Polson Oak Poison Iv are among the best known

of the many dangerous wild plants and shrubs. To touch or handle them quickly produces swelling and inflammation with in-tense itching and burning of the skin. The eruption

soon disappears, the suf-ferer hopes forever; but almost as soon as the little blisters and pustules appeared the poison had reached the blood, and will break out at regular intervals and each time in a more aggra-vated form. This poison will loiter in the system for years, and every atom of it must be forced out of the blood before you can expect a perfect, permanent cure.

Nature's Antidote Naturc's Peisons, is the only cure for Poison Oak, Poison

Ivy, and all noxious plants. It is com-posed exclusively of roots and herbs. Now is the time to get the poison out of your system, as delay makes your condition worse. Don't experiment longer with salves, washes and soaps—they never cure.

salves, washes and soaps—they never cure. Mr. S. M. Marshall, bookkeeper of the Atlants (Ga.) Gas Light Co., was poisoned with Poison Oak. He took Sulphur, Arsenic and various other drugs, and applied externally numerous lotions and salves with no benefit. At times the swelling and inflammation was so severe he was almost blind. For eight years the poison would break out every season. His condition was much improved after taking one bottle of S. S. S., and a few bottles cleared his blood of the poison, and all evidences of the disease disappeared.

People are often poisoned without knowing when or how. Explain your case fully to our physicians, and they will cheerfully give such information and advice as you require, without charge, and we will send at the same time an interesting book on Blood and Skin Diseases. TROUBLE AT BULE HILL.

A Race War Threatened. Grave International Crisis Happily Averted.

The members of the Ancient Order of Bald Headed Prevaricators have been reluctant to respond to our requests for information since we ex-

ntinuing, or even of commencing the engagement. As he could tot see his foe no reasanable man vould expect him to remain in action. it seemed to be a case where both were ready but one was more ready han the other. The lodge was now in an uproar and the Grand Chief Prevarcator indicated his displeasure at the urn affairs were taking by launching his gavel at the head of Brother Zimmerman, but the aim being a trifle low, t buried itself somewhere in the depths C f his whiskers. Zimmerman, now < theroughly aroused, (his Dutch being ŝ up as one might say) forgot the respect due his Chief, forgot everything < he should have remembered and actu-0 ally hurled a chair at Colonel Hoover, < grazing his head and carrying away a ≤ 1 portion of his scalp. All was now dire < confusion and running to and fro and pandemonium prevailed. Finally, doc <3 ors having been sent for and the < wounds dressed, order again began to <3 dawn and reason to regain its sway () and apologies to be made. An unsuccessful search for the gavel having been 0 made through Zammerman's whiskers, the Grand Chief Prevaricator finally called the lodge to order by three dis-tinct raps of his boot, which he had re-0 moved from his foot and hell in his hand as an emblem of authority. Bus-< ness was resumed where it had been interrupted and Leopold Schulz was declared duly elected to membership Brother Zimmerman's punishment for offending the peace and dignity of the odge was taken under advisement Brother Schumann was fined two cases of beer and a bex of cigars. He paid the fine and withdrew his remarks concerning the Germans, and in the subsequent proceedings, which lasted several hours, during which Schumann generously doubled his own fine and as

g nerously paid it, all animosity and nce prejudice between feuton and Anglo Saxon were washed down or floated away in wreathing clouds of smoke. And thus another great national crisis has passed and another cruel war is averted.
