## WASHINGTON WHEELS INTO LINE ON EXPANSION

Colonel Frank Wilkeson, formerly Populist member of the legislature of the state of Washington, and who was one time associate editor of the New York Sun, has rejected Bryanism. He says: "I am an expansionist of the most extreme type and believe in holding the Philippine Islands for commercial reasons as well as a military and naval base. I have paid taxes for thirty years to establish eastern manufacturing industry,-paid even under angry protest, because I lived in a region remote from all possibility of profitable manufacture,-and now, when Washington has a chance to establish a manufacturing industry to supply the people of Asia with finished products, I am a high tariff advocate. I want the industries of Washington diversified; I want our coast built up and commerce established. I want to see the consuming powers of the market of Asia increased, so that it will consume all the surplus wheat raised in Australla and on the Pacific coasts of the North and South American continents, and this will increase the price of wheat raised in the Mississippi valley, where I have a large farm. I believe that the success of Democracy will directly and disastrously affect my pocket; that it would if carried to a logical conclusion create industrial and commercial lethargy on the Pacific coast, and by curtailing the power of consumption of the foreign and domestic markets cause breadstuffs and provisions to fall in value."

C. N. Neal, Bridgewaler, N. Y .- I am a Democrat this year just the same as always, but I am not in favor of free silver. A man can be a Democrat and not in favor of Bryan. The times are good enough without taking any chances on a change,

William H. Barron, Bridgewater, N Y.-I am going to vote the Republican ticket this year. We are getting along all right just as it is. A change would not be any improvement. I am very much interested in Mr. Brownell's can didacy and shall do all I can to help him.

Byron Rose, Sauquoit, N. Y .-- I lived in Utica until a while ago, and when there marched with the Jacksonians and voted the Democratic ticket. This year I shall vote for McKinley for President. The times are good enough just as they are without any change.

W. J. Puckett, assayer in charge of the mint, Denver, Colo., under Presi-dent Cleveland: "I have always been a stickler for party, never having voted any other than a Democratic ticket. I shall now support the Republican ticket from top to bottom. I have many reasons for such action, but at present will only attempt to refer to one. Mr. Bryan boldly and publicly upholds the Philippine insurgents conlemning the action of the administration, commending the action of the insurgent leader, Aguinaldo, and giving us to understand he is following the example of Washington. If this is not treason, what is it? The boom of cannon, the roar of musketry, the clash of sabers-the battle is on. Perish the politician who in time of war opposes country, right or wrong."

Dr. A. A. Ames, three times elected mayor of Minneapolis on the Demo-cratic ticket: "I am a Republican because the party represents patriotism, expansion and true progress.

W. A. Dobbyn, Minneapolis, Minn., formerly a Populist: "The Populist party is disintegrating and the Republican party will get most of these votes."

E. C. Benedict, Greenwich, Conn. When asked to contribute to the Democratic campaign fund wrote: "I regret to find no party in existence whose platform supports Democratic principles to any degree. Four years ago our state sent delegates to the Chicago convention as representatives of unquestioned Democratic principles. They were outyoted in the national convention which promulgated a platform of doctrines almost wholly at variance therewith and committed an unpardonable crime when they used our good name as a label. Therefore I would as soon think of contributing to a lot of Chinese who have captured our Christian churches, set up therein the teachings of Confucius as the gos-pel and a painfully conspicuous Joss to worship instead of the unseen God. and without changing the names of the churches call themselves regular Christians."
