

# BLACK-DRAUGHT STOCK and POULTRY MEDICINE

Stock and poultry have few troubles which are not bowel and liver irregularities. Black-Draught Stock and Poultry Medicine is a bowel and liver remedy for stock. It puts the organs of digestion in a perfect condition. Prominent American breeders and farmers keep their herds and flocks healthy by giving them an occasional dose of Black-Draught Stock and Poultry Medicine in their food. Any stock raiser may buy a 25-cent half-pound air-tight can of this medicine from his dealer and keep his stock in vigorous health for weeks. Dealers generally keep Black-Draught Stock and Poultry Medicine. If yours does not, send 25 cents for a sample can to the manufacturers, The Chattanooga Medicine Co., Chattanooga, Tenn.

ROCHESTER, GA., Jan. 20, 1902.  
Black-Draught Stock and Poultry Medicine is the best I ever tried. Our stock was looking bad when you sent me the medicine and now they are getting so fine. They are looking 25 per cent. better.  
S. P. BROOKINGTON.

# Bowling

is a pleasant recreation, is invigorating and is a healthful pastime, and for a pleasant hour's amusement nothing is more interesting than a game or two at the :

## Apex Bowling Alleys

W. L. McMILLAN, Proprietor.

Choice Tobaccos and Cigars Always on Hand

5c, 10c and 15c.

## The Bon Ton

W. S. BENSE, Proprietor.

# RHEUMATISM CURED IN A DAY.

Mytic Cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents and \$1.00. Sold by H. E. Green, Druggist, Red Cloud.

Wanted—Young men to prepare for government positions. Fine openings in all departments. Good salaries. Rapid promotions. Examinations soon. Pat. letters free. Inter State Cor. Inst., Cedar Rapids, Ia.

Half Rates to Omaha and Back.  
On October 2, 5, 6, 7 and 8 the Burlington will sell tickets to Omaha at one fare for the round trip for the Ak-Sar-Ben carnival to be held October 1 to 10. This year's carnival, in the matter of attractions, will be larger than ever before. There will be a great number of entirely new features among which are "The Cave of the Winds," "Temple of Music," "Ben Hur" and "Loop the Loop." Flower parade on the afternoon of October 7. A gorgeous electrical parade by the Knights of Ak-Sar Ben on the evening of October 8. Don't miss it. For full particulars ask the agent.

Dice Changes County Board.  
The political complexion of the Bond county (Illinois) board of supervisors was changed by a game of dice and the Republicans now have a majority of one. The board was formerly Democratic.

From Pastures to Farms.  
Within six years the New Zealand government has bought back of the original settlers 224,167 acres of land used for sheep runs, and 1,480 families have found homes on them.

To Cure a Cold in One Day.  
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

### "Beno" a Poor Drink.

In a letter to his father at Springfield, Mass., Frank Dellinger, a soldier serving in the Philippines, bitterly denounces the temperance people for having brought about the abolition of the canteen. Deprived of beer and whisky many soldiers accustomed to drink have taken up the vile Filipino drink "beno" as a substitute. It not only physically wrecks those who drink it, but in many instances makes them permanently insane. Dellinger cites cases where soldiers have gone crazy from indulging in "beno."

### Tying the Marriage Knot.

How few of those that talk of the "marriage knot" realize that the knot was ever anything more than a mere figure of speech. Among the Babylonians tying the knot was part of the marriage ceremony. There the priest took a thread of the garment of the bride and another from that of the bridegroom and tied them into a knot, which he gave to the bride, thus symbolizing the binding nature of the union between herself and her husband.

### Wolves in Northern Michigan.

Wolves are becoming so numerous in the woods of the upper peninsula of Michigan that about as many deer are killed by them in the closed season as there are by hunters in the open season. It is suggested that the bounty be made \$25 per head, as men would then make it a business to kill them for the money there would be in it, and before long the species would be practically extinct, as far as Michigan was concerned.

### Women Won from Tight Clothing.

In his opening address as presiding officer of the twelfth annual conference of the Physical Culture association the other day in New York Dr. Dudley Sargent of Harvard declared his belief that "lawn tennis, golf and cycling have done more to win women away from tight clothing than all the past century's lecturing and writing." About 150 delegates from all sections of the country applauded the idea.

### Women in British Mail Service.

The British postal service finds employment for 34,000 women out of 167,000 officers, and over 19,000 of these women are engaged, chiefly in the provinces, as assistants to postmasters. There are not many ranks closed to women. No fewer than 145 head postmistresses are to be found in the provinces, and more than one-third of the sub-postmasterships are entrusted to women.

