## PRESIDENT ON TRIP

### VACATION WILL EXTEND OVER A PERIOD OF TWO MONTHS.

**Chief Executive Will Attend Gathering of His Regiment at San Antonio, After Which He Will Hunt in Texas and Colorado.**

Washington, April 3.—President Roosevelt left Washington at 9 o'clock this morning on a trip to the west and southwest. He will be absent nearly two months. One of the chief objects of the trip which the president had long had in mind is the reunion of his rough rider regiment of the Spanish-American war, which is to take place at San Antonio, Tex., next Friday, and for which an elaborate program of exercises has been arranged. There will be a number of brief stops en route, where the president will make addresses. Leaving San Antonio there will be a brief stop and address at Fort Worth, which will terminate the public part of the trip, following which the president is to go hunting in the Panhandle of Texas and later in Colorado. All arrangements have been made whereby the president will keep in touch with public affairs both during his railroad ride and while hunting, so that he will be enabled to pass on all matters requiring his attention. The president is looking forward with keen pleasure to his long vacation.

St. Louis, April 5.—The special train bearing the president and party pulled into St. Louis on time last night. When the train stopped at the North Market street station President Roosevelt was at dinner and did not appear. The people congregated cheered lustily in the hope of inducing a glimpse of the president, but almost before the first cheers had died away, the switching engine began shunting the train to the Missouri, Kansas and Texas tracks. Switching continued until 8:30, when, with a long shriek from the whistle of the new engine, the train plunged into its long run to Texas, with a pilot engine running five minutes ahead.

President Roosevelt took more than a passing interest in Indiana and Illinois, the two states through which his special train passed. He discussed with his guests the relative merits of the states from an agricultural point of view and the warmth of the people as displayed at the various places the special stopped or hesitated. At a dozen or more towns the train slowed down and at most of these great crowds were at the depot cheering as long as the train was in sight. He made three speeches en route. They were at Milltown, Ind., Huntingburg, Ind., and Mount Vernon, Ill.

### 37 BODIES RECOVERED.

**State Mine Examiner One of Those Who Lost Lives at Zeigler.**

Carbondale, Ill., April 5.—Thirty-seven bodies of miners who lost their lives in the gas explosion at the mine of Joseph Leiter at Zeigler have been recovered and it is supposed several more bodies are in the mine. The exact number of dead will probably not be known for several days. Among the dead is William Scott Alkinson, state mine examiner for the seventh subdistrict, who lost his life while attempting to reach the bodies of those entombed. After thirty hours only little light is shed on the cause of the catastrophe. The accident is attributed to carbonic acid gas, due to poor ventilation. Every body so far recovered is a blackened mass. Inspector Alkinson was one of the best known miners of the district. He leaves four children and was a member of the Masonic fraternity. Joseph Leiter has arrived at the shaft. The coroner's jury empaneled to inquire into the cause of the disaster has so far rendered no verdict. The taking of evidence may be prolonged several days.

### POSTAL INSPECTOR RESIGNS.

**Official Who Borrowed Money From Storey Admits He Was Indirect.**

Philadelphia, April 3.—George C. Holden, the inspector in the postal service, attached to the Philadelphia division, who admitted that the Storey Cotton company, most of whose officers are fugitives from justice, advanced \$1,100 to him as a loan for a few days, has sent his resignation to Washington. Holden declares that he received the money and paid it back a few days later without any understanding or agreement with the Storey Cotton company that he was to protect the concern against investigation by the postoffice department. The discovery that Holden had received a loan from the company was made by United States attorneys while making an examination of the books of the defunct concern.

The Philadelphia Record says that Inspector Holden declares that Harrison J. Barrett, formerly of the department of justice, Washington, and nephew of the late James Tyner, who was involved in the postoffice scandals, was the attorney of the Storey Cotton company while he was actually connected with the department of jus-

tice. Asked if it was true, as Holden contends, that Barrett was responsible for the failure of the postoffice department to issue a fraud order against the Storey company and that he was their lawyer, United States Assistant District Attorney Stewart said: "I can only say the investigation into the Storey affairs and the discovery of certain papers seems to partially bear out that contention. I know what he got."

