Mr. Salsman brought in two loads of corn, Saturday, which he sold for 35 cents per bushel. His corn is running 60 bushels per acre and at 35 cents gives pretty good pay for raising corn in Nebraska.

The demand for good houses to rent exceeds the supply. Every house is occupied and more are wanted. Who will come to the front and build a few good houses, they would be good investments for any man.

Mr. Cathcart and family of Iowa, are looking after their farms and incidentally renewing old acquaintances. Mr. Cathcart has 320 acres of land, two and a half miles north west of town on which he is erecting a new barn. Joseph Crow is oversering the work.

8 Cents

Eight cents a pound is what a young woman paid for twelve pounds of flesh.

She was thin and weak and paid one dollar for a bottle of Scott's Emulsion, and by taking regular doses had gained twelve pounds in weight before the bottle was finished.

Eight cents a pound is cheap for such valuable material. Some pay more, some less, some get nothing for their money. You get your money's worth when you buy Scott's Emulsion.

We will send you a little free.

Some of the farmers of this vicinity, on account of the wet weather, have not yet finished haying.

Frank Hinz from near Cowles has bought the Trunkey farm and will move on it in the spring.

Mr. Cunningham is again able to be up and about after two weeks of sickness from bilious fever.

Herrmann and Kellar.

The late Professor Herrmann, the magician, was possessed not only of great strength in his hands, but of such skill as would enable him to perform apparent feats of strength which would be impossible to a far stronger man.

His greatest feat along this line was to place two packs of cards together and tear them across.

A friend of his, going into a cafe with Herrmann, met another friend who was accompanied by a quiet looking man with a big mustache.

The four sat down together, and Herrmann was at length induced to tear two packs of cards in half.

"That," said his admiring friend, "is something no other man alive can do."

The quiet man with the mustache coolly picked up the torn packs and tore the halved sections into quarter sections.

Then, as the rest glared amazedly at him, he remarked:

"I forgot to mention my name is Kellar."

It was Herrmann's foremost rival in the sleight of hand business.

Both Come In Bottles.

The father was testing his little boy's knowledge of the story of Noah, which he had carefully rehearsed. The boy had been thinking hard, and his answer to the first question showed that he had at least the virtue of originality.

"Now," said papa, "can you tell me how Noah knew that the waters had gone down?"

The boy hesitated a minute, as if seeking for proper words to express himself; then he said:

"Noah knew the waters had gone down because the dove came back bringing him a pickle."

Olives and pickles were synonymous terms in the small boy's mind for things which come in bottles and which he did not like.
