**BIRTH OF AN ICEBERG.**

**The Dramatic Experience of Two Antarctic Explorers.**  
Mr. C. E. Borchgrevink, commander of the antarctic expedition of 1898, nearly lost his life by an accident of a nature so peculiar that it is probable no other man could duplicate the experience. At the foot of Mount Terror in February, 1900, he landed from his ship with Captain Jensen and three other men. Then, wishing to take a picture of the shore, he sent his boat back to the vessel to get a camera, and he and Captain Jensen were left alone on the rough beach. Before the boat returned a strange and awful thing happened. Mr. Borchgrevink told the story in the Outlook:  
A roar and a rush, with tremendous explosions, shook the beach. The thought came to us that the perpendicular rocks above us were falling. Then we realized what was taking place. The mighty glacier immediately to the west of us was giving birth to an iceberg.  
Millions of tons of ice plunged into the ocean. We could see nothing beyond an immense cloud of rolling snow. The water rose from the plunge of this antarctic monarch. I sang out to Jensen, "Now we shall have to face the wave!"  
We rushed to the highest point of our limited beach, four feet above the sea. We saw advancing on us a dark green ridge with a white crest. I called to Jensen to struggle for dear life. We clutched the uneven rocks, with our

backs toward the advancing water. Although it could not have taken more than seven minutes the time seemed long before the water closed over our heads.  
Floating upward, scrambling upon the rocks, I tore the nails from my flesh in my endeavor to keep from being dragged out. After the second wave we again felt the rocks under our feet.  
At the place where Jensen and I first stood the rock was wet twenty feet above our
