The county attorney is frequently seen in Blue Hill these days and all the babies, young and younger, are on the street for his fine lecture and sermon.

We have along the river plain of life. We will be able to do all our best work. We want of us to be successful in our trade. The only way to the success of a man is hard work and the sweat of his brow. Progress, industry and the love of one's neighbor are the only things that will bring us to the top.

English revolution, sometimes bestrew with blood.

The sun, the moon and the planets. The sun, alas, it changes into gloom. As is the sun forevermore had set; still pressing on, as those who seek for gold, through ghostly ransoms up the mountain slope. We stand at last upon its summit bold, we stand and gaze with mingled fear and hope:

We gaze on what? What lies beyond the height we see on the line more rugged and more steep. And at its foot there flows, as dark as night, A rolling river, wide and swift and deep; And is this all, this river and this steep, That lies beyond the mountain tops of life? Fear answers "yes, the end of man is sleep." But hope still whispers of a nobler life.
