Because they are easy to feed, easy to KEEP CLEAN, easy to TURN, points every woman who helps about the dairy has a right to insist upon. All other separators run harder than a TUBULAR. They have a great many more parts to WASH and to WEAR OUT.

## Read This Carefully

I am making lots of Farm Loans. There are reasons for this. I can close a loan for you in three days after taking your application, for these reasons: You do not have to wait and pay for a man to examine the land. My company has oceans of money. You do not wait for them to sell your loan in New York or London before getting the cash.

## You can Pay Off at Any Time,

without giving a day's notice of your intention so to do. All other companies require from 30 to 60 days notice on this point. I have so many different plans for making loans that some one is bound to suit. No one can give better rates.
