SPANISH PREMIER IS STABBED

Anarchist Attacks Maura and Then Attempts to Kill Himself.

Barcelona, April 13 .- A semi-official report of the attack on Premier Maura was issued, according to which the assailant held concealed a kitchen knife, with which he stabbed the premier, but the force of the blow was broken and its direction diverted by the heavy lace on the minister's coat, resulting in only a slight scratch under the sixth rib. A doctor attached to King Alfonso's suite examined the minister and prescribed a few hours' rest. His majesty sent a messenger to inquire concerning the attack and concerning the prime minister's condition. Joaquin Miguel Artao, the assailant, was employed as a domestic. He was an anarchist and when arrested attempted suicide by dashing his head against the wall.

KANSAS POPULISTS MEET

State Convention Adjourns Without Making Any Nominations.

Topeka, Kan., April 13.-The Populist state convention met here and adjourned without making any nominations. The delegates will meet in Topeka again on Aug. 3, at which time an effort will be made to fuse with the Democrats. A state convention of Democrats will be held here on the same day. The middle of theroaders strongly insisted on nominating a state ticket without reference to anything the Democrats wanted. The other element tried to patch up a deal to nominate two supreme court justices, governor and one or two other state officers, have these endorsed by the Democrats at their convention next August and then permit the Democrats to name the remainder of the ticket. Adherents of this scheme were in the majority, but the

EXCITED THE INDIANS.

Moving Pictures in Which Men Who Were Dead Were Shown.

Burton Holmes, the lecturer, visited the home of the Moki Indians in Arizona to witness the weird snake dance which those savages have practiced at intervals for centuries. While near the home of the Mokis he set up his moving picture machine and made a film showing Apache Indians and cowboys in horse races and in feats of daring while on horseback.

Ing while on horseback. The film was developed and proved to be excellent. A year later Mr. Holmes visited the same region again to be excellent. A year later Mr. and one night gave an exhibition for the benefit of the natives.

The Indians observed the pictures which Mr. Holmes threw on the screen, which was stretched on the side of a in the neighborhood a year before was cures of the most distressing cases. thrown on the screen.

"Several of the Indians who had taken friends were amazed. The dead had been brought to life. It was astounding

"The Indians gazed at the picture, then looked at each other as if uncertain that they saw what they saw. Then they began talking excitedly, pointing at the moving images of those

who were dead. It did not strike the savage mind as unusual that live men should appear on the screen and seem to be moving, but with dead men it was different.

"When the film had all gone through the machine the Indians hastened forward to examine the white cloth on which the pictures had been shown. They fingered it nervously, raised it to look behind it, held it up to look through it in a vain endeavor to find the solution to what was to them a mystery. They paid no attention at all to the machine that had projected the picture. All of the magic to them was in the cloth."

IRELAND'S ANIMALS.

Apreles of Frogs and Tonds Are Found In the Green Isle.

It is not correct to say that there are no frogs or toads in Ireland, though it. is very remarkable that the common toad is not found there. The natterjack toad is a native of Kerry, though it does not appear to be found elsewhere. It is an example of the mania which some people have for meddling with nature that a Dr. Guithers in 1699 took the trouble to procure frogs' spawin from England, since which time they have multiplied in Ireland. But the common lizard is found in many parts of the island. The slowworm is not. Though the common toad and till recent times the frog were not found in Ireland, it is worth remembering that the English reptiles and batrachians hole," said a New York man, "and are very local in their distribution.
