

Poison Oak Poison Ivy

are among the best known of the many dangerous wild plants and shrubs. To touch or handle them quickly produces swelling and inflammation with intense itching and burning of the skin. The eruption soon disappears, but the sufferer hopes forever; but almost as soon as the little blisters and pustules appeared the poison had reached the blood, and will break out at regular intervals and each time in a more aggravated form. This poison will loiter in the system for years, and every atom of it must be forced out of the blood before you can expect a perfect, permanent cure.

SSS Nature's Antidote

FOR
Nature's Poisons,

is the only cure for Poison Oak, Poison Ivy, and all noxious plants. It is composed exclusively of roots and herbs. Now is the time to get the poison out of your system, as delay makes your condition worse. Don't experiment longer with salves, washes and soaps—they never cure.

Mr. S. M. Marshall, bookkeeper of the Atlantic Gas Light Co., was poisoned with Poison Oak. He took Sulphur, Arsenic and various other drugs, and applied externally numerous ointments and salves with no benefit. At times the swelling and inflammation was so severe he was almost blind. For eight years the poison would break out every season. His condition was much improved after taking one bottle of S. S. S., and a few bottles cleared his blood of the poison, and all evidences of the disease disappeared.

People are often poisoned without knowing when or how. Explain your case fully to our physicians, and they will cheerfully give such information and advice as you require, without charge, and we will send at the same time an interesting book on Blood and Skin Diseases.

County politics are as dead as a pickled mackerel.

The democratic county convention is called to meet in Blue Hill on September 5th, 1901.

Don't ask candidates for office for cigars. Look in their pocket and see if they have any. If so help yourselves.

The Nebraska and Kansas Farmer and Breeder appears this month in an abbreviated form, being just about one half its usual size.

The average daily newspaper of today would be in a quandary if they could not put a "scare head" that said "Burned at the Stake."

It appears to us that the republican state convention has a very peculiar way of sitting down on the governor's past actions and dictating his future actions.

Samuel H. Sedgwick, the republican nominee for supreme judge, is one of the ablest jurists in the state, and as strong a man as the party could put in the field.

The question which is agitating the populists and democrats of this county just at present is a satisfactory division of the offices to insure the support of the fusion forces. However, in the coming convention, as in past conventions, the democrats will take just what the populists want to give them and say it is good.

The steel corporations and the president of the amalgamated association who leads the strike, concur in denying that there are any peace negotiations going on. The steel men say there is only one road to peace.

that is for the men to travel when they come to the shops and offer to work again, while Shaffer claims that the only terms possible are those offered by him at the last meeting of negotiators.

Just at present the outlook for a disruption among the powers of Europe seems probable, and all because France and Turkey cannot agree on a trifling point. Now without a doubt through the mixing of the "can-can" with the "hooche-cooche" and allowing spectators to cast "goo-goo eyes," we are willing to admit considerable jealousy would be created and the result of such a mix-up we cannot figure out, but it is safe to say the result would be a drawing card for a street fair.

The republican state convention met at Lincoln Wednesday and nominated Samuel H. Sedgwick of York for supreme judge and C. J. Ernst of Lincoln and H. L. Gould of Ogallala for regents of the state university. Then after a spirited fight and after a personal explanation by Gov. Savage of his part in issuing the Bartley parole, the convention adopted a platform unanimously recommended by the committee on resolutions part of which was a flat request for Gov. Savage to return Bartley to the penitentiary at once. The governor complied with the request with all possible speed and Bartley was again behind the penitentiary walls in time for supper.

Webster county cast fifteen votes against the resolution adopted by the republican state convention demanding the return of ex-State Treasurer Bartley to the penitentiary before his sixty day parole expired, and we think they were justified in their action. It might be inferred from their vote that they still had confidence in Gov. Savage and that his action giving Bartley a chance to make an accounting of state funds was entirely to the interests of the people of the state of Nebraska, and had no political inference whatever. While we believe Joe Bartley is a criminal, we also believe he should be permitted to make restitution for his crime if possible. Further than this we think Gov. Savage showed his weakness when he consented to be governed by the people whom he was supposed to govern. Gov. Savage should have shown the republican convention that he was governor and not the delegates to that convention, and that if he made a move which he believed was to the interests of the people they could not rescind it. Just what Bartley accomplished during the first forty-five days of his parole is not known and probably never will be known, but it is safe to say that a man with a twenty year sentence hanging over his head would make all the restitution he could on a sixty day parole in order to get his sentence commuted as much as possible.

