

Have You Perfect Eyes.

Highest authorities on the eyes say you have not. Today the absolutely perfect eye is unknown. Is the defect in your eyes sufficient to cause harmful results? This may be determined by our scientific measurements of the eye, and in no other way. Use of glasses advised if you need them—otherwise not. Glasses sold if you want them—but no compulsion about it.

Judd is enjoying a lay off for a few days and Lew Clapp now handles the delivery wagon for Miner Bros. L. H. Blackledge and family departed last Saturday for an extended trip through the mountains of Colorado. Miss Jess'e Cather and brother Jim left Tuesday for a visit with their brother Douglas at Cheyenne, Wyo. Finest line of iron beds and fancy rockers in the valley, at bed-rock prices at J. C. Wolfe's, the furniture man. C. E. Hicks of Bladen was in the city yesterday. He reports everything as looking fine in his locality and plenty of rain. Geo. Stewart, who has for some time been at work in the car shops here, has resigned his position and will go to McCook. Farm loans at 5 per cent interest on good improved land. C. F. Cather, office over Cotting's drug store, Red Cloud, Neb. Finest line of rocking chairs and the greatest variety of dining chairs ever thrown upon the market found at Albright Bros. S. W. Foe left Monday morning for a trip to Denver where he will visit for a week or ten days with relatives and friends. Latest music by most popular authors found at Music Store. Any thing not in stock ordered at once. All music at lowest possible prices. A. P. Ely and wife visited with E. B. Smith and family the first of the week and left for their future home at McCook Wednesday morning. The out door union service at the court house grove last Sunday evening was quite largely attended. They should be continued during the hot weather. Clair Nesbit went to McCook Wednesday to take the regular railroad examination in regard to sight, hearing, etc., which is now compulsory to any one entering the service. Allen Carpenter on Tuesday received the sad intelligence of the death of a sister at Franklin, this state. He departed Wednesday morning for that place to be in attendance at the funeral services. Holton Letson who has been taking a several weeks outing in the mountains around Deadwood, South Dakota and visiting with his brother Will and other friends returned home Wednesday evening. K. P. Hutchison was over from Lebanon Tuesday on business. He reports everything burned up in that locality but says that the nearer one gets to this city from that place the better everything looks. Only two, I. W. Pardun of Walnut creek and Fred Miller of Cowles, out of the entire crowd that went from this county to Oklahoma to get a claim, were fortunate enough to secure one of the government prizes. The iron posts and girders of the Potter-Wright building were placed in position this week. The two iron posts weighed one ton each. Aside from this very little work has been done or will be done until the second floor lumber arrives. We wish our correspondents would endeavor to get their items in each week and if possible not later than than Thursday. No department of the paper is looked after by our readers more than this. If your locality is not represented send us in the news.

Cox and family near Lester. Mrs. Ed Smith of Norton, Kansas, who has been visiting with J. H. Smith and wife, returned home Saturday. C. C. Cowden was in Superior the fore part of the week visiting with his son Amos. He returned home Tuesday. Work on the Polnicky building has progressed finely this week. The brick work of the second story is almost completed. M. C. Sherman returned Saturday from a trip up in the northern part of the state looking after the harvesting machine business. An additional ornamental cornice design has been placed on the H. E. Grice drug store building, and adds much to its appearance.

A man with a hoe or a shovel under the employ of the city might make the stone walks passable in an hour's time by removing the mud therefrom. Ringling Bros. circus, which has in the past been so popular with the circus going people of Red Cloud and vicinity is beginning to bill for performances in this state. Wm. Lindley, who has been quite ill at his home in Burr Oak for some time, will move to this city as soon as possible and make it his future home. He is reported as improving nicely at present. G. R. Chaney has so far recovered from his recent sickness as to be able to be around on our streets again. He has had a pretty tough time of it but from appearances he will probably pull through all right now. The weather man played us two very naughty tricks this week. Monday he sent a huge bunch of black clouds up from the south to within a few miles of us and on Tuesday did the same on the north side of us, and they all went around. The Red Cloud Steam Laundry this week changed hands, P. Hansen retiring and Oliver Schaffnit assuming control of the establishment. We are sorry to lose Mr. Hansen from our business circles, and also take pleasure in wishing the new proprietor success in his new venture. Mr. Hansen will leave next week for an extended visit in different parts of the country. The sad news of the death of Amos Cowden at Superior, at 10:45, this (Friday) morning, was received in this city shortly before noon. The cause of his death was stomach trouble, from which he has been a sufferer for three or four years. He had been apparently in good health lately, and Thursday afternoon was taken with cramps. His condition gradually grew worse and this morning his parents were called. His father and mother and brother Frank left here on the 10 o'clock train but arrived just too late, Amos having died just as the train pulled into Superior. The remains will be brought to this city this evening. The time for the funeral has not as yet been set. Amos had a host of friends in this city who will be sorry to hear of his death. The bereaved relatives have the sympathy of our entire community.