### Paul Gibson's Economy.

Montana's new senator, Paul Gibson, is a popular man in Minneapolis, Minn. He started the first woolen mill in that city, but failed in the panic of 1877, owing his employees nearly \$10,000. Soon after Gibson went to Montana and a decade later returned to Minneapolis and paid off every cent of his indebtedness, with interest at 7 per cent.

### Some Iowa Election Figures.

There are few socialists in Iowa, but Eugene Debs polled 1,648 votes in the Hawkeye State last year for president. Of these 540 were cast in Scott county, which includes the city of Davenport, with a considerable German population. The vote for Woolley, Prohibitionist, in Scott county, was 66 only.

### City Proud of Crematory.

There was recently opened at Hull, England, a municipal crematory. It is the first institution of its kind to be built and operated by a municipal undertaking. The mayor of Hull, in opening the new crematory, spoke of it as an institution of which the city had good reason to be proud.

### A Kentucky Frenchman's Cotton Picker.

The Rev. William H. Meyers of this city has recently been granted letters of patent on a pneumatic cotton picker for picking cotton out of the bolls in the field, says the Sturgis Herald. This is the only machine for the purpose in existence, and will supply a long felt want and be of inestimable value to both the lucky inventor and the cotton raisers of the south. Mr. Meyers has already sold a one-fourth interest in his patent to a wealthy mill owner. His machine, when in operation will sit on an ordinary farm wagon, and be furnished power by a light gasoline engine, which will pick the cotton from three rows at a time as fast as the team will walk, and dump the picked cotton into a second wagon, which follows immediately after the one on which the machine is hauled.

### Improved Furnature.

The era of the rocking chair made out of a barrel is happily over, but many pieces of furniture, which are the outgrowth of special needs are often satisfactorily developed from small beginnings. A set of book shelves for example, with a drawer at the bottom, was recently made by a clever woman from an old fashioned walnut dresser. The marble top she had removed, and the fine oval top swing glass was taken out of its frame to serve another purpose. Shelves were fitted in the drawer slides of the upper three drawers, the wood of these being utilized in the process. A partition was fitted up from the bottom drawer at half the depth of the bureau.

### New Banks Down South.

A fair idea of southern progress in business is afforded by the fact that in the last six months 127 banks have been organized and commenced business in the southern states. Texas heads the list with thirty-four national banks and five state banks. Virginia and Georgia come next with twelve banks each. Another notable feature of recent financial enterprise in the south has been the organization of numerous loan and trust companies. In nearly every southern state local capital has been invested in such concerns.

### Two Kansas Advertisements.

Here are two advertisements which recently appeared in Kansas papers—the Chapman Standard and El Dorado Republican respectively: "I wish to thank those who assisted me in keeping my roof from blowing off today.—J. C. Russell." "Wanted—Some farm hands. I will give a dollar a day, three meals and a custard pie and milk lunch at bedtime—feather beds—Sundays off—and permission to kiss the hired girl, for some farm hands."

### Starts Girls in Business.

Mme. Barbet-Batfrol has bequeathed an annuity of 10,000 francs (\$2,000) to the city of Paris on condition that it be given to the young unmarried working girl who by virtue of her intelligence and good conduct is capable of setting up in business and only requires the necessary funds. The applicants must be French. Each year the prefect of the Seine will select what he considers the most deserving case.

### Some Timely Health Hints.

The house mother may do much towards preventing the spread of tuberculosis by insisting that paper handkerchiefs be used for any ailment of the eye, ear, nose or throat, when discharges occur from these organs. The handkerchiefs should be quickly burned. Children should be taught never to use one another's handkerchiefs any more than they should use one another's toothbrushes.

### Long Trip on Snowshoes.

Rt. Rev. Jervois A. Newham, D.D., bishop of the missionary diocese of Mooseonee, on James bay, in the remote northwest, arrived in Ottawa recently after traveling 900 miles on snowshoes. He left Moose Port, the most northerly post on Hudson's bay, to go to Ottawa on foot. He walked southward until he reached the Canadian Pacific railway, over which he went to his destination.

### Regularity of Ocean White.

Ocean steamships nowadays are as regular as the railroads in carrying the mails. They have their habitual rates of speed and are expected to make the voyage of 3,000 miles over a trackless ocean through wind and storm in the same number of hours and minutes, winter and summer, never slowing down or heaving to, except on the very rarest occasions.

### Mother of Fourteen at 56.

It is reported by reliable authority that there is a woman living in the mountains of Oconee county, South Carolina, who is 26 years old and has fourteen children, all living, and one grandchild. The woman married when only 11 years old and has enjoyed good health ever since.—Atlanta Constitution.