### TAKES ROCKEFELLER'S \$100,000.

**Protest Against Oil King's Gift by No Means is Dropped.**

Boston, March 31.—Despite the fact that the prudential committee of the American board of commissioners for foreign missions has practically decided to accept the gift of \$100,000 from John D. Rockefeller to further the work of the board, a committee representing the Congregational clergymen of Boston and vicinity who are opposed to the acceptance of the gift met and decided to continue the protest. It was agreed by the members of the committee that a wide expression of opinion on the question was desirable and for this purpose a committee was appointed to submit the facts and documents in the matter to Congregational ministers of the country. The prudential committee will not take final action on the acceptance of Mr. Rockefeller's gift for two weeks, and it is the intention of the protesting members to learn, if possible, the general feeling among the clergymen of the denomination.

### Brady Is Asked to Resign.

Washington, April 5.—A conditional request has been made upon Hon. John G. Brady, governor of Alaska, for his resignation. The request grows out of the fact that Governor Brady is identified with a mining company which is extensively engaged in advertising its affairs. Secretary Hitchcock wrote to the governor calling his attention to the requirements of the department in matters of this character and telling him he must either vacate his position in the company or resign his office. A reply has been due for about a week.

### SHOOTS HIS WIFE IN CHURCH.

E. D. Novak Is Then Allowed to Walk Home and Slay Himself.

Howell, Neb., April 3.—After shooting his wife as she sat in her pew in the church, owing the other worshippers by brandishing the smoking revolver in their faces and threatening anyone who interfered, E. D. Novak coolly walked out of the sacred edifice, and finally shot himself in a summer kitchen in the rear of his home, dying instantly.

Novak and his wife have had trouble for several years. Two years ago Novak left her and went abroad. Early in February he returned, but failed to make peace with his wife,

and their quarrels during the past two months have been frequent. Without giving a hint of his murderous intentions, Novak entered the church during service and walked straight up the aisle to where his wife sat. Drawing a revolver from his pocket he pointed it directly at her face and fired. With a mocking laugh Novak turned and walked slowly down the aisle brandishing the revolver in the air and threatening to shoot anyone who made a move to stop him. Leaving the church Novak walked deliberately through the main part of the town, still swinging his revolver. His only daughter, Rose, was alone in the house, and when the girl saw her father coming up the street flourishing the weapon she hastened to lock the doors. Unable to enter the house, Novak went round to the rear and into a summer kitchen, and immediately shot himself in the head, dying instantly.

Mrs. Novak fortunately escaped with a comparatively slight injury. The shot entered the side of the neck.

Lincoln, April 5.—The seven-year-old son of Henry Eckhardt was killed at the Union Pacific crossing near Fourth and E streets. The boy, according to reports of the tragedy, was crawling under a string of cars. Before he could get out of danger the engine started up, catching the boy under the wheels.

### Vetoed Binding Twine Bill.

Lincoln, April 5.—Governor Mickey used his power of veto to such an extent that a dozen or more acts of the legislature will come to naught. The first to come under the knife was the binding twine bill, which he vetoed shortly after midnight. Governor Mickey signed the bill providing for biennial elections and the one prohibiting the manufacture and sale of cigarettes and cigarette paper.

### Brown Elected Mayor of Lincoln.

Lincoln, April 5.—Frank W. Brown (Dem.) was elected mayor of Lincoln by a plurality estimated at 800. The Republicans elected the two excise men by narrow pluralities and the balance of the city ticket by comfortable majorities. Under the new city charter, councilmen will not be elected until June. The fight centered on increased license for saloons, and with the two new excise men committed in advance, the license will probably be raised from \$1,000 to \$1,500 a year.

### Austrian Hangs Himself in Jail.

Beatrice, Neb., April 2.—Kacinski Gura, an Austrian who was captured near DeWitt by a posse after it was discovered that he was suffering from hydrophobia, committed suicide in the DeWitt jail by making a hangman's noose with his belt and suspenders. Gura was employed on the Burlington as bridge man when stricken with the malady.
