look after their interests and not devote his entire time to encouraging the enemies of his country.

The republican electors of Line township will meet in caucus on Saturday, Sept. 22d, at 2 o'clock p.m. at the school house in Dist. No. 34, for the purpose of nominating township officers and such other business as may come before the meeting—R. TURNER, Committeeman.

Take a dose of Prickly Ash Bitters at night when you go to bed and you will feel bright and vigorous next morning. It will insure you a copious and healthy passage of the bowels, improved appetite and digestion and increased energy of body and brain.
