Governor Savage has offered a reward of \$200 for the arrest of the murderer Waltermer Harbort of Campbell.

A gigantic mastodon tooth has been unearthed near Humboldt. The curiosity was found at a depth of twenty-five feet, where a well was being sunk. The tooth weighs eleven pounds, and is in a perfect state of preservation.

The State Journal, one of the few papers in the sugar beet district that has advocated a reduction of the tariff on Cuban sugar, calls attention to the fact that a thousand tickets were sold in three weeks to laborers in Lincoln who went forth for a seasons work in the beet fields, and advocates the building of a beet sugar factory in Lincoln in order that these laborers may be employed at home and spend their money there. Attention is called to the fact that seven new factories are projected in Michigan, four in Wisconsin and three in Illinois, but it is not mentioned that the completion of these factories are contingent to a great extent on the sugar legislation now before congress. The cost of the erection of the average beet sugar plant is about \$500,000, or an amount of nearly four million dollars for the factories contemplated. It is not to be wondered at that the representatives of this vast amount of capital should hesitate to invest it in the face of possible unfriendly legislation, but it is to be wondered at that prominent papers that advocate the building of beet sugar factories should favor legislation that will surely tend to retard the work.—Guide Rock Signal.

The Populist Platform.

The platform adopted by the populist convention last Saturday contains little, if anything, new. Among other

things, the portion devoted to national issues reiterates all declarations of populist national conventions of former years; demands a rigid enforcement of all anti-trust laws, and favors such legislation as may be necessary to accomplish this end; opposes the British system of colonization; condemns the American policy in the Philippines, including the "water cure" as a means of procuring information concerning rebel plots; favors liberal pensions for all soldiers and sailors and their dependent widows and orphans; extends congratulations to the newly established Cuban republic; favors the inauguration of the president on the first Tuesday in December, congress to meet at the same time. The majority of the above issues have been advocated by the republican party for years; the charges of ill-treatment of Filipino prisoners have long ago been exploded; the independence of Cuba was accomplished through the republican administration, the actions of the president, his cabinet and the majority in congress having been unanimously indorsed at the polls. The treatment of state issues in the platform is short, compared with that given national issues. Equal taxation of all property is advocated; the pardoning of Bolin and Bartley is condemned; the republican state officials are held responsible for the burning of the state institutions; a law is demanded compelling the assessment of real estate once in four years, and the payment of assessors on a percentage system based on the assessments on personal property; a straight tax of one dollar per head on dogs is favored; the laws of Kansas, Minnesota and other states relating to the employment of convict labor in the manufacture of binding twine were indorsed. The last paragraph of the resolutions favors the summoning of jurors and the notification of judges and clerks of election by mail. In summing up the platform it will be seen that the populists have introduced nothing new, unless it be a straight tax on dogs (cats are entirely ignored), and the demand in the last paragraph relating to the summoning of jurors and officers of election by mail. The first is a sample of the vagaries of the populist mind. The charges against the republican state officials are silly and are on a par with the dog tax resolution. The summoning of jurors and election officers by mail would be a brilliant stroke of economy, if practicable, and the well-further comment on the platform is entirely unnecessary, and the voters will undoubtedly express their opinion of it at the polls.

Populist Convention.

The populist county convention met at the court house in this city last Saturday as per call. The meeting was called to order by Chairman Damerell. R. B. Thompson was chosen temporary chairman and O. A committee of three on permanent organization, one of five on resolutions and one of three on credentials were appointed, after which the convention adjourned to meet at 1:30 p. m. At 1:30 convention reconvened. Committee on credentials reported and recommended that anyone present from missing precinct be allowed to cast the vote of that precinct. Report accepted. WHEN LIFE'S AT STAKE

The most timid man will take any chance of escape. The slender rope dropped down the precipice, the slippery log over the abyss, anything that offers a chance of life, is eagerly snatched at. The end the man seeks is safety. He cares nothing for the means to get there.

There are thousands of men and women whose lives are at stake, who are hindered from accepting the one means of safety by foolish prejudice.

Doctor Pierce's Golden Medical Discovery has been the means of restoring health to many men and women whose hollow cough, bleeding lungs, emaciation and weakness seemed to warrant the statement of local physicians—"There is no cure possible."

Why should prejudice against a put-up medicine hinder you from trying what has cured thousands of suffering men and women?

"Only for Dr. Pierce's Golden Medical Discovery I think I would be in my grave to-day," writes Mr. Moses Miller, of Hilliard, Vista Co., Wyoming. "I had asthma so bad I could not sleep at night and was compelled to give up work. It affected my lungs so that I coughed all the time, both day and night. My friends all thought I had consumption. My wife had taken Dr. Pierce's Favorite Prescription and it had helped her so much she insisted on my trying his 'Golden Medical Discovery'—which I did. I have taken four bottles and am now a well man, weighing 150 pounds, thanks to Dr. Pierce's Golden Medical Discovery."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. Be game; you lose.

I have had occasion to use your Black-Draught Stock and Poultry Medicine and am pleased to say that I never used anything for stock that gave half as good satisfaction. I heartily recommend it to all owners of stock.

J. B. BELSHER, St. Louis, Mo.

Sick stock or poultry should not eat cheap stock food any more than sick persons should expect to be cured by food. When your stock and poultry are sick give them medicine. Don't stuff them with worthless stock foods. Unload the bowels and stir up the torpid liver and the animal will be cured, if it be possible to cure it. Black-Draught Stock and Poultry Medicine unloads the bowels and stirs up the torpid liver. It cures every malady of stock if taken in time. Secure a 25-cent can of Black-Draught Stock and Poultry Medicine and it will pay for itself ten times over. Horses work better. Cows give more milk. Hogs gain flesh. And hens lay more eggs. It solves the problem of making as much blood, flesh and energy as possible out of the smallest amount of food consumed. Buy a can from your dealer.
