

Scrofula

THE OFFSPRING OF HEREDITARY BLOOD TAIN.

Scrofula is but a modified form of Blood Poison and Consumption. The parent who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores and abscesses and oftentimes white swelling—sure signs of Scrofula. There may be no external signs for a long time, for the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

J. M. Seal, 115 Public Square, Nashville, Tenn., says: "Ten years ago my daughter fell and cut her forehead. From this wound the glands on the side of her face became swollen and burst. Some of the best doctors here and elsewhere attended her without any benefit. We decided to try S. S. S., and a few bottles cured her entirely."

SSS makes new and pure blood to nourish and strengthen the body, and is a positive and safe cure for Scrofula. It overcomes all forms of blood poison, whether inherited or acquired, and no remedy so thoroughly and effectively cleanses the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S. and get the blood in good condition and prevent the disease doing further damage.

ALMOST FORGOTTEN.

Incidents of Every Day Life Which Very Few People Stop to Think About on Account of Their Litenness.

At almost any hour of the day one can see the property owners here digging in the garden.—The passing public is not privileged to know whether he is striving to get the best of the weedlets, is energetically cultivating the garden truck, or industriously digging for bait.—It is dollars to doughnuts it is the latter.—Digging for bait is not hard work; it is a pastime.—Several of our professional men throw off the cares of business and hied themselves to the bank of the silver stream to angle for its finny treasures.—One would have thought to see them start out that they were going to Oklahoma overland.—They had several kinds of bait and plenty of it.—The stream was reached in due time.—For over two hours those men sat with "baited" breath and hook, watching the bobber bob and the sinker sink.—An unpleasant circumstance happened during the evening.—It was all caused by a curious optical delusion.—The glinting rays of the descending sun made two bobbers to appear where there should have been but one.—One of the fishermen seeing two bobbers on his line accused the man next to him of trying to entangle the lines.—It was an unjust accusation.—The accused could not stand the imputation.—He said the Bardeen was more than he could bear, and picking up his tackle was about to tackle his accuser when an unforeseen circumstance occurred to stop the row.—One of the others had caught a fish.—This gave them courage and they fished on.—Their efforts were rewarded and each had a good string (of lies) to show how it happened.—The deadlock continues.—It is funny how men differ in their estimates of another's qualifications.—But it is so.—The city is at present doing without a street commissioner and the Almighty is taking care of the water proposition.—And if a fire should break out some night now it wouldn't be discovered until someone came down town next morning.—Query: If it took sixty days to elect a United States senator, how long will Red Cloud be without a night watch and street and water commissioner?—The vacant lots north of the fireman's ball has become quite a pleasure resort for the young folks.—Tennis and basket ball furnish the amusement.—Did you ever play basket ball.—It is all the same as foot ball only you kick the ball with your hands.—The town herd is with us again.—The pastures are good now.—Nevertheless bossy doesn't mind a little extra and browses on the trees by the wayside.—Even if she has to break the sidewalk to get at them.—

There should be fewer cows or more boys to take care of them.—The boys also ought to keep the right of way with their horses.—They have no more right on the sidewalks than the cows.—Or as much.—The cows know no better.—The boys ought to.

COWLES

He's thirty-five dollars ahead boys, you had better hurry.

The new lodge hall is rapidly progressing and the young folks anticipate a grand time at the ball which will take place there soon.

Miss Ellis Hager left Saturday for Franklin where she will attend the wedding of her aunt.

Midnight carry-alls are now the order of the night on main street.

Jess Hayes is boarding at home this week, and has a few hats which he wishes to dispose of immediately. Give him a call.

Ed. Storey departed for Omaha last week.

The church social given at G. A. Latta's was well attended and all report a good time.

A class will be organized by a young lady from Mount Hope for the benefit of the Cowles girls. At the beginning there will be reduced rates, three lessons for twenty-five cents. All join.

A couple of young ladies became so interested in the hatching of the incubator at Mr. Hager's, that they forgot to go to school. What an excuse!

There is to be an entertainment in the school house Friday evening. All are invited.

Oval Watson was a guest at home Sunday.

Now, girls, what do you think of the Red Cloud boys since the ball game.