### King of Greece—Handles Flour.

A pleasant way of spending some of the summer months is that adopted by the king of Greece. He turns farmer and works as hard as if he were a land laborer. He can plow a field, cut and bind corn—in short, keep a farm going from start to finish, as though it were his business.

### Fibert Trees from Greece.

A number of young fibert trees have been sent to the agricultural department from Greece. The nuts from these trees are the largest and have the finest flavor of any fibert the department has yet discovered, and every effort is to be made to encourage their growing.

### The German Wood Supply.

Germany, although it has 35,000,000 acres of forests excellently managed, and yielding an immense revenue, demands increasingly greater quantities of wood, so that for the last ten years the amount of timber which it buys has doubled and its value trebled.

### New York's Building Boom.

A revolution in residence property is going on in New York city. Recently the plans filed in one week for apartment houses and residences called for an expenditure of \$15,822,000, the largest total in the history of the city.

### Advanced Questions for Infants.

Fadism seems to be rampant in the schools of Kansas as it is sometimes alleged to be in this city. Parents and guardians in Greenwood county complain that questions far beyond reasonable limit are asked of even the younger children. At a recent examination the following were among the questions put: "What is meant by free trade? Imperialism? Protection? Expansion? Write briefly on the following topics, Dred-Scott decision, Kansas-Nebraska act.—Chicago Chronicle.

### Swiss Fruit Industry.

The year 1900 was an excellent year for fruit in Switzerland, and a manufacturing firm in the canton of Aargau decided to erect a plant for utilizing the apple crop. Machinery was put in for peeling, coring and slicing apples. The baking was accomplished by placing the slices on trays which were something like gridirons, one being placed over another in the ovens. An electric motor was used to warm the air for the baking.

### Jury Selected by Agreement.

In the district court of Logan county, Oklahoma, the Guthrie & Western Railroad company had a land suit against George Cooper. The defendant asked that the case be tried by seven members of the Masonic order instead of the usual jury. The railroad attorney, himself a Mason, agreed and the case was so tried, both parties furthering agreeing that no appeal should be taken from the verdict. Cooper won.

### France Will Lay Cables.

The French government has just concluded with that of Morocco a convention for the laying of an exclusively French submarine cable to Tangier, where hitherto the French have been dependent on the British and Spanish lines, writes a correspondent. The chief inspector of French telegraphs is making preliminary arrangements for laying the cable which will connect Marseilles, Tangier and Oran.

### Most Furnished the Matches.

An anecdote of an old resident of Brooklyn Heights, more noted for his books than his generosity, is given by the Eagle. He had entertained some men at dinner one night, and after the coffee had been drunk he invited his guests in the library, and putting a box of matches on a table, remarked: "Gentlemen, there are some matches, if any of you have any cigars which you would like to smoke."

### German Navy Building Ships.

The German navy department has given several orders for new ships to private shipbuilding firms. The Weser company, in Bremen, is to build two small cruisers. Blohm & Voos of Hamburg are to build an armored cruiser. The Howaldt works, in Kiel, also has a small cruiser on hand and contracts for two more battleships will shortly be given out.

### Keeping Revere's Name Green.

Bunker Hill Chapter, Daughters of the American Revolution, has decided to mark the spot from which Paul Revere started on his historic midnight ride on April 18, 1775, to warn the inhabitants of the towns between Boston and Concord that the British were coming to destroy their stores and institutions of war.

### No Tobacco Rationed in Egypt.

Tobacco raising has been prohibited by law in Egypt since 1890. In fact there is nothing Egyptian about "Egyptian cigarettes" except that they are made in Egypt. The tobacco all comes from Turkey, the paper from Austria, Germany or Italy, and most of the labor employed is Greek.

### Josephim's Talent in Childhood.

It is told of Josephim that as a child he learned the violin of Serwacynski, konzertmeister at Buda-Pesth. Thirty years after he heard a violin played, and recognized it as that which his master had used. It was an Amati, and he was able to buy it for his own use.

### Explored Lakes in Tibet.

A letter has reached Denmark from Dr. Sven Hedin, the Swedish explorer of northern Tibet, dated Dec. 3, in which he states that he explored some large lakes, the water of which was so salty that the instruments were unable to register the amount of saline.

### Incomes in Berlin.

Of 530,000 persons paying taxes in Berlin over 295,000 possess an income between \$250 and \$750 per annum, only 43,000 pay on incomes over \$750, while twelve persons have an income over \$250,000, and one person has \$500,000.

