

Scrofula

THE OFFSPRING OF HEREDITARY BLOOD TAIN.

Scrofula is but a modified form of Blood Poison and Consumption. The parent who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores and abscesses and oftentimes white swelling—sure signs of Scrofula. There may be no external signs for a long time, for the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

J. M. Seals, 115 Public Square, Nashville, Tenn., says: "Ten years ago my daughter fell and cut her forehead. From this wound the glands on the side of her face became swollen and burst. Some of the best doctors here and elsewhere attended her without any benefit. We decided to try S. S. S., and a few bottles cured her entirely."

SSS makes new and pure blood to nourish and strengthen the body, and is a positive and safe cure for Scrofula. It overcomes all forms of blood poison, whether inherited or acquired, and no remedy so thoroughly and effectively cleanses the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S. and get the blood in good condition and prevent the disease doing further damage.

Send for our free book and write our physicians about your case. We make no charge whatever for medical advice.

- For Commissioner 1st Dist.
K. BRITLER,
- For Commissioner 3d Dist.
W. F. RINKEL,
- For Commissioner 5th Dist.
W. RICHARDS.

Let everyone support the ticket.

Above is the ticket. How do you like it?

As far as Red Cloud is concerned it can be safely said they got there with both feet.

It didn't take long to settle on suitable candidates and the predicted fight failed to materialize.

We are just the same as though we had got a nomination for some office. We are holding out our hand.

The probabilities are you will have to "look up" to the next sheriff of Webster county, that is unless you measure about six feet in height.

Nebraska takes a business-like view of the drouth question. Nearly four thousand miles of irrigating canals have been constructed in the state.

One thing troubling the democratic party is that Mr. Bryan has barely reached middle age and may not consent to be a relic in the hall of fame.

Many prominent democrats say the silver issue is dead without mentioning the fact that all the rest of the democratic platform is in a poorly condition.

After the convention was over one of our demo-pop friends informed us that there was only one candidate nominated that would be elected. It is needless to say that the same fellow could have told us the same thing before the convention was called.

Almost every day we read in our exchanges of small boys being treated for stealing. Boys who are raised in town soon become tough and get into

trouble unless closely looked after by their parents. Every boy of school age should be made to attend school and kept off the streets at night. There are some bad boys in Red Cloud, but they are no worse than in other towns.

We would recommend that our county commissioner take some measures to fix the bridge across the river south of this city. The plainest way to express it is to say that it is simply "r. ten." Why not cross plank the floor and make it passable, and then fill up the holes on the south end so a horse couldn't break its leg. A few dollars would fix it and perhaps save a damage suit.

Our city authorities are too lenient with the bums coming this way. They seem to be a tougher lot of professional tourists than usual. Some of them are impudent, and when they call at residences for a handout after the men are gone, nine times out of ten the women are afraid to refuse them. They should be put to work on the streets or driven out of town as soon as they arrive. They are becoming an intolerable nuisance.

Some interested (?) politician misconstrued the meaning of an article in last week's paper regarding the kind of people the county convention should nominate in order to assure success. The interested politician got an idea that the article was intended for and was a thrust at just one candidate. After this if the said interested party will call at this office for explanations, and not appoint himself a committee of one to explain to the general public the meaning of something he knows nothing about, both he, his candidate, this paper and lots of others will have a more kindly feeling toward him.

In some parts of Kansas, where the pops and democrats have fused for years with varying success, both sides are tired of the plan, and the democrats are especially tired of it, since they claim that the pops usually want the earth and the fullness thereof. There is some fancy wrangling going on in a few counties where fusion has long been the regular thing. In Nebraska the feeling is much the same, although there is not as much open protestation. The democrats never did love the pops very well, but have needed them in their business; and in the palmy days of their prosperity the pops had little use for the democrats. Both democrats and populists have so degenerated, however, that the distinction between them is composed entirely of the party names they bear. The fusionists in the west quit fighting for principle a long time ago; their only effort now is to gather the spoils and divide them.—Beatrice Express.

A WORTHY SUCCESSOR

"Something New Under The Sun."

All Doctors have tried to cure Catarrh by the use of powders, acid gases, inhalers, and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of Catarrh, has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures Catarrh by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as Snuffles the Guaranteed Catarrh Cure and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"Snuffles" is the only perfect Catarrh Cure ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve Hay Fever or cold in the head.

Catarrh when neglected often leads to Consumption—"Snuffles" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure Catarrh in any form or stage if used according to directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "Snuffles" the "Guaranteed Catarrh Cure."

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. A 402, Edwin B. Giles & Company, 2380 and 2382 Market Street, Philadelphia.

If a dealer asks you to take some thing said to be "just as good as Rocky Mountain Tea made by Madison Medicine Company," ask him if he makes more money. C. L. Cotting.

RECORDS LIGHTNING

A Priest's Device Gets Every Flash Within a Hundred Miles.

Unique Invention of Father Odenbach of Cleveland and Some of Its Remarkable Features.

A very important achievement has been added to the recent developments of electrical and meteorological science by Father Odenbach, of St. Ignatius college. This Cleveland priest has long been recognized as occupying a foremost place among American scientists, and his latest invention will be noted with great interest both in this country and in the scientific circles of Europe, says the Cleveland Plain Dealer.

In the meteorological observatory on the tower of the college building in Jersey street, Father Odenbach has set up an instrument which records every flash of lightning within a radius of nearly 100 miles. The apparatus is extremely complicated and not easy of comprehension to one who has not a scientific education. The theory, however, is the same as that of the Marconi wireless telegraphy. The electric waves, coming from a great distance or from near at hand, are collected and brought through a series of delicate appliances to a recorder, which notes each impression with a distinct click, similar to the click of a telegraph instrument.

