

Women Like Tubulars

WHY?

Every woman praises the simplicity of the

Sharpless Tubular Cream Separator

Because they are easy to feed, easy to KEEP CLEAN, easy to TURN, points every woman who helps about the dairy has a right to insist upon. All other separators run harder than a TUBULAR. They have a great many more parts to WASH and to WEAR OUT.

Let me give you a catalogue and show you the many good points in a SHARPLESS TUBULAR.

Shanklin who was one of the victims of the explosion at Victor, Colo. Wm. Shanklin was 20 years of age and had been in the regular army for the past 3 years being stationed for the greater part of the time at Independence, Colo. He worked for nearly 3 years for Mr. Henry Boyd near Bladen. Internment will be at Greenfield, Iowa, where his wife, who died about 4 years ago, is buried. He leaves, beside his father, 3 sisters and 2 brothers a wife and one child about 4 years old survives him.

Death removed from our midst on Wednesday of this week one of our brightest and most promising young ladies in the person of Vance V. Foe. She was born in Louisville, Cass county, Nebraska, May 28 1881, and soon after came, with her parents, Mr. and Mrs. S. W. Foe, to this county where she has since resided. She received the greater part of her education in the public schools of Red Cloud graduating in 1898 since which time she has been one of the most successful teachers in the county. During the last school year she has been teaching in the village of Upland, Franklin county, Nebraska.

She was a most ambitious young person and had made many plans for the future. As illustrative of the great determination with which it was usual for her to take hold of her work, she was sick with typhoid fever for the last two weeks of her school on Tuesday of the second she was compelled to give up and come home. When she arrived home she did not have the strength to undress, after being assisted to bed she fell asleep, but awoke delirious, recovering consciousness for short intervals. She leaves a father mother and four brothers to mourn her loss, beside her many friends.

The infant child of Victor Manspeker died Sunday and was buried Monday. The child's mother was buried two weeks previously.

An Old Show With New Features.

Many of us have visited the Van Amburg Shows in years past and recollect with pleasure the splendid performance this show always gave the public. It is one of the shows that gives all it advertises and its motto, "Please the people and they will please you," is the cornerstone upon which the great success of the Van Amburg Show is built. Starting more than forty years ago with a small wagon show, today it travels all over the country in its own magnificent cars by special trains. The improvement on the old-time performance is just as great, and every act given in its big tents is of a high order and strictly up to date. Elephants, camels and a large collection of trained animals and ponies are seen in the grand free street parade on the morning of the day of exhibition. Van Amburg's Show will exhibit in Red Cloud Friday, June 17.

Odd Fellows' Home.

At the next meeting of the I. O. O. F. grand lodge will come up the question of locating and building a home for dependent Odd Fellows, their widows and orphans. The home will be built and maintained by the Odd Fellows of Nebraska, and would be an institution worth striving for. The first expenditure on this home will amount to over \$25,000, and the final cost will be much greater. Now would be a good time for the citizens of Red Cloud to get together and make an effort to secure the location of the home in this city. It is a little early yet, it is true, but "the early bird catches the worm," and if Red Cloud is ever to land anything worth having her business men will have to wake up and get to work. The Odd Fellows lodge in this city is one of the strongest in the state, and its members are workers who will do their share toward securing this plum for Red Cloud, provided the citizens show sufficient interest in the matter to warrant their making the effort. The first \$25,000 has already been raised, and work will not be long delayed when a location is once selected. There are any number of suitable sites adjoining Red Cloud for a home of this character, a committee should at once be appointed to see what can be done in the way of making an effort to secure its location here.
