Sullivan's Lumber Yard.

**Why has the PRICE OF LUMBER
COME DOWN, since my coming to your
town, from \$5 to \$10 per thousand?**

The great question of vital importance to the American farmer and all others contemplating building is the question of the cost of material. I do not wish to impress upon you that I am selling at a loss or at cost, for I am not. All I ask is a living profit. To buy from me will convince even the most skeptical that I AM NOT DOMINATED BY ANY CORPORATION or pooled with anyone. I have come here in your midst and will make a strong effort to stay. But remember that your interests are our interests; if you would have the new lumber yard stay with you, your patronage is the only thing that will keep it. And since you know that my coming here has brought down the price of lumber, you ought to at least give me a nice share of your business. In connection with our awfully low prices on lumber and building material, we are selling the very