### Honor Gives Engineers Hint.

Engineers have taken a hint from the beaver in building a dam with an arch facing the current. It is said that they are indebted to the clam for the idea of using a water jet in sinking piles in sand.

### Salt Lake Is Receding.

Great Salt lake is beginning to show the drain upon it due to irrigation, and is receding. A canal to the lake from the headwaters of the Snake river has been suggested as a possible remedy.

### Ancient Quarries.

The stone for the great wall of the dam across the Nile at Assuan is being obtained from the quarries of which the Temples of Philae are believed to have been built—the unhappy Philae which, when the dam is completed, will be submerged and first disappear from sight for the first time in its 3,000 years of existence. The granite blocks that are being quarried for this, the first great engineering achievement of the twentieth century, bear the marks of wedges used thirty centuries ago.

### Carrie Nation in Do bt.

Mrs. Carrie Nation the other day attempted a joke on Colonel Anthony owner of the Leavenworth, Kan. Times, and it is not just clear whether or no the newspaper had the last laugh. He was standing in front of a building he owns in which there is said to be a thirst-cure establishment. Mrs. Nation came along and said: "How's business, colonel—renting and newspaper?" The colonel answered promptly, "The Times are out of joint," raised his hat and passed on.

### Wealthy Have Few Children.

An inquisitive reporter last week took a census of a mile of Fifth avenue, New York, embracing the homes of many very rich men, and found just fifteen children under the age of 12. There was an average of one child to three houses. Then the reporter transferred his attention to the east side tenement district, where he found in one flat house sixty-three children, or more than four times the number found in the whole Fifth avenue mile.

### Sixty-Two Years Married.

Near Attica, the other day, when the neighbors went over to congratulate Grandpa and Grandma McDaniel of the sixty-second anniversary of their marriage, they found grandpa out in the field planting corn, while grandma was cleaning up the breakfast clutter in the kitchen. When the good folk told grandpa the object of their visit he said: "Lordy, lordy, how time does fly!"—Kansas City Journal.

### War on Flashy Posters.

Anti-vice crusaders in Jersey City have begun war on flashy theatrical posters and will make a test case against a local manager. The case will come before Judge Hoos, who has adopted the unusual method of summoning a special jury, consisting of two clergymen, one doctor, a school principal, an artist, a merchant, a photographer and a bank cashier.

### Grieved at Fabric's Misconception.

The new civil service commissioner, Mr. Roderberg of this state, expresses himself as much pleased with his job, but has a grievance. He finds that in some way a great many persons have acquired the idea that he is a big fat man, with long whiskers. "All of which you can see for yourself is away off," as he said to a friend the other day.—Chicago Chronicle.

### Vast Area of Africa.

Africa has an area of practically 11,500,000 square miles, something more than twice that of the United States and its possessions. Twenty years ago, save for strips of territory along the coasts, with occasional shallow indentations into the interior, it was in fact as well as in name the "dark continent."

### Schlatter in the Northwest.

Schlatter, the bogus Messiah and divine healer, now registers at a St. Louis Falls hotel as Dr. Charles McLean. He formerly professed to work miraculous cures without compensation; now he claims to have drawn a \$15,000 fee from Richard Croker, the Tammany leader.—Chicago Chronicle.

### Janitors Object to Lampons.

Cartoonists and comic papers have so long and in so many ways lampooned janitors that members of that ancient guild in New York city have formed a league with the purpose, among others, of removing the mistaken impression created by funny writers and artists.

### League to Curtail Women's Skirts.

Princess Louise of Bavaria, wife of the heir presumptive, has formed a league for the curtailment of the skirts of women's walking dresses. The leading society women of Munich have joined the league and are working strongly for dress reform.

### Apt to Concede It.

On a nasty day it is easy to make even the most conscientious person prevaricate. Just say to them "nice weather," or "beautiful day," and nine out of every ten of them will thoughtlessly reply "yes."—Albany Journal.

### Quarantine Officer Transferred.

Dr. John J. Kinyoun, federal quarantine officer at San Francisco, has been transferred to the department of Dakota headquarters at St. Paul, Minn. His bubonic plague hobby goes with him.—Chicago Chronicle.

### Penalty for Fomenting Lawuits.

One of the laws of Texas imposes heavy fine and imprisonment on lawyers who foment suits against railroads and other corporations, or who advance money to clients to secure such cases.

# Man's Mission on Earth

As set forth in THE GOLD MEDAL PRIZE TREATISE, the best Medical Work of this or any age, entitled "The Science of Life, or Self-Preservation."