Mr. Haught of Eckley gave a dance last Thursday. A large number of the Cowles young folks attended but some not knowing the way went to church, and all together did not have a very pleasant drive over there but coming home the roasting, frying and "biling" exceeded any ever heard of in this neck of the woods. Where are your hats Jesse?

The free distribution of seeds by a government anxious to develop agriculture and, incidentally, to make congress as popular as possible in the rural districts, has been so pronounced a success, that, by provision of the recent congress, gratuitous beneficence and cheap vote-getting is to be extended. This spring the constituent will not only receive his annual package of seeds, as usual, but if he so desires, some small trees for the decoration of his bucolic home or the replenishment of his orchard. Thus will timber culture be developed throughout the country, and the postal department be induced to show up with the regular annual deficit. The free distribution of Plymouth Rock chickens, Durham calves and Berkshire pigs may be expected in due time.—Newark (N. J.) News, April 10, 1901.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is now realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

CONSUMPTION

The days of the ubiquitous train newsboy appear to be numbered. The management of the Burlington Route has sounded his death knell. After June 1 passengers on the Burlington will have no need to decline lemon drops and chewing gum, nor hold "all the popular works of the day" on their laps until the return trip of the attentive attaché. Of the several million passengers who have made the acquaintance of this individual few will chant a requiem for him. He never enjoyed a great degree of popularity, save with children who cordially welcomed his aid to make persistent assaults on their mothers' pocketbooks. The loss of the newsboy on Burlington trains will be more than atoned for by the increase in the number of magazines and other periodicals on its library cars. Moreover, news stands will be provided at more than double the number of Burlington stations now possessing them. The radical change, altogether comfortable to those who travel, marks an epoch in the gradual improvement of passenger train service.

"Played Out"

Is one of the curious expressions used for worked out. Many a woman drops into a chair, in utter weariness "all played out," and wonders why she feels so weak. She has not yet realized that the general health is so intimately related to the local health of the womanly organism, that weakness must follow womanly diseases.

Restoration of the general health invariably follows the use of Dr. Pierce's Favorite Prescription. It regulates the periods, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It tranquilizes the nerves, encourages the appetite and induces refreshing sleep.

There is no substitute for "Favorite Prescription," for there is nothing "just as good" for womanly ills.

I wish to advise the suffering women of this great land, of the good I have received from Dr. Pierce's Favorite Prescription and "Golden Medical Discovery," writes Mrs. Mary Shippell of Columbus Grove, Putnam Co., Ohio. "For four years I had been a sufferer from female troubles, and at times was unable to do even the housework for three in the family. I had such pains that I suffered almost death dozens of times, but after taking five bottles of your medicines I can truthfully say that my health was greatly improved. I have a good appetite and am gaining in flesh right along. This spring is the first time in five years that I have done my housecleaning all by myself and without the least fatigue whatever. I hope all suffering women may find relief as I have done. My gain in weight has been just ten pounds, and I am still gaining."

Dr. Pierce's Common Sense Medical Adviser, 1008 large pages, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only, or for cloth-bound book, send 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

PROPOSAL FOR BIDS.

Notice is hereby given that sealed proposals for bids will be received at the office of the city clerk of the city of Red Cloud, until 6 o'clock p.m. on the 25th day of May, 1901, for the sale of refunding bonds of said city to the amount of Twenty Five Thousand Dollars (\$25,000) authorized by the Compiled Statutes of Nebraska, Section 29 of Chapter 2, for the purpose of refunding certain six (6) per cent water bonds now outstanding against said city. Said bonds will bear date of the 1st day of July, 1901, of the denomination of Five Hundred Dollars (\$500.00) each, and will bear four and one-half per cent interest payable annually on the first day of June each year, and redeemable at the option of the city at any annual interest pay day after ten years from date. Said bonds, principal and interest will be made payable at the Nebraska fiscal agency in the city of New York. A certified check of Two Hundred and Fifty Dollars must accompany all bids as a guarantee of good faith, which will be returned to bidder if unsuccessful, and if successful will be forfeited to the city of Red Cloud on failure to complete contract.

Council reserves the right to reject or refuse to accept any bid or any part thereof.
