

Have You Perfect Eyes.

Highest authorities on the eyes say you have not. Today the absolutely perfect eye is unknown. Is the defect in your eyes sufficient to cause harmful results? This may be determined by our scientific measurements of the eye, and in no other way. Use of glasses advised if you need them—otherwise not. Glasses sold if you want them—but no compulsion about it.

To California—now. San Francisco is the most fascinating of American cities—a great grey city of 400,000 people from all parts of the world. It is worth visiting for itself alone. The trip there—if you take the Burlington Route—is the experience of a lifetime. You see all the wonderful mountain scenery of Colorado; Salt Lake City, the home of the Mormons; the orchards and vineyards of California, and last, but not least, the blue Pacific. No such opportunity of visiting California has ever occurred as will present itself early in July, when on account of the Epworth meeting at San Francisco, the Burlington Route will sell round trip tickets at less than the regular one-way rate. Tickets will be good to return until August 31, and will allow stop-overs, going and returning. Full information about every feature of the trip is given in the Burlington's Epworth League folder, a copy of which will be mailed upon request.—J. FRANCIS, General Passenger Agent, Omaha, Neb.

The one hundred and twenty-fifth anniversary of our nation's birth was very opportunely celebrated in Red Cloud according to the W. J. Bryan order of doing it up. The small boy and the cap pistol predominated to a large degree and the old folks hunted up a shady spot and whiled the hours away in peaceful slumber. The young folks who had a little ambition, money and patriotism left in their systems, went to some other town where the people believe that entertainment should be furnished at least once a year for the people who come to do trading. We think it is about time for our business men to wake up and furnish a little entertainment for the people who come to Red Cloud every week in the year to do their trading. It is true that it might cost the business men about twenty-five cents a week, but they could afford that much to entertain their customers a few hours on Saturdays. A walking race, free-for-all, go as you please, or any other old thing so it will be interesting. If nothing more a band concert. What do you think of it? We say let it commence at once. The business men should furnish some sort of entertainment for their customers. Now let us commence by having a five or ten mile go-as-you-please race on Saturday, July 13th. Some enterprising business man start the thing going.
