

The Old Tallow Candle. The Old "Specks."

The old tallow candle and the old method of selecting glasses go together.

Both primitive—both best of the times in which they flourished—both are "back numbers."

The man who takes his "specks" from off a case and puts them upon his face without knowing they are right, should step to the other end of the counter and buy a tallow candle to go with them.

If these are too modern, there still remains for him the flint and pine knot.

WE FIT GLASSES TO MODERN EYES BY MODERN METHODS.

These letters will be sent to the dead letter office October 11th if not called for before. When calling for above please say "advertised."—T. C. HACKER, Postmaster.

The Odd Fellows picnic at Lester last Tuesday was one of the most pleasant and sociable affairs of that character that has ever been held within the borders of Webster county. Among the crowd could be found a number of members from every lodge in the county and the Red Cloud lodge was out in force. After the usual formalities of greeting and handshaking the crowd proceeded to one of the best parts of a day's picknicking in the woods, i. e. to see what the numerous baskets contained, and the way that the contents were devoured would convince any one who witnessed the operation that it was a good thing to be an Odd Fellow. After the inner man had been satisfied and short rest taken, the program of the afternoon was given. The main feature of the program was a speech by Past Grand Master Wier of Lincoln. His address was a good one and well and masterly did he tell of benefits of Odd Fellowship and the elevating effects of such an order upon all mankind. After the program was completed the balance of the day was spent in having a general good time, and, as the women call it, visiting. Boating, swinging, pitching horse shoes, etc., furnished plenty of amusement. A county organization was perfected and in the future the order will hold a picnic every year.

GUIDE ROCK.

Ray Redden is here from Omaha.

A

HOT

BLAST.

Prices that are bottom and the best line of stoves on the market.

MORHART BROS. HARDWARE Co.

ROYAL

The Absolutely Pure

BAKING-POWDER

is the baking powder of general use, its sale exceeding that of all other baking powders combined.

Royal Baking Powder has not its counterpart at home or abroad. Its qualities, which make the bread more healthful and the cake of finer appearance and flavor, are peculiar to itself and are not constituent in other leavening agents.

Great efforts are made to sell alum baking powders under the plea that they are so many cents a pound cheaper than Royal. The admission that they are cheaper made is an admission that they are inferior. But alum powders contain a corrosive poison and should not be used in food, no matter how cheap.