TURNURE BROS.

The Bachelors.

The members of the Bachelors Club of this city were notified about ten days ago that another brother had forsaken the paths of single blessedness and was about to take unto himself a wife. Accordingly preparations were made to give him a royal sendoff. Unlike the former occasions of this kind the would-be benedict demanded of the president that his name be not revealed for reasons best known to himself and his demands were granted. Consequently the portion of our fair city which revels in mystery has been on the tip toe of expectancy for some time. Each member of the club was surely the guilty party in the minds of their most intimate friends and no amount of persuasion could bring the president to disclose the real party. The Club assembled at the office rooms of C. F. Cather last evening and proceeded to have one of the old times even though the weather was not up to the standard of coolness. Harry Letson and Norman Morrison were elected to membership and were duly initiated. J. W. Tulleys was elected president for the coming term; Harry Letson was elected vice president; Norman Morrison was elected secretary and treasurer. Past President Fort then announced that the day before the guilty man had informed him that owing to unforeseen circumstances the contracting parties had been compelled to postpone the wedding for a time, perhaps indefinitely, and said that now there was all the more reason why his name should be withheld. The news was as lightning from a clear sky to the boys, but they soon recovered and the event was carried through. J. O. Wiles served the banquet in his usual manner and the absence of a real would-be did not keep the viands from disappearing with the usual rapidity. Various conjectures and numerous conclusions have been made as to the real state of affairs. Some think the members all know the right party and some think only the past president knows. Some think it was a joke and some think it was a farce. Some think it was an elopement and are watching for further details. Some confess they do not know. Is it the Lady or the Tiger? Well, perhaps.

STATE CREEK.

Threshing is the order of the day. The Fruit Bros. and Steffios boys each have a steamer and then there are some good horse powers and they are all doing a lot of threshing. There is also a lot of rye in this part but it is not as good as the wheat.

Oats are turning out poor; some of them are not heavy enough to pay for threshing and are put away in the barns to keep for winter feed in the sheaf.

The corn is standing the drouth real well and if we have a good rain soon we will have one-third or one-half crop as there is any amount of it in the silk now. The cane and Kafir corn is fine. Some have several acres of it. Some of the millet is ready to mow and has quite a crop of seed on it. The alfalfa stands it well. One man has the second crop in the barn, about two tons each time and the third crop will be ready to mow in a week or ten days.

Northwest Missouri has been heard from by one of our near neighbors from friends who live over east of St. Joseph, and another one gets a weekly paper from their former home and there is no prospect for a crop of any kind over there.

Where will the chronic grumblers go now? As all other states around us are

dry they cannot say Kansas and Nebraska are alone drouthy this year. They cannot leave and will have to stay here and grin and bear it and give this country all the credit it is entitled to. OCCASIONAL.

List of letters remaining uncalled for at the postoffice at Red Cloud, Nebraska, for the week ending August 1, 1901. Rosa Dubok, Geo. Rush, Ed Rush, Mr. & Mrs. Frank Wolf. These letters will be sent to the dead letter office August 15, if not called for before. When calling for above please say "advertised."—T. C. HACKER, Postmaster.

Geo. Newhouse was in Bladen and Campbell the first of the week. He reports some building at the latter place, H. Gaudrait, who is in the general merchandise business, having under construction a two story, fifty foot front, ninety foot deep business block. On Saturday night it rained two inches at Campbell, three inches between Campbell and Bladen and two and one-half inches at Bladen.