The tower of St. Ignatius college is roofed with plate copper. This forms an excellent "collector" for the electric rays. Connected with this copper roofed tower is the lightning rod, which is a copper cable. When Father Odenbach first conceived the idea of working out his theory he noted that the tower was just suitable for his purpose. He accordingly had the lightning rod cut off and directed through the observatory instead of leading to the ground. On this rod he fixes his delicate recording instruments, and was highly pleased to note that they worked exactly as he had expected.

Father Odenbach was not entirely satisfied, however, as in case of a bolt striking the lightning rod it would be conducted directly through the observatory, destroy all the apparatus and probably kill whoever was present. He accordingly reset the lightning rod, and conducted only a small thread cable through the receiving and recording apparatus. He found that this worked exactly as well, and also obviated all danger of accident.

One day lately Cleveland was visited by its first electric storm of the season. Hours before the storm broke, when the sky was absolutely clear and no sign of lightning anywhere to be seen, the instrument was busy clicking off its record of flashes from distant clouds. During the approach, duration and recession of the storm the record continued accurate and unbroken, every flash being instantaneously recorded, and the records continuing after the flashes had become too distant to be visible. All day the instrument was busy with its recording, although scarcely a flash was visible.

Father Odenbach's invention is absolutely unique in America, and the first lightning recorder ever devised or set up on this side of the Atlantic. An Italian named Boggio has worked out a scheme for the same purpose, but in practical working the instrument of Father Odenbach's is far superior in every respect.

Father Odenbach believes that a lightning recorder will become an important instrument for meteorological offices. It will enable observers to note with certainty the approach of thunderstorms and squalls, local disturbances which it is impossible for any forecaster to predict with accuracy.

The instrument as at present arranged records by sound only. Father Odenbach is at work upon a mechanical appliance by which the record will be automatically placed on paper, thus rendering it unnecessary to watch the instrument in order to get continuous observations.

Educate Your Bowels With Cascarets.

POND'S EXTRACT
Soothes Tired Muscles; Removes Soreness and Stiffness.
Don't take the weak, watery Witch Hazel preparations, represented to be "the same as" POND'S EXTRACT, which easily sour and generally contain "wood alcohol," a deadly poison.

PUBLIC SALE

Notice is hereby given that by virtue of an order of attachment issued by I. W. Edson, county judge of Webster county, Nebraska, in favor of Robert T. Foster and against Albert T. Burdick, and to me directed, I will at two o'clock p.m. on the 27th day of August, 1911, at the village of Inavale, in the precinct of Inavale in said county offer for sale at public vendue the following chattels to wit: One team cow three years old; one red cow three years old; one red and white cow, white spot on rump; and one red heifer two years old, in a good state of fattening, all attached as the property of Albert T. Burdick. Dated this 15th day of August, 1911.
J. M. CHAFFIN, Plaintiff's Attorney.

REV. L. L. CARPENTER, Wabash, Ind., is President of the Bethany Assembly at Brooklyn, Ind. He is perhaps the most prominent clergyman in the Christian Church to-day. He has dedicated about 500 churches and baptized 7000 converts. He writes:—"It affords me great pleasure to give my testimony as to the efficiency of Dr. Kay's remedies. Dr. Kay's Lung Balm is the very best cough, cold and throat remedy that I ever used. I have also received great benefit from the use of Dr. Kay's Renovator. My son had for years been greatly afflicted with the piles; he commenced the use of Dr. Kay's remedies and experienced relief almost from the first. We have no words to express our thankfulness for the benefit we have received as the result of using these remedies. I take great pleasure in commending them to the suffering." L. L. CARPENTER, Missionary and S. S. Evangelist, Christian Church.

Dr. Kay's Renovator.

It is a perfect renovator of the whole system. It is the very best remedy known for stomach troubles, indigestion, dyspepsia, catarrh of the stomach, constipation, also liver and kidney troubles, and to overcome effects of La-Grippe and SPRING lassitude. It is an excellent Nerve Tonic. Send for free sample and a free illustrated, 116 page book of receipts etc., and send your symptoms and we will give you free advice. If druggists don't have Dr. Kay's Renovator don't take any substitute they may say is "just as good," for it has no equal; but send direct to us and we will send it by return mail prepaid. Price 25cts., and \$1.00 or six for \$5.00. Also Dr. Kay's Lung Balm 10cts., and 25cts., postage prepaid. DR. B. J. KAY MEDICAL CO., Saratoga Springs, N. Y.

JACK OF ALL TRADES

OUR NEW "LITTLE GIANT" 1 1/2 H. P. GASOLINE ENGINE,
WORTH ITS WEIGHT IN GOLD TO EVERY STOCKMAN AND FARMER.

How many of you have lost the price of this engine in one day on account of insufficient wind to operate your wind mills, leaving your stock without water. Get one now to do your pumping when there is no wind or to do it "regularly". Weather does not affect its work, hot or cold, wet or dry, wind or calm. It is as the same to this machine. Will also shell corn, grind feed, saw wood, churn butter and is handy for a hundred other jobs, in the house or on the farm. Costs nothing to keep when not working, and only 10 to 20 cents per hour when working. Shipped completely set up, ready to run, no foundation needed, a great labor and money saver. Requires practically no attention, and is absolutely safe. We make all sizes of Gasoline Engines, from 1 1/2 to 75 horse power. Write for circular and special prices.

FAIRBANKS, MORSE & CO., OMAHA, NEB.
