The Disc Harrow is going to be more in use than ever. It is the most useful tool on the farm. I have

THE ROCK ISLAND

the world's standard. It has no neck weight on the team; it is always a true center draft. The Standard is provided with a tub that extends to above the FRAME; this keeps all dirt out. The scrapers are spring steel, not cast iron.

Come in and let me show you the many good points. I also have others.

In a few days the committee from the G. A. R. will call upon the citizens to ascertain the feelings in regard to holding the interstate reunion here this fall. The state reunion will be held in Omaha this year, and large numbers of people who had been in the habit of attending the reunions at Hastings will attend the interstate reunion instead. The district encampment will be held here in about two or three weeks, and there is no doubt Red Cloud can secure the reunion if the citizens care to put up a sufficient guarantee for expenses. Gov. Garber's grove has been engaged for the reunion, should it be held here, and we believe the reunion would be the most largely attended one ever held in this district.
Some of our subscribers are so far in arrears that we begin to believe they never intend to pay up, and are merely awaiting the grim Monster to relieve them of their obligations. Others move away and leave no address. Still others, after reading the paper for years, refuse it at the postoffice thus repudiating their debts and leaving the publisher to bear the burden of their cussedness. The majority of them could easily pay a part of the amount they owe, but each one seems to think his little account of no consequence and that the editor can get along without it. Why not take the hint, and pay YOUR subscription? Are you waiting until we get desperate and offer an automobile with every dollar paid on subscription? What do you want for a dollar, anyway?
