

The Old Tallow Candle, The Old "Specks."

The old tallow candle and the old method of selecting glasses go together.

Both primitive—both best of the times in which they flourished—both are "back numbers."

The man who takes his "specks" from off a case and puts them upon his face without knowing they are right, should step to the other end of the counter and buy a tallow candle to go with them.

If these are too modern, there still remains for him the flint and pine knot.

ROYAL

The absolutely pure BAKING POWDER

ROYAL—the most celebrated of all the baking powders in the world—celebrated for its great leavening strength and purity. It makes your cakes, biscuit, bread, etc., healthful; it assures you against alum and all forms of adulteration that go with the cheap brands.

Alum baking powders are low priced, as alum costs but two cents a pound; but alum is a corrosive poison and it renders the baking powder dangerous to use in food.