A WORTHY SUCCESSOR

"Something New Under The Sun."

All Doctors have tried to cure Catarrh by the use of powders, acid gases, inhalers, and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of Catarrh, has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures Catarrh by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as Snuffles the Guaranteed Catarrh Cure and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"Snuffles" is the only perfect Catarrh Cure ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve Hay Fever or cold in the head.

Catarrh when neglected often leads to Consumption—"Snuffles" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure Catarrh in any form or stage if used according to directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "Snuffles" the "Guaranteed Catarrh Cure."

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. A 402, E. J. Gies & Company, 2380 and 2393 Market Street, Philadelphia.

DOG CATCHERS.

In the Indian Territory Cowboys Lasso the Dogs.

The dog catcher of a town in the Indian Territory can give a New York city dog catcher cards and spades and then beat him as a capturer of canine animals, says the New York Times. An expert cowboy hunts dogs as he does cattle. He ropes them the same way. Clad in a pair of buckskin trousers, and wearing a big sombrero with rope in hand or on the saddle horn and a six shooter in his belt, he starts down the street on his broncho looking for dogs. As he spies one which has no legal right to roam at large he sticks the spurs to his pony, grabs his rope and begins operations. He usually ropes the dog around the neck, draws him to the pony's side and shoots him. He then stuffs the carcass into a sack attached to the saddle and gallops off after more "game." If a stranger is watching the performance the dog catcher does some fancy roping. He will rope the dog around the front or hind foot, or around the body between the feet. He hardly ever misses his mark. Dog catching in the Indian country is a more ticklish business than it is in the cities in the states. The catcher not only has to dodge flatirons, mop sticks and brooms thrown by irate women (for a wild-looking cowboy with a six-shooter has no terror to an Indian Territory woman), but he has Indians to deal with. An Indian thinks almost as much of his dog as he does of his kids, and if the dog catcher by mistake kills it there is trouble. Dogs belonging to an Indian are exempt from taxation. But the Indians must brand them. The dogs of non-citizens are the ones discriminated against. If their masters fail to pay tax on them then they must pay the penalty of death. In order to evade the tax occasionally a non-citizen forges a brand and marks his dog as if it belonged to an Indian. In order to prevent frauds of this character the dog catcher must be an expert on dog brands.

MARQUIS OF LANSDOWNE.

The July Man in the British Cabinet Who Could Speak French.

When the Marquis of Lansdowne was governor-general of Canada he had to make a speech to the French-Canadian, says M. A. P. With all its loyalty to the English connection, this little bit of transported France adheres very rigidly to many things French, and especially to the purity of the French tongue—at least as it was spoken in the eighteenth century. Few viceroys have ever ventured accordingly to leave the safe security of the English tongue, and it was with some trepidation that the French-Canadians heard that Lord Lansdowne was going to deliver a speech to them in their own language. But he had scarcely uttered the word "messieurs" when the whole audience burst into cheers; they recognized at once the accent of the true French tongue, the accent only possible to a man of French blood, and one who had spoken French as his mother tongue. It is perhaps this accomplishment which had something to do with Lord Lansdowne's latest appointment. When some one remonstrated with Lord Salisbury for retaining the two offices of prime minister and foreign secretary, his reply was that he could not help himself, there was but one member of his cabinet who could speak French, and that was Lord Lansdowne. And now Lord Lansdowne will receive the foreign ambassadors every Wednesday afternoon and whatever else may be found fault with, his French will be faultless. Lord Lansdowne's mother was a daughter of Gen. Plisheit, one of Bonaparte's officers.—Toronto Star.
