

THE CLOCK.

A reliable clock is a necessity in every well regulated household. Our clocks combine beauty of design with accuracy in time keeping. We guarantee every clock we sell and know how to make it go right if it goes wrong.

THE RING.

Our finger rings all have the ring of goodness. They stand the closest inspection under the strongest light of day. Your critical inspection invited.

THE WATCH.

There are two kinds of people we want to watch. They who have watches—we want to repair them. They who have none—we want to sell them watches.

As everyone knows, L. A. Haskins is a devout Bryan man, and he has also been away on a visit. While the writer was passing his house we were surprised to notice a large picture of the republican presidential candidates in the window. We are inclined to think that his better half has been playing a joke on him or is a republican herself. Maybe he has seen so much prosperity up in Wisconsin that he placed it there himself since his return.
We wish to announce this week a pleasant call from the Rev. J. H. M. Cobb, pastor of the Methodist church of this city, and must say that he impressed us as being a very pleasant gentleman and one who will do much toward the building up of that society here. The pleasure of the visit was mutual and we believe that the gentleman left with the impression that we did not have horns and were not near as bad as some three or four persons—who up to date have not read their titles clear—would like to have people believe.
The smokers of Red Cloud can find on sale by H. E. Grice and a few of the local dealers one of the choicest and most phenomenal retailing cigars ever manufactured in the west, the "Tuck" cigar. It is hand made throughout and unequalled in workmanship by any 5 cent cigar on the market. The "Tuck" cigar has in its filler the finest grade of old unflavored tobacco that can be purchased and used in a 5 cent cigar. Its draft is perfection. The "Tuck" cigar is packed in tin foil in packages of five with the object in view of keeping it fresh, retaining the flavor and protecting it from breakage when carried in the pocket. The "Tuck" cigar is in fact perfection in everything that is required to make a choice smoke. There is no cigar made in the five cent class that equals the Tuck cigar, in fine workmanship, quality, draft and filler. Try the "Tuck."

GO TO PETERSON FOR BUGGIES
Last week I told you that goods well bought were half sold. This is a true saying from the way the people buy when they see what I hav for the money. I will sell you a better job than you can buy at Chicago or any other place for the money. Compare my goods and prices with others and see for yourself.

Guide Rock did itself proud last Monday, the day of the republican rally. Never before in the history of the town has it seen such a crowd. Everything was there that was advertised and a little more too. The delegation from Red Cloud was much larger than the railroad company had evidently figured on and about a hundred were left at the Red Cloud depot when the train pulled out, who could not squeeze aboard. Everyone reports a good time and plenty of republican enthusiasm.
The person or persons who have been tearing up sections of defective sidewalk on Fourth avenue may think they are doing a smart trick, but when they have to go through the mud this winter they will understand how silly their act of vandalism was. The start which this paper has been crying for for years—brick sidewalks—has begun and with the advent of the summer we believe that many of this material will be put in. The council should draft an ordinance specifying the kind of sidewalk that should be put in when the old one is taken up and it should be brick. Do this and the property of the city will advance in value and the looks of the street be enhanced amazingly. As a stranger said, your variegated walks of brick, ashes, gravel, sand, and board looks like h—ll.

We have before us a sample of the ballot to be used at the coming election next Tuesday. It is a very bulky affair, measuring 14x42 inches, and if the vote is very heavy dry goods boxes will be in great demand for ballot boxes. It is also one that will require a considerable amount of study and care in marking in order that no mistakes be made.

For further particulars call on city clerk —J. E. KESLER, City Clerk.
Mary E. Lease spoke to a large and very attentive audience at the opera house last Monday evening. She spoke from a republican point of view and the way she exposed Bryan and Bryanism showed clearly that she knew what she was talking about. It is just as she says, "when the democrats swallowed the populist party they didn't swallow me." As a speaker she can command more respectful attention than any speaker who has been here this year. Her talks are interesting and instructive and her comparisons are simply immense. If you did not get to hear her go to Riverton next Saturday. It will be worth your time.

The Eminent Kidney and Bladder Specialist.

The Discoverer of Swamp-Root at Work in His Laboratory.
There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble.
Dr. Kilmer's Swamp-Root the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At druggists in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Binghamton, N. Y. and mention this paper.
