Elaine Roze's Paris Budget.

Another attempt is being made in Paris to oust the old favorite, the tailor-made. These attempts are periodical, as the French woman has always been deadly opposed to the severe style which, while it brings out the good points of the Viennese—who, by the way, were the first to adopt the style—and of the American woman, to whom it is particularly becoming, the French beauty requires frills and furbelows to appear at her best.

But what the American woman likes and wears, from her C-B a la Spirite

can booted foot is, with the growth of the American invasion, becoming the last word in the fashion centers, and her tailor-made she will have, from the mixed tweed with fleckings of color for morning wear to her richly trimmed broadcloth or velvet for more formal occasions.

With the continuation of the skirt and coat costume comes marvelous development along the shirt waist line, the most elaborate of them being called dress waists. The latter are usually embroidered or lace trimmed, and very often both, and velvet makes one of the most elegant backgrounds for such adornment.

A beautiful Forsythe model is of moss green velour, worn with a mixed tweed skirt.

Now as to house toilettes and gowns for theater wear. Never before were created such exquisite, delicate, cloud-like affairs, seemingly wrought by fairy fingers, reviving all the choicest coquetties of past generations. One exquisite model among the budget of beauties I have culled for you, from the great Parisian modiste's best, and which is here illustrated, is composed of pure white peau de crepe, silk embroidery and French lace. The trained skirt is made very full with three wide insertions of lace. The decoration of the bodice is a deep, drooping drapery of lace, falling over a full flowing sleeve, beneath which is a lace under-sleeve.

ELAINE ROZE.

Severely Burned.

Last Monday afternoon, Mrs. John Burgess, who lives just across the Nebraska line in Jewell county, Kansas, was severely burned while attempting to save her home from destruction. The house had caught fire, presumably from a defective stove, and when discovered had gained considerable headway. Mrs. Burgess succeeded in putting the fire out, but her clothing caught fire and she was so badly burned that her recovery is not thought probable.

To My Friends.

I have decided to remain in Red Cloud and will at once begin a series of sermons on special topics. It is my

plan each Sunday to handle two subjects of wide general interest and I desire the earnest co-operation of the people of the city. Subject for Sunday morning, "The Gospel of Child-Life." What did Christ mean when he said "Of such is the kingdom of Heaven?" Evening subject, "Graft and Grafters. We find them in politics, in business, in the church."—William Hauptmann, pastor of Congregational church.

LINE.

Mr. Kraut of Walnut creek was in Linethreshing grain for the farmers this week.

Mrs. Melvina Van Dyke-Reynolds of Montrose, Kansas, and Mrs. J. C. Fouz of Guide Rock were the guests of Wm. Van Dyke the first of the week.

The combination sale of L. A. Haskins and S. C. Shuck was not very well attended. Those who did attend meant business, however. Stock of all kinds sold for good prices. Spring calves sold at \$12 and yearlings at \$20, and shoats brought \$5 to \$8 per head.

Fred Wildey threshed something like 500 bushels of Russian and German millet this week. The Russian made 40 bushels and the German 30 bushels to the acre. The grain was planted with a press drill and yielded double what grain sown broadcast yielded.

Quite a number of candidates for office attended the sale—not to buy anything, but to solicit votes.

Line will go Republican this fall.

Last Wednesday Mr. and Mrs. Allen Carpenter gave a party in honor of Mrs. Carpenter's birthday. A large number of relatives and friends were present, and Mrs. Carpenter was the recipient of many handsome and useful presents.

...Eye and Eye Glass Care...

LET us pilot you out of the misery and danger of overworked and improperly treated eyesight into the rest and satisfaction of restored vision. We understand **Eyes and Eye Glasses**—our business to fit the one to the other. We know the Eye and its needs—we know the dangers that follow in the wake of defective Eyes and strained vision. Our knowledge of the Eye and practical experience in the fitting of Glasses is at your service. We examine your eyes thoroughly, scientifically; tell you their exact condition, advise you what to do and grant you the privilege of doing as you please.

EYE CARE. Waiting and hoping never better ailing vision—prostration is the thief of good eyesight. The change which come to the eye are beyond the power of the individual to remedy. Neglect to give eyes proper and timely care is responsible for much of the president day eye trouble. A very little strain upon this delicate structure soon exhausts its delicate nerve force. When the eye first troubles, the man of sense knows there is need of help, and straightway gets it. Let us aid you to better vision or the preservation of what remains.	EYE GLASS CARE. A little way from right is a great way wrong with eye glasses and spectacles. We make a study of individual needs and fit frames and lenses with exactness. Every appliance science has devised is at our command. Every pair of glasses must precisely suit the wearer and us. Each lens, each frame, is thoroughly inspected. If there is a flaw or blemish it is discarded. Your eye glasses are as important as your eyesight is important. Here the skill, the will and the facilities to make them so.
EYES EXAMINED.	GLASSES FITTED.

Convincing Evidence That the U. S. is the Best and Most Popular Separator

ROCHESTER, MINN., Sept. 2, 1903.

I have handled the U. S. Separator for the past five years. The first year I sold about 45 machines. Looking over my books this spring, five years later, I find there are 30 out of the 45 sold the first year that have cost their owners not one cent for repairs during the five years they have run them. Altogether I have sold about 270 U. S. Separators.
